LOCAL AND PERSONAL

(From Sunday's Daily.)

Mrs. Kay Crystal, who has been in the city several days visiting her parents, Mr. and Mrs. James Kernan, and in California among friends there for a short time, returned to her home at Pendleton, Or., yesterday.

O. Knox of the firm of Knox & Angel, of Provoit, who are engaged in the sawmill business there, is in this region looking for a suitable place to locate their mill, they having about exhausted the supply of good timber where they are. Mr. Knox spent Saturday in this city.

Mr. and Mrs. W. H. Bradshaw were at the train yesterday to meet their friends, Mr. and Mrs. Heatn, of Los Angeles, who passed through on No. 14 for Seattle. Mr. Heath bought apples here last season for E. Piker & Co. of Los Angeles.

Mrs. A. B. Williams and children arrived yesterday from Salt Lake City to join Mr. Williams, who came here a few weeks ago and decided to locate, making an investment in future orchard lands and taking a position with The Morning Mail.

Meredith, the young son of Mr. and Mrs. W. L. Rosenberg, who has been so dangerously ill with typhoid fever for several weeks, was removed from his home to the Medford hospital Thursday. He is still very low, but there are hopes of his recovery.

Mr. and Mrs. E. A. Johnson of Drain, Or., are in Medford visiting their many old-time friends. It has been several years since they were here and they notice great changes in our city in that time. They will

remain only until Monday—and we are all wishing they stay could be longer. They are good, honest and right living people and there is a warm welcome for them in the homes of all Medford people who knew them when they helped to make up the few there were here in days gone.

Mrs. H. Jurgens, who has been in the city several days visiting Mrs. W. M. Kennedy and other friends, left yesterday for her home at Pendleton, Or., where Mr. Jurgens is a division roadmaster. He was formerly section foreman on the Southern Pacific at a place.

About 25 head of horses recently brought here from the John Day country by Knox & Sons, were sold at auction at the West Side stable Saturday. Only a part of them were broken to work and they sold at from \$20 to \$120 each. Dave King was the auctioneer.

Rev. F. C. Williams and family will leave Monday for a pleasure and business trip to various parts of the county. Mr. Williams will take with him his stereopticon outfit and will give entertainments at Eagle Point, Brownsboro, Butte Falls, Trail, Sam's Valley and at several other places.

C. V. Hunkel of Grants Pass was looking over the timber belts hereabouts last week for a site on which to place his sawmill. Mr. Hunkel is a member of the firm of Hunkel & Gilkey and they are now operating their mill near Grants Pass and are looking this way for more and better timber.

Volney Dixon returned yesterday from a business and pleasure trip to Klamath county. He put up some more Pape fence for J. W. Cox, making in all 1768 rods on Mr. Cox's place. Mr. Dixon will return later and put up fence for Ann Fordyce and others. He says that the weather there is much warmer this season than ever before.

Mr. and Mrs. A. T. Patterson, N. D., stopped off in Medford Friday and remained until yesterday, looking over the city and valley. Mr. Patterson is prosecuting attorney of Burlington county, and Mr. F. I. Stebbins, cashier of the First National bank of Bismarck. They were all highly elated over the city and valley and may return. They were en route to California.

L. C. Holbrook of Davenport, Ia., who has been stopping in Medford for the past week or two, has sent for his mother and sister to join him here. He has traveled the full length of the Pacific coast and has decided to locate in Medford. That sounds good, but people here have been doing that same thing for several years past.

Frank Loder has figured out that the city is pumping from the Fish Lake ditch 31,000 gallons of water every ten hours. That isn't much water, but it's a big help, and will do much toward tiding over the present unusual dry spell. This, with the supply from Bear creek, is putting the city in a reasonably safe position—in case of fire, if the users will only confine themselves to the hours given them for using the water.

This will be good news to many who travel these roads in winter.

THE HAINS TRIAL.

NEW YORK, Aug. 22.—All hope of bringing the Hains brothers to a speedy trial were given up and the trial probably will not occur until November. No attempt was made for the release of the brothers on bail and they will not ask for a change of venue.

The counsel for the accused brothers is not in a mood for making overtures to Mrs. Hains in order to obtain her assistance at the trial. They hold that if called on she will be compelled to repeat in court what she said in her alleged confession.
