

TENDER FEET

LADIES usually have tender feet. They wish a stylish shoe and usually buy one, very often sacrificing comfort, on the altar of appearance for a comfortable shoe is seldom attractive. Realizing this, John Kelly set to work to produce a shoe combining the highest style and greatest comfort. After years of effort he has succeeded as never shoe maker did before.

While we make less money on them than some others we have selected the "Honest John Kelly's" shoe as our leader in Ladies Footwear. In Oxfords they are great bargains at

devastation of his crop of cherries by birds, the crows being the most annoying. He usually starts in by shooting one of these birds and then suspending it from a pole in the top of one of the trees. After a few days the crows become accustomed to seeing their deceased mate thus suspended and a new device must then be resorted to. Strings are oftentimes strung from tree to tree and to these are attached bits of paper and sometimes pieces of bright tin are used to frighten them away, but at picking time the continued service of the shotgun is required. Aside from growing some very fine fruit, Mr. Bennett has given considerable attention to growing nursery stock, the standard varieties of fruit being given the most attention. He has already contracted for this fall's delivery over \$300 worth of pear trees alone.

The first of the series of socials planned by the members of the Junior Aid society of the M. E. church was given by Misses Wines and Wetzel Monday evening. The first part of the program was given at the home of Miss Wetzel, consisting of games, music, etc. The refreshments were served at the home of Miss Wines. A general good time was enjoyed by all.

Major C. W. Darling and Hon. Guy Wallace of Fargo, N. D., arrived in Medford yesterday and are visiting their old-time friends, George O'Connell and family. These gentlemen are prominent in law profession in Fargo and are men of means—and if the North Dakota contingent already so pleasantly and profitably anchored here, can influence, and make their influence sound right, there will be a couple more names added to the roster of North Dakota boosters.

—The old Howard ranch three miles south of Medford and two and one half miles west of Phoenix, is now cut up in small tracts to suit the purchaser. One quarter cash, balance in three payments. This is a rare opportunity for men of small means. Listed with all agents. 19-122-p

H. M. Mason of Valley City, N. D., dropped in on his old-time friends, M. N. Campbell and S. A. Nye, yesterday and after spending a few days here he will join his family at Lodi, Cal. This is the second time Mr. Mason has stopped off here to see his friends, but it is a noticeable fact that both times he has seen a goodly number of our orchards, and a great deal of our orchard land, and it would not be very much out of the ordinary procedure of gentlemen of his kind should he invest a few thousand dollars here—and when he once gets himself tickled up with this notion there won't be anything doing to his liking any place except in the Rogue River valley.

FOR SALE—47 head good grade Cotswold sheep and stock hogs. John B. Hair, Woodville, Or. 25-21

C. W. Austin of Derby made timber proof before Commissioner Blinton yesterday. His witnesses were Scott S. Bruce of Derby and George Lindley of Medford.

J. B. Ferguson of Los Angeles arrived in Medford and will stop around here until he finds something which will part him from some of his coin of the realm.

Mr. and Mrs. D. H. Flynn of Grants Pass were in Medford yesterday. These people are but recently from Westport, Minn., and it is not at all improbable that they will invest in or about Medford.

Left for Wasson Canyon.

(From Wednesday's Daily.)

Yesterday morning the water committee of the city council left for Wasson canyon, accompanied by Engineer Cummings, who is doing the field work in the matter of the preliminary survey of the pipe line. The committee will be taken over the line of survey first run by Engineer Cummings so that they will know about where the line is going to run. The line has not been exactly decided upon, but the engineer is close enough to the line to show the water committee what difficulties have to be overcome.

It is the intention of the committee to visit the canyon where a well has lately been constructed by Engineer Cummings, so that the water in the canyon can be accurately measured. At the present time there is between 16 and 18 second feet of water in the canyon. Six second feet is said to be enough for a city of 20,000 inhabitants.

Now that the money has been obtained for the construction of the gravity water supply the work is to be rushed to its completion. The water committee will probably be back in time to make a report to the city council, which is to be held this evening.

ing to the fact that there are some people in the city who are of the belief that there is not enough water in the canyon during the dry months for this city, the committee has decided to be even more careful in going ahead than they have been, if that be possible. They are doing all in their power to properly safeguard the city, and those who know the men who are on the committee know that the matter rests in good hands.

Shot His Sister.

