President Ulen of the American Light & Water company of Kansas City and Los Angeles has been in the city for a short time and yesterday was taken out for a drive by Mayor Reddy and some of the councilmen. On the trip they paid a visit to the Lewis and Burrell orchards and took in all the surrounding country.

When returning to the city, Mr. Ulen made a few remarks very complimentary to Medford and the Rogue River valley.

"Before coming here," he said, "I thought the city was rather reckless in going into a debt of \$365,000 for a waterworks system when it only had a population of about 5000. However, after looking around here I really believe that if I had a day or so more here to spend I would have to have a nice chunk of your lands."

The company of which Mr. Ulen is president is the lowest bidder for installing the proposed new waterworks system and is highly recommended by the parties who purchased the bonds.

JOE DERRY.

NEW LIVERY FOR MEDFORD.

C. O. Powers, architect, in the employ of Perkins & Janney, is putting in long hours these days perfecting plans and specifications for a grand new livery barn for H. O. Duncan.

The site for this structure is on Eighth street, between Riverside avenue and Bartlett street. It will face on Bartlett street and will extend east the full width of the block. The building will be 64x134 feet in size, built of lumber, but later will have a brick veneering on the outside. It will be two stories high and will have stabling room for 60 head of horses and a carriage room capable of accommodating 44 rigs and six or eight automobiles. The second story will afford room for 50 tons of loose hay or 100 tons of baled hay.

Part of the second story will be used for a carriage and automobile room and will be reached with these vehicles by an elevator operated by an electric motor. There will be sleeping rooms for employes, a harness room and a oillet. Besides these, there will be the office and a nicely fitted up waiting room with lavatory and toilet for ladies.

The cost of the building will be about \$5000. The site, as described above, is just one block south of where the old Union stables were located for so many years. This building, when completed, will be as convenient and imposing a structure as it is possible to make a structure for this use, and Mr. Duncan is entitled to a great amount of credit for his enterprise in putting up so good a building.

MAY COME HERE.

William Steinboff of San Jose, Cal., dropped in upon his brother-in-law, F. M. Stewart, and other relatives Monday. This was the first meeting of these relatives in 25 years. Mr. Steinboff has a fine farm on Eel river, in Humboldt county, California, and a home in San Jose, where he has lived for many years.

He is desirous of getting a change of climate and has been looking over the country east of here, especially Idaho, but as yet has found nothing exactly to his liking. He will look over this region for a few days before returning home. Should he find something suitable for a home here for himself and family, he will likely locate in the near future.

HAVE GONE TO MEET THEM.

(From Wednesday's Daily.)

Mayor J. F. Reddy and Edgar Hafer left Medford yesterday afternoon in an automobile for Prospect and Crater Lake, and this morning three other automobiles will leave for that section. These will be the cars of J. W. Olwell and W. C. Green and accompanying them will be Mr. Olwell, Mr. Green and Hon. W. M. Colville. A. W. Walker will also go with them with one of his cars, this latter to be used as an emergency or supply car.

The object of all this going Crater lake way at this time is to meet E. H. Harriman and Governor Chamberlain at Crater Lake and bring them to Medford. They expect to leave the lake on their return about Friday morning.

The parties from here are leaving thus early so they will have time to pick up some laborers up that way and have the roads repaired in a few places before the return.

MAY START A COLONY.

Henry Pohlman, who returned a few days ago from quite an extended visit in Kansas, must surely have said some good words for Medford and the Rogue River valley during his absence, else results would not have so quickly materialized, and one of these results is the arrival in the city of F. Shellbeck of Kansas, who is here in the interests of a number of well-to-do German neighbors of his.

It is the intention of these people to buy a tract of not too valuable unimproved land and colonize. There is a considerable such land in the county which, if in the hands of a colony of thrifty and energetic people, could be made to produce as plentiful as do the acres of our land which are now termed the "best on earth."

ARCHITECT LYONS BUSY.

Charles D. Lyons, the architect and contractor, has on hand work connected with the following buildings: S. S. Swinning, a bungalow in the southwest part of the city, to cost \$1250; a cottage just completed for H. H. Calhoun, costing \$750; an addition to the residence of George Jackson costing \$1250.

Mr. Lyons is also making plans for four residences to be built here, one costing \$3000, one to cost \$2500, one at \$1500 and one at \$1000. He has also got an order to prepare plans for a residence for Will Jackson to cost \$2800.

BOGS' MONEY ORDERS.

A dispatch from Albany, Or., says: "The merchants are warned against cashing money orders for strangers. There has been several thousand blanks stolen from the department and are in the hands of shrewd manipulators who are flooding the country with them. People who cash them have no redress, as the government does not make good in such cases. Postmaster Van Winkle is on the alert and hopes for the co-operation of the Albany merchants in detecting any violation."

SITUATION IS BETTER.

