

# TENDER FEET

LADIES usually have tender feet. They wish a stylish shoe and usually buy one, very often sacrificing comfort on the altar of appearance, for a comfortable shoe is seldom attractive. Realizing this, John Kelly set to work to produce a shoe combining the highest style and greatest comfort. After years of effort he has succeeded as never shoe maker did before.

While we make less money on them than some others we have selected the "Honest John Kelly's" shoe as our leader in Ladies Footwear. In Oxfords they are great bargains at

## Reply to Saloon Circular.

In answer to the circular mailed to the voters of Jackson county:

They would make you believe that your taxes would be higher if prohibition carries, only one little saloon at Woodville pays any money in the county treasury, while each taxpayer in the county pays his part, and it quite a sum, to prosecute the crime caused by drink sold in the saloons of Medford, Jacksonville and Gold Hill. They tell you that the men in favor of license contribute all the money for advertising the Rogue River Valley. How many men are on the subscription list for this fund? And they say that all merchants and business men on this list are in favor of high license, let us see. All the men from North Dakota, all the men from Kansas, Nebraska and Iowa came in here and paid high prices for land, and for every one the saloon man can get to sign wet I will produce three that will sign dry. We, or I, defy them to bring forward one single deal wherein the man will say he is waiting for the county to go wet to close the deal. There are a few saloon men who say that their property is for sale at one-half price or fifty cents on the dollar if she goes dry, but no sane business man will sign his name to such an article. No one but the saloon men say we will have blind pigs. No one but a criminal would start a blind pig and we have laws to handle such and officers to enforce these laws. Of the four drug stores now in Medford, we know they are run by law abiding men and no one has any fear of them violating our laws. In other words they are not criminals. The saloon men even dare to say that among the leaders for prohibition there is not a taxpayer. F. T. Lawton does not pay any taxes, Shortie Garnett does not pay any taxes, L. E. Lozier does not pay any taxes, Will Gore, John Gore does not pay any taxes, John Cox, S. L. Bennett, E. P. Bennett, Dr. Atkins, H. H. Tuttle, A. S. Baker, Wilbur McPherson and hundreds of others do not pay taxes, so they say, but look over the tax role and see.

We defy them to produce one single instance where a bank failed in a dry town during the last panic. In Kansas City, Mo., (wet) several failed. But in poor old bankrupt Kansas City, Kansas, not a failure—and she is dry and the saloon men say so.

No name is signed to these circulars for no man wants his name made public when he asks you to vote in favor of an institution that the best judges of the land, our president, present and past, say is the direct cause of nine-tenths of all the crime committed. We, the prohibition howlers, ask you to vote for the interest of your boys and girls, for mother, wife and sister. On investigation of the office of Secretary of Commercial Club I find that only two out of eleven saloons are members of Commercial Club, and not one single saloon is represented on the subscription list to boost and advertise Medford.

Please answer and say who the taxpayers are that are in favor of license saloons.

H. C. GARNETT
