

# TENDER FEET

LADIES usually have tender feet. They wish a stylish shoe and usually buy one very often sacrificing comfort on the altar of appearance for a comfortable shoe is seldom attractive. Realizing this, John Kelly set to work to produce a shoe combining the highest style and greatest comfort. After years of effort he has succeeded as never shoe maker did before.

While we make less money on them than some others we have selected the "Honest John Kelly's" shoe as our leader in Ladies Footwear. In Oxfords they are great bargains at

You fellows who hink the weather here is warm just listen to this: Tim McKeenan arrived in Medford yesterday from Imperial Valley, Cal., and he tells that on July 5th the thermometer registered 122 in the shade. This is the country A. Helms and Mark Pellett went to a few weeks ago. My, but the shade of those mountain apple trees in the orchards here which the boys owned once would be to them at this time like a gale from the polar regions.  
For Sale.  
Land that is equal to Rogue river valley land, but is cheaper.  
Five hundred and seventy acres of land, more or less, almost adjoining the town of Yoncalla, Douglas county, Oregon; about two-thirds of the place good for agricultural and horticultural purposes, the balance covered with a dense growth of grub oak, which when converted into cordwood will more than pay for clearing and leave that part in good shape for cultivating as aforesaid; small house and large barn on the place. For further particulars as to price, etc., inquire of the owner, Mrs. J. M. Shelley, Eugene, Or., or her son, C. F. Applegate, Yoncalla, Or. if

**BUTTE FALLS.**  
The Celebration There Was All that Could Be Desired.  
The observance of the Fourth at Butte Falls was all that could be desired from a good time standpoint. The day was replete with good features, and those from the surrounding country who spent the Fourth there say that there was nothing to be desired. Hon. S. S. Peats was the orator of the day. Butte Falls won the base ball game with Eagle Point by a score of 9 to 8. Butte Falls won the tug of war championship against all comers after several exciting contests.  
Young People's Picnic.  
Last Friday evening a number of Medford's young people left for a few days outing on the Little Butte. They caught a large number of fish and had a general good time returning to Medford Monday morning. Among the number were: Mrs. William Foster, Mrs. Birdie Smith, Misses Adalthe Horning, Cecil Boswell, Bessie Ellison, Nora Daley and Ruby Batley; Messrs. William Foster, Louis Bennett, Olene Davis, Charles Hoover, Paul Hansen, Fred Metz, Robert Horning, Ralph Allen, Clarence Vincent, Cleve Currae.

### Street Work Begun.

(From Thursday's Daily.)  
Today a start will be made towards the improving of Seventh street, when the Medford Cement company will put on a force of men to put in the cement curbing on the street. The Medford Cement company is to handle all of the cement work, a contract having been let to them by the Warren Construction company, which holds the contract for the paving of Seventh street.  
There is probably no public improvement contemplated by this city which is of greater interest to the citizens of Medford than this one. For many months has the paving of the street been discussed. Each successive step from the day the matter was first agitated has been closely watched. During the spring there was nothing more discussed than the paving of Seventh street. Therefore the news that the work is actually to start will prove a source of much gratification to many.  
Yesterday the work of laying the steel on the spur line from Jacksonville to the city's quarry was begun. It is thought that the work will be completed within four days, as all of the timber is laid, and all that remains to be done is the spiking of the rails and the ballasting of the road-bed. It is from this quarry that the crushed rock for the work on Seventh street is to be obtained.  
The city engineer is at the present time having the two rock crushers of the city overhauled. These will be installed as soon as possible and then the rock will be available.  
Within a few months the main streets of this city will be covered with the bitulithic pavement, and it is well.

### Not the Ferry Seed Company.

(From Tuesday's Daily.)  
Some time ago The Morning Mail published a story to the effect that the D. M. Ferry Seed Company would start operations on the place recently purchased by J. M. Sweeney of Detroit. It develops that we were mistaken in our information as papers may be at times. The following letter received by us from Mr. Sweeney explains the matter:  
Editor Morning Mail;  
I noticed an article in the Weekly Mail, published Friday, June 26, stating that I had purchased the old Bleeker place near Jacksonville, in the interests of the D. M. Ferry Seed Company of Detroit. Whoever give you this information manufactured it out of the whole cloth. There is absolutely not one word of truth in the statement. No one connected directly or indirectly with the D. M. Ferry Seed Company of Detroit is either directly or indirectly connected with the purchase of this land. The land was purchased by me for the purpose of growing fruit on a large scale and a company is now being organized for that purpose, to be known as the Glen-Rogue Orchard Company.  
What makes this article somewhat annoying to me is the fact that two of our Detroit papers have published a similar item—no doubt having received the same from the Medford and Jacksonville papers.  
I have stated to my friends since returning here that I was agreeably surprised to find that the Rogue River Valley was occupied by a superior class of Americans—highly cultured and intelligent—but I did not state that your beautiful city numbered among its inhabitants an individual with a Julius Verne imagination.  
The Glen-Rogue Orchard Company will take possession of the farm in question when it is fully organized and its financial matters arranged, and we will do our best to become good citizens of your beautiful city, and to contribute our quota of high-class fruit in the future, for which Medford is already justly famous.  
Yours respectfully,  
John M. Sweeney.

Portland Business College insistent-ly hammers away at quality is most admirable. If there is any feature on which special stress should be placed in educational matters it is thorough work. This splendid school has an advertisement in our columns, to which attention is called. It is not often that The Mail prints an announcement so attractive and so well worded. Anyone interested in a practical education should write for a catalogue of the Portland Business College, and learn of the many advantages it offers.