The water committee has borrowed from the Condon Water & Power company between 2500 and 3000 feet of water pipe, which has been laid above ground from the Fish Lake ditch to Medford, together with a motor and transmitter. For the use of these articles for a few days, or until such time as the fall rains will replenish the supply of water in Bear creek, the city will have to pay this company \$197, which is claimed to be a 10 per cent deterioration in the value of the property loaned. An option is given to the city to purchase the pipe at about \$1200, and if purchase is made no charge, of course, will be made for deterioration on the pipe.

I. L. Hamilton, a member of the Fish Lake Ditch company, has very generously given to the city all the water which may be needed for the city's use in tiding over the present dry spell, and as a result of the efforts of the water committee and the generosity of Mr. Hamilton the city is supplied with sufficient water for fire protection and a limited amount for irrigating purposes.

The well at the pumping plant was pumped full of water from the ditch Friday night and will be kept full all the time, if the improvised pumping system can do this. There is plenty of water in the ditch, but the means of getting it here are crude and not to be relied upon, and the committee very wisely limited its use for irrigating.

You may now irrigate your lawns and gardens from 6 until 8 o'clock in the morning and from 7 until 8 at night. See notice elsewhere in these columns.

MEDFORD'S NEW BAKERY.

In another place in this issue of The Morning Mail will be found the announcement in reference to the erection of a large livery barn to cost the sum of \$5000. Now comes the news that Medford will soon have a new bakery, the finest in this part of the state.

The lot for the bakery has been purchased and work will commence in the course of a few days. It will be located on F street, in the Helm's addition. The building will be owned and the business conducted by Edward Hall and Delvert Fehl, both of whom are practical bakers and confectioners.

Due to Millar.

J. W. Harrell and sons, W. A. and Joseph, S. J. Tipton, C. E. Dotson and their families arrived in Medford yesterday from McLean, Tex. There are 11 grown people and five children in the party, and they are expected to locate here. A. H. Millar, secretary of the Medford Commercial club, is directly responsible for the coming of these people. He has corresponded with them and has sent them literature telling of the valley. If Tom Richardson does not look well to his laurels Mr. Miller will have them all dangling at his belt. These recent arrivals are seemingly well-to-do people and Mr. Miller may be congratulated upon having been the means of their being here.

ALL BUT ONE.

G. W. Taylor, the county fruit inspector, is now making an investigation of the nurseries of the county. He has found nine of them and has inspected their stock, and out of the nine he has found but one which is growing anything but clean stock. The owners of the eight which he has inspected and found clean, however, are prohibited from selling any stock, until they have provided themselves with a certificate of cleanliness from pests or disease which the law now requires they shall have. These certificates must be issued by the county inspector.

Mr. Taylor would not give the name of the owner of the unclean nursery, but he stated that his stock would have to be put in a perfectly clean condition before he would permit him to sell stock.

There may be more than nine nurseries in the valley. Mr. Taylor does not know positively as to this, because he has not been over every part of the county.

GUN CLUB TOURNAMENT.

The fourth annual tournament of the Medford Gun club closed yesterday afternoon and the visitors as well as the local members joined in saying that it was a very successful affair. The intention is to hold another one about the same time next year and to have it on a larger scale.

The silver trophy was won yesterday by C. H. Minard, who scored 25 out of a possible 25. The other scores in this event were: Enyard 22, Seely 22, Garratt 18.

In the other events the scores were as follows:

The score in the events in which 150 birds were shot at were:

First event—Carlton 131, Garratt 135, Peyton 143, Haight 136, Nauyman 134.

Second event—Reith 144, Hills 141, Justina 126, Reed 145, Ellis 144.

Third event—King 143, Hoelle 138, Enyard 137, Moras 131, Willits 136.

Fourth event—Smith 122, Biden 123, Seely 128, Meek 125, Tolla 114.

Fifth event—Rickhoff 139, Boyden 126, Leed 117, Helman 140, Perry 123.

In a special event in which 35 birds were shot at the score was: Willits 23, Ellis 24, Haight 22, King 22, Justin 22.

NEW OWNERS ARRIVE.

William Clark and son of Palisade, Colo., and H. C. Whistler of the same place, arrived in the city last night and will at once take up their residence. These are the gentlemen who purchased the Hunt Lewis orchard of 235 acres, for which they paid \$160,000. One of these gentlemen, Mr. Whistler, recently sold fruit land near Palisade for \$4000 an acre. Mr. Whistler will have charge of the Lewis orchard.

BUNGALOW TO BE ERECTED.

Attorney O. C. Boggs, who recently purchased a residence lot on South Central avenue, just north from J. W. Cox's beautiful home, is having Architects Perkins & Janney prepare plans for one of the prettiest and most up-to-date bungalows yet built in Medford. C. O. Powers, superintendent of architecture for the above firm, is working out the designs.

It will be 32x48 feet in size and will contain six rooms, besides bathroom, closets, pantry and a screened-in porch and open-air sleeping apartment. There will be a large front porch with cobblestone piers and approaches and with beamed ceilings. The chimneys and fireplaces will also be of cobblestone.

The interior of the dwelling is to have the very latest designs of inside panel work and beamed effect. The location of this building is decidedly a good one and the erection of such a structure as this one will add materially to the already pretty surroundings.
