

## TENDER FEET

LADIES usually have tender feet. They wish a stylish shoe and usually buy one very often sacrificing comfort on the altar of appearance for a comfortable shoe is seldom attractive. Realizing this, John Kelly set to work to produce a shoe combining the highest style and greatest comfort. After years of effort he has succeeded as never shoe maker did before.

While we make less money on them than some others we have selected the "Honest John Kelly's" shoe as our leader in Ladies Footwear. In Oxfords they are great bargains at

The Oregon Granite company of this city has a contract for the Western Orchard company for a number of granite posts to mark the corners of quarter sections on the ranch. On the stone will be cut the number of the corner.

Councilmen H. G. Wortman and F. E. Merrick and Superintendent W. J. Roberts returned yesterday from a visit to Wasson canyon, where they went to look after water matters for the city. They decline to give a report of the details and object of their visit at this time.

Harry Angle, ex-chief of police of Medford, returned to the city yesterday from a three months' stay at his placer mine on Grouse creek. He has cleaned off a good bit of bedrock, but has made no clean-up as yet. The ground has all been rich and he is expecting a good showing when the clean-up is made.

Landlord T. H. Moore has a new galow he has but recently built is a

good one, and cost upward of \$4000. He has electric lights and hot and cold water in every room. This water comes from a 25-foot well and is pumped with an electric motor. He has 15 acres of his land set to Bartlett pears and 15 acres to Newtowns. While you people are planning your outing you ought not to overlook Coolestin. The hotel this season is under new management, Mrs. Stone of Spokane having leased the place for the season. She is one of the most accommodating hostesses who has ever had charge of the place, and her family is equally as courteous. The place is kept spotlessly clean and the table fare is good—first class. The grounds are clean and the pure mountain air is very exhilarating—and the mineral water is just what it has always been, the best over.

L. E. Van Vleet of Central Point was in the city yesterday. He expects to leave soon for Lane county, this state, where he expects to reside. It's a shame that these good orchardists should "hike" for other parts just as soon as they have gotten rich in Jackson county—but we fancy when they have spent their golden coin looking for something "just as good" they'll be "hikin'" back to the land that's best of them all—and commence over again. His crop this year we understand, is an exceptionally good one there being a splendid yield, and in size the fruit is unusually large, some of the apricots measuring eight and a quarter inches in circumference. Persons traveling on foot on West Seventh street had best take the Populists' trail—the middle of the streets—if they would avoid possible accidents. Between the putting down
