BEVERIDGE AT TACOMA.

TACOMA, Wash., Oct. 5.—Before an enthusiastic audience this afternoon, Senator Albert Beveridge, of Indiana, issued an open challenge to the Democratic national committee to take a poll of the Democratic members of the United States Senate on the specific question whether they will support Bryan in his franchise plan for government control of the business and manufacturing industries, his injunction plan and other radical measures the Nebraskan is advocating.

WORKS OF JOHN YEGG

A Daring Burglar Who Attained Fame In His Line.

HIS NAME A POLICE LEGACY.

It Is Now Applied to the Most Dangerous Criminals With Whom the Officers of the Law Have to Contend. Nitroglycerin In Safe Bursting.

In the expressive slang that permeates police circles throughout the country, a "yegg" is one of the dangerous criminal class.

The question is often asked, "What is a yegg, and how did the expression originate? An answer to the latter part of the query will lead to an elucidation of the first.

Some years ago, when the United States government was experimenting with high explosives, wishing to secure some death dealing and destructive shell that would cause more damage than any before manufactured, some one suggested that nitroglycerin be tried. Up to that time this most powerful of explosives had not been utilized in this way.

The government experts went to work, and the results of their experiments were from time to time published broadcast through the community. At last they succeeded in making a shell in which nitroglycerin was the chief component part and which made all former ones sink into insignificance.

In a town in the middle west at the time there lived a man named John Yegg. In his earlier days he had been one of the most expert electricians as well as all round experienced mechanics in the country. Later, through drink and bad associates, he had descended to a life of crime, his principal art being that of safe blowing.

He was attracted by the published accounts of the experiments of the government authorities with nitroglycerin. The thought struck him, Why could not this be used in blowing safes?

The method at that time was to drill a hole in the safe to be wrecked, fill this with powder or dynamite and then touch the fuse. This method, however, required considerable time to pull off "a job" and was noisy and dangerous.

Yegg went to work on the nitroglycerin method. He tried it, and it was a complete success. Furthermore, after he had performed job after job he had the police of the country baffled. They did not know how the work was done. Yegg instructed others in the art, and soon from one end of the country to the other safes were being wrecked, but by what manner no one knew.

Yegg's method was to take some of the explosive which he and those with him called "soup"—and, by the way, this term is still extant—and pour it in the crack of the safe near the hinges of the door. The small aperture was then covered with soap to hold the explosive in place. The fuse was applied, and with the explosion off went the doors, slick and clean. The entire job took but a few minutes. It remained for a young Pinkerton detective to solve the matter on a safe that was blown in Coldwater, Mich., where a bank was wrecked and many thousands of dollars secured.

The crime was traced to Yegg and some of his companions, and they were found guilty and sent to prison. Thereafter those who employed the nitroglycerin instead of the older methods were called "yeggmen" or "yeggs."

This was the beginning of the term, but since that time the application of it has grown greatly. Today a "yegg," viewed from whatever aspect, is the most dangerous criminal with whom the police of the country have to deal. He is one who rides the country o'er on freight trains, working through the south in the winter and migrating to more exhilarating climes during the summer. He will beg when he is hungry and will steal and commit murder when he sees an opportunity of benefiting himself.

Today there are thousands of "yeggs" scattered throughout the country. Most of them belong to some certain band, each one of which has a leader. He is the king. It is his duty to enlist recruits. To him also is shipped all the loot, and he in turn converts it into money and places the amount to the credit of the member sending it in. For this the king receives a commission.

Most of the "yegg" gangs carry what is known as a "kitten" with them. The "kitten" is a boy, young man or cripple, whose duty it is to visit houses and places of business, apparently begging food or selling shoestrings, lead pencils, etc., and who then reports to the gang "the lay of the land" so that when the time comes for pulling off the job all are familiar with the premises. The "kittens" are often runaway boys and later become "yeggs" themselves, destined to follow a life of crime and degradation.—Pittsburg Gazette-Times.

Nautical Information.

"By the way, captain," said the sweet young thing on the second day out, with a smiling attempt to be chummy, "where does Mother Carey feed her chickens?"

"In the trough of the sea, young woman," replied the captain of the ocean liner, with solemn dignity.—Chicago Tribune.

A good head and industrious hand are worth gold in any land.—Dutch Proverb.
