

## TENDER FEET

LADIES usually have tender feet. They wish a stylish shoe and usually buy one, very often sacrificing comfort, on the altar of appearance. For a comfortable shoe is seldom attractive. Realizing this, John Kelly set to work to produce a shoe combining the highest style and greatest comfort. After years of effort he has succeeded as never shoe maker did before.

While we make less money on them than some others we have selected the "Honest John Kelly's" shoe as our leader in Ladies Footwear. In Oxfords they are great bargains at

GOLD HILL NEWS.

A serious fire was narrowly averted last Saturday morning in Merritt & Co.'s general store in this city. A lighted match had been accidentally

it was discovered the flames were crawling rapidly toward the roof. Parties in the store were soon busy and the flames were extinguished before any damage was done.

A fit subject for the action of the boosters of Gold Hill would be the task of advertising the fishing of this section from a sportsman's standpoint. It is safe to say that there is no better fishing in any stream in the United States than there is along Rogue river at this point, yet there has never been anything done by the people of this section to advertise it. Was it widely known, it is safe to say that hundreds of people would visit our little town every summer, merely for the purpose of fishing in this river. Hotels, restaurants, lodging houses and in fact every branch of business in the town would prosper from these pleasure-seekers. Why do we not look after those things? Not along the fishing, but hunting as well, is excelled in very few places. Gold Hill could be made into a summer resort of the first kind if our people were willing to work to that end.

(Ashland Tidings.)  
Holding that a notary public is a state officer and that his duties and functions are not confined to any particular district or section, Attorney-General Crawford contends that a notary public can officiate at any place within the state during his two year term of appointment. The opinion is given in the case of a notary public who removed from Glendale to Portland.

The Democratic leader in the lower house of congress, John Sharp Williams, is expected to speak at the Chautauqua this season, and incidentally will visit Oregon's great scenic attraction, Crater lake, his interest in that natural wonder having been aroused by congressional discussions relative to appropriations for the Crater lake reservation. Mr. Williams is one of the foremost Southerners of his day and generation.

## Tomato Growing.

Tomato-growing has proved to be very profitable in Rogue River valley. A cannery has been established at Grants Pass to care for the crop and the acreage will be double that of last year. This vegetable-fruit area come into use almost entirely within the past half-century. It has been developed by cultivation from the bright little "love apples," so called—yellow and red, round and pear-shaped, which were grown as ornaments to the garden border by our great-grandmothers and which the children were warned not to touch, as they were poisonous—to the smooth, bright, large and toothsome product grown by the ton and found upon the tables of rich and poor alike the year round. The yield, when properly cultivated, is from 20 to 40 bushels to the acre, and the season in Rogue River valley lasts from August until November for the fresh product and the year round for the canned product the country over. A tomato field with plants bearing ripe, green and growing fruit and still set with points of yellow blossoms is a sight worth going far to see. It is seen at its best in the Rogue River valley in the late summer and early autumn.—Portland Oregonian.

READ THE MORNING MAIL.

## Viewed the Valley.

C. F. Martin, accompanied by C. L. Thompson, of Spokane, made a trip to the topmost point of Roxy Ann yesterday—just to see what the valley looked like in a bunch. Come to think of it, why could there not be some kind of conveyance contrived whereby all visitors to the valley could be taken onto this mountain and from its summit be shown the grand panorama which the valley offers. Who was it, some years ago, who had a scheme for operating a cable line from Medford? Was that Francis Fitch or W. E. Phipps?

J. D. Heard III.

J. D. Heard is lying dangerously ill of inflammatory rheumatism at his home, at the Sterling mine. Dr. Conroy of Medford and Swenson of Portland are in attendance. Mrs. Heard was in Medford Wednesday on business and when she left in the morning Mr. Heard was easier, but a telephone message received while she was at once returned. His many Medford friends will be grieved to learn of Mr. Heard's affliction and will be uneasy until they learn of his recovery.
