Dated at Medford, Oregon, this July 31st, 1908.

W. B. Jackson, Administrator.

BRITAIN'S METROPOLIS.

LONDON, Aug. 3.—The curious statisticians have been presenting the papers with some astounding figures concerning London's population, its food requirements from without and what would happen iff the sources of supply were cut off.

Never in the world's history before, it is said, has there been a huge community of between six and seven millions of people living crowded together upon a small area and entirely dependent for their food upon supplies from outside that area.

London, which with its outer rings, and including also the enormous number of visitors now present, has a present total of close on seven millions of inhabitants and produces nothing in the way of food stuffs itself. If it were possible for London to be besieged as Paris was in 1871, and cut off from communication with the outside world, starvation would begin to make its pains felt at once.

Everything that Lodon gets has to be brought into the metropolis.

The flour for the breakfast rools was made from wheat which last year made golden the rich prairies of western Canada; the milk and cream came up from somerset, the rolled oats for porridge was imported from the United States; the bacon is Dutch, the eggs Danish, the butter Norman. The fish were caught in the North Sea. The coffee ripened on an Indian plantation. The oranges for the marmalade grew under the burning sun of Spain.

ANOTHER AMERICAN CARDINAL.

ROME, Aug. 1.—At the Vatican tonight it was considered certain that the pope would have consistory either before November 1, when the reform of congregations becomes effective or in December, at the close of his jubiless year. In either instance, it is asserted, his holiness will create 10 new cardinals. The presence of Cardinal Gibbons is expected and will result in the decision where or not there will be another American cardinal chosen.

PERHAPS A MURDER.

SAN FRANCISCO, Cal., Aug 1.—Varnai Revaik, the 18-year-old son of R. E. Revaik, died early this morning at Harbor Emergency hospital from the effects of poison, reported to be cyanide of potash or chloral hydrate. The boy's father believes that his son was murdered. The police believe it was a case of suicide, though they admit an apparent absence of a motive.

Last evening Revalk attended a reception and afterwards escorted one of the young ladies home. Next he telephoned to his father that he would not be home, and then called up some boy friends to meet him at a saloon The boys disappointed him, and after waiting some time he departed About 4 o'clock he was seen in another saloon on Filmore street. He bought a quart bottle of mineral water and, after standing on the street cub some time, hired a hack to go to the ferry. At McAllister street he called to the hackman to mail a letter for him. This was addressed to Leland Sparks, a son of the late Governor Sparks of Nevada. When the hackman reached the ferry he called to Revalk and, receiving no reply, opened the hack and found the boy covered with froth.

He drove to the Emergency hospital, where the boy died within five minutes. Examination of the bottle of mineral water showed that Revalk had drunk a large portion of it.

He was to have sailed for Manila Wednesday to take a government position, and it is thought he became despondent at the thought of leaving his home.

DEFECTIVE FISH LADDERS.

Sportsmen complaint of the scarcity of fish in Rogue river this season and the general opinion is that inadequate fish ladders at the different dams are largely responsible for the shortness of the fish crop, says the Central Point Herald. The Golden Drift dam, near Grants Pass, is said to stop most of the salmon and steelheads and the few that surmount that obstacle soon run against the Gold Ray dam, which at the present low stage of water seems to be an effectual hindrance to fish on their journey to the spawning ground. The present fish ladder does not apparently extend far enough towards deep water for the fish to have much show getting over it. Persons familiar with the conditions there report that recently not a fish can be seen trying the ladder, while on the other side of the river, where water from the breast of the dam strikes the slanting bedrock close to deep water, dozens of fish may be seen trying to make it over. In two or three basins were constructed on the shelving bedrock at that place the fish could evidently cross the dam without serious difficulty. The attention of the state fish warden should be called to this condition.

AIRSHIP SAILING.

NEW YORK, July 31.—Rising from the ground like a giant bird and darting through the air at express train speed, Henry Farman's aeroplane, or heavier-than-air-flying machine, brought here from France, made its initial flight in this country late this afternoon at Brighton Beach. It rose from an especially prepared "dock" at the will of its inventor, and after attaining a height of 25 feet, flew straight ahead on a direct line, finally alighting with exquisite grace when the air pilot diminished the motive power. The landing provoked cheers. Farman was surrounded and litterly hugged by jubilant aeronauts.

As a rival attraction to Farman, Frank Hamilton, the American aeronaut, sailed his dirigible balloon into the race course. During his flight the propeller broke and the balloon was banged against the grandstand, throwing Hamilton out. Farman was the first person to go to his assistance, and shook his rival warmly by the hand. Hamilton secured a new propeller and sailed away.

KETCHELL AND KELLY.

SAN FRANCISCO, July 31.—Stanley Ketchell of Grand Rapids made short work of Hugo Kelly of Chicago tonight in their scheduled 20-round contest for the world's middleweight championship. He knocked his man out after but 25 seconds of fighting in the htird round, a left shift flush to the jaw placing Kelly hors de combat. Although Ketchell won early, the victory was not an easy one. In fact, it looked a bit blue for the champion as he took his seat at the termination of the second round.

In two rounds Kelly outfought his man from the tap of the gong to the end of the round. Ketchell came up quickly for the third round and immediately laced out with his left, which he placed twice in succession to the Chicago man's jaw. Before the semi-dazed Italian had a chance to catch himself, Ketchell shifted his left to the jaw and Kelly toppled over as though struck by a sledge hammer.

ATHLETES RETURN AUG. 29.

NEW YORK, Aug. 3.—Sunday, August 29, is the date set for the reception for the returning athletes who participated in the Olympic games. President Roosevelt will be chairman of the committee of 500 citizens. He and Governor Hughes will be asked to assign regiments of the regular army and National Guard of New York to attend the ceremonies.

GOULD DOWN AND OUT.

NEW YORK, July 31.—The street evidently did not like George Gould's interview on his return from Europe. Missouri Pacific broke about three points shortly after the opening.

The impression prevailed that Mr. Gould is down and out so far as his control in the so-called Gould lines is concerned. As he said himself, he has lost some diamonds out of his crown, but it would seem as if Emperor Harriman had stepped in and usurped crown and all. In fact, Mr. Gould virtually admitted this.

Were it not for the more or less demoralized condition of the Gould affairs the entrance of Mr. Harriman into the control would probably be considered by the financial community as a bull point on the Gould stocks, but the street wants to see the Gould roads put on their feet first.

WILL LOCATE HERE.

Gustave Edlund is in the city and signifies his intention of staying and making his home here. Mr. Edlund is not entirely a stranger in a strange land, as he was here about four months ago and became the possessor of 20 lots in West Medford through a trade for some property he owned near Phoenix.

Mr. Edlund was located in Central California until about a year ago. After investing here he made a trip to Sweden and spent three months there visiting with his parents. Both before and after going to the old country he traveled all over the western country, and declares that he has seen no district that can compare with this, taking everything into consideration.

BARS ANT HUNTING.

OYSTER BAY, N. Y., July 31.—President Roosevelt has approved the dismissal from the military academy at West Point of eight cadets who were found guilty of hazing underclassmen. Both the report of the board which tried the cadets and that of the superintendent of the academy were approved by the president. Secretary Loeb said today that reinstatement of the men could be accomplished only by congressional action.

The hazing consisted in underclassmen being forced to capture "one hundred nice, fat ants."