Mary Hall, the 10-year-old daughter of John S. Hall of the Big Butte district, was shot by the accidental discharge of a rifle in the hands of her older brother, Harry, on Saturday evening. The bullet entered the flesh just above her knee, passing through. Medical attention was given in order to prevent blood poisoning. While the wound is a very painful one, it is not at all dangerous.

Harry Hall has just returned from a hunting trip in the woods and was showing his sister the same he had bagged when the rifle in his hands was discharged. His sister cried out that she was shot and the young man rushed to her side. Mrs. Hall was summoned and the child was borne into the house.

For Sale.

Land that is equal to Rogue river valley land, but is cheaper.

Five hundred and seventy acres of land, more or less, almost adjoining the town of Yoncalla, Douglas county, Oregon; about two-thirds of the place good for agricultural and horticultural purposes, the balance covered with a dense growth of scrub oak, which when converted into cordwood will more than pay for clearing and leave that part in good shape for cultivating as aforesaid; small house and large barn on the place. For further particulars as to price, etc., inquire of the owner, Mrs. J. M. Shelley, Eugene, Or., or her son, C. F. Applegate, Yoncalla, Or. if

James Sherman Seriously Ill.

(Associated Press Dispatch.) CLEVELAND, O., June 23.—At midnight, Sherman's temperature was 102, pulse 88, respiration 28; sleeping at intervals. No more bulletins unless marked change.

In 11 o'clock bulletin temperature was given at 102, with pulse at 92. At that hour Sherman was resting somewhat more comfortably than earlier in the evening. The extreme heat of the day, running into the nineties, did not add to the comfort of the patient.

CLEVELAND, O., June 23.—Representative Sherman was removed from the home of former Governor Herrick early today to the Lakeside hospital, suffering from gall stones. It is reported in an official bulletin issued tonight that he is holding his own after a somewhat restless day. The bulletin says if his condition continues to improve it is not likely that an operation will be necessary. Sherman late this evening dictated a telegram to Secretary Taft and his physicians assure him the sickness is not of a critical nature and that he will be able to go home in three or four days. He says he expects to see Taft in Washington the middle of next week. An unfavorable symptom in the case is the continued high temperature.

An effort to reach Dr. Morrison of Johns Hopkins university met with no success as he had sailed for Europe.

Secretary Taft at Ball Game.

(Associated Press Dispatch.) NEW HAVEN, Conn., June 23.—Amid a scene of wild jubilation and as picturesque a mass of humanity as ever, a setting of a baseball diamond, was that which the alumni of Yale presented as a greeting to Secretary Taft this afternoon as he sat with the class of '78 in the stand on the Yale field to witness the game with Harvard. His cup of happiness was overflowing, for not only was the crowd a record breaker in his honor, but Yale whipped her rival by a score of 3 to 0 in a game full of better playing than either team has shown this season. Taft, in the front rank of the class of '78, followed by the band and flanked by Stars and Stripes and the banner of the class of '78, it marched twice around the field in the full view of more than 14,000 wildly cheering men and women, followed by reunion classes numbering several hundred young men in fantastic and striking garb such as only schemers can devise and which have made Yale class reunions so notable. Taft was loyal to his class, as he said he would be, and stayed with it through the game. After its conclusion he went on the field, where he held a reception to a knot of friends, and then left in an automobile for President Hadley's residence.

NEW HAVEN, Conn., June 23.—This has been a glorious day for

"Old Eli" and a glorious day for Secretary Taft. "Big Bill," as he is affectionately termed, was the center today of an enthusiasm surrounding the Yale commencement day festivities. Throngs of students and citizens of New Haven followed the secretary's every movement. From the moment he appeared this morning at Woodbridge Hill, where he attended a corporation meeting, until tonight, when he left Edward's House, the headquarters of his class, for the country club to attend a class dinner, thousands of people were constantly about him.

BRYAN PRAISES CLEVELAND. Democratic Leader Writes Words of Tribute to Grover Cleveland.

(Associated Press Dispatch.) LINCOLN, Neb., June 24.—William J. Bryan wrote a tribute to Grover Cleveland in which he declares the ex-president's death brings to an end a phenomenal career of one of the strongest characters of the present generation. Even those who disagreed with him were as ready as his warmest friends to concede him the elements of leadership to an extraordinary degree. Few men, says

Bryan, have exerted a more positive influence upon those associated with them. Concluding, Bryan says: "We are not far enough from the period in which his work was done to measure accurately his place in history, but qualities which made him great are a part of the nation's heritage and universal sorrow will be felt at his death."
