#### HAD A BAD FALL.

A. S. Bliton, the publisher of The Morning Mail, met with an accident last night at the rear of the office on Central avenue. He opened the door and on stepping out from the light into the dark, tripped over some lumber and fell down. His face came violently in contact with the boards and he sustained a broken nose.

Although the injury is not of a serious nature, it is very painful. He was assisted to the office of Dr. Pickle, where the injury was attended to. Mr. Bliton will be able to attend to his business as usual, but his friends will have to look at him pretty closely to recognize him until the plaster is off his face.

#### SCHEME WORKED WELL.

A couple of strangers who struck town Saturday last spent a few days in the city and had a real nice time while the snap lasted, but the trouble was it did not last long enough to suit them. Evidently they were in want of something to eat, and a little ready cash—and, by the way, they got both.

They agreed to buy the business of the American restaurant on D street. They had to send for some of their money, but were anxious to take possession right away. They claimed to be hustlers from Hustlerville and they made things fly around there for a few days. However, when a demand was made for them to produce the coin they made an excuse to go out. They are out yet, but no one appears to know just where.

In the meantime, the former owners are back again doing business at the same stand.

#### BAD RUNAWAY ACCIDENT.

Mr. and Mrs. W. H. Simmons, while driving to Medford yesterday afternoon from their mine in the Sterling district, met with quite a serious accident. They were driving in with a team and when going down a hill just the other side of Jacksonville one of the traces became unhooked and the tongue dropped to the ground.

The team became frightened and one of the horses jumped over the tongue and about this time the wheels of the hack struck the bank on the side of the road and the hack was upset and the occupants thrown out. Mrs. Simmons was quite badly bruised, but no bones were broken. Mr. Simmons was not so fortunate, he having suffered a fracture of the bone of his left arm, near the shoulder joint, and was also badly bruised.

Mrs. Knighton, near whose residence the accident occurred, went to their rescue and after extricating them from beneath the hack gave such relief as was possible and sent to Jacksonville for a conveyance. They were brought to Medford on the train and Mr. Simmons was at once taken to Dr. Pickle's office, where the fracture was reduced and the wounds dressed.

The hack was badly wrecked, but the horses were caught near by with no injuries as a result of the fracas.

#### MAKE THEIR HOME HERE.

Not more than a week or ten days ago The Morning Mail told of the arrival in Medford of Mr. and Mrs. William Budge. Mr. Budge will be remembered as the gentleman who last fall paid \$25,000 for a farm and orchard out south of Medford.

These people are from North Dakota and Mrs. Budge had not been here when the above purchase was made, but the paternalistic of that household didn't feel like anchoring a permanent base here until Mrs. Budge had given expression to her opinion of this great country of ours, and she came—and to state briefly her opinion, The Morning Mail has only to say that yesterday Mr. Budge purchased two fine residence lots from Mr. Marshall on Oakdale avenue, and for these he paid about \$2500. The property lies just south of Mr. Howard's beautiful home, and upon it Mr. Budge will erect a beautiful home, to cost not less than \$10,000.

Mrs. Budge left Sunday for a visit with relatives in Denver, and as soon as the new dwelling is ready she will return to Medford and with her husband will take up permanent residence in their new home.

#### SPLENDID SHOWING.

Yesterday morning the Medford school teachers and pupils buckled down to real hard work and from the general drift of conversation heard among the pupils this is going to be no year for play, but instead there seems to be mapped out lots of hard work for everybody interested, and the teacher or pupil who expects easy times is going to meet Waterloo at the very start.

#### MUST DO SOMETHING SOON.

M. M. Dodge, the president, and C. D. Smith, the secretary and treasurer, of the Pacific Coal company, of Los Angeles, Cal., left for that city last evening. They have been here for several weeks trying to induce the local coal people to let them change the agreement they made for the taking over of the mine.

It appears that the sum of \$10,000 has been paid to the local parties and \$15,000 more on the first payment of \$25,000 is due and payable the 15th of the present month. If the Los Angeles parties do not pay the balance of the first payment on the day mentioned they will lose their \$10,000. The total balance to be paid is \$40,000.

A tramp recently prevented a wreck on a New England railroad and explained that he did it as a mark of his gratitude for many free rides. Still it is not likely that there will be any attempt to make the bumpers more comfortable than they have been in the past.

#### RECEPTION FRIDAY EVENING.

From the pulpits of the several churches in Medford there was on Sunday extended an invitation to every citizen of Medford to attend a reception to be given to the superintendent and instructors in the public and high schools of the city, on Friday evening of this week at the Baptist church.

This will be a most fitting opportunity for our people to meet these instructors and extend to them a welcome hand, and, perchance, say to them such encouraging words as may be helpful to them in the discharge of their duties. Say to them, by your presence at this reception, that there will be co-operation between teacher and school patron. And while you are doing this much to encourage the teacher, do not forget that there must as well be a co-operation of parents with the school board, if the good work which we expect of our school is to be the result.

A splendid musical program will be given at this reception and light refreshments will be served.

#### WEDS TWICE IN GIRLHOOD.

PORTLAND, Or., Sept. 8.—Married, left a widow and married again before she had reached the age of 18 years, is the matrimonial history of Beatrice Martell Lalli. It was necessary for her father, John Martell, to give his written consent to both marriages. In September, 1907, Beatrice Martell married Alofto Lalli, and in a short time was left a widow. Saturday she again appeared at the courthouse for a marriage license, and a permit was issued for her wedding to P. Donofrio, of Seattle. The bride is now 17 years of age.

#### CAMP MEETING AT PHOENIX.

The Seventh-Day Adventists will hold a camp meeting in a large tent at Phoenix, commencing September 15, and continuing six days.

General men from abroad will be present. W. B. White of Walla Walla, Wash.; F. M. Burg of Seattle, C. W. Flars of Portland and other speakers from various parts of Oregon will be present and assist in the services. Some live and interesting themes will be presented. Preaching every day at 10:30 a. m. and at 2 and 8 o'clock p. m. There will be good music at each session. Everybody is invited to attend.

#### The Bungalow Addition.

Those people who have bought property in the Bungalow Addition, many of whom are building very pretty homes, are now having cement sidewalks put down the entire length of the street, running north and south, and The Morning Mail understands they anticipate having this street paved. The name they have given the street is not "street" at all, but is Bungalow boulevard. The Medford Cement company is putting in the walks.

#### The Grand Jury.

The following are the names of the men who will be on the grand jury for the present term of court, held at Jacksonville: H. H. Goddard, J. W. Meyer, S. J. Meyers, G. L. Schermerhorn, P. A. Knotts, C. Cook, Thomas J. Riley.
