

WILL WRITE FOR MAGAZINES

NEW YORK, Nov. 6.—In its issue of Saturday the Outlook will confirm the published report that President Roosevelt will become associated with that publication after his retirement from office. According to the announcement he will be associated with the editorial staff on the Outlook after March 5, as special contributing editor.

Theodore Roosevelt, editorial writer for the Outlook, will neither hide his own nor the Outlook's candle under a bushel. His salary of \$30,000 a year will not be money misapplied, at least from the box office standpoint. The circulation manager will tell you why, if you ask him.

Purely as an editorial writer, Mr. Roosevelt is not cheap at the money. Lacking the signature which grafters have learned to dread and ordinary citizens to regard with respect and affection, the editorial would scarcely be worth \$600 its author will draw for it. Even with the name attached, it will scarcely attract such tense attention as when its owner signed it as president of the United States.

However, the public can well afford to buy and read the magazine. It is outside the Roosevelt nature that his "stuff" should be at the mercy of a "copy reader." It will have to go as it is written. If Lyman Abbott, good old soul, desires to witness constellations innumerable, gratifying swiftly about other constellations, let him attempt to "cut" Theodore's copy.

Most of us will expect a weekly explosion, but it is likely we shall be disappointed. However, there will be plain speech and plenty of it, and "predatory," "mendacious," "undesirable," etc., will be hot in the mouth. Unless Mr. Roosevelt works off his energy on the African lion and the tiger of the east, there will be tail-twisting from time to time when he sits down to dictate.

La Follette and Roosevelt are in the business of newspapering, or, akin to newspapering. They might find worse occupations that pay better. However, Theodore has a good contract, one "leader" a week on a \$600 salary; no paragraphs, no exchange work, none of the other incidentals that vex the editorial writer. There will be no roar over "composition," no hoarse call for "editorial bulletin"—none of the things that try other editors' souls. He'll walk into the office, drop a piece of copy and carry away a piece of money worth \$600 once a week.

WORK RESUMES NOW.

Five Thousand Operatives of Newark Mills Start Monday.

NEWARK, N. J., Nov. 6.—Upon the announcement of Taft's election today, the 5,000 operatives in two great thread mills in this city were notified that full time work would be resumed next Monday.

BEATEN TO DEATH.

Brick Dislodged When Aeronaut Is Killed Cracks Boy's Skull.

PRINCETON, Ill., Nov. 6.—Professor Peter Kramer of St. Louis was dashed against the chimney of the Methodist church and killed here yesterday while making a balloon ascension at the farmers' carnival. Glenn Hayden, a 7-year-old boy, who was standing near the church, was struck by a brick falling from the chimney, which was wrecked by the balloon, and his skull fractured. He may die. A strong wind was blowing and efforts were made to persuade the aeronaut not to attempt an ascension. In reply he said: "I will make the jump today if I break my neck doing it."

Those were the last words he spoke as he left the earth. When the ropes were loosed the balloon shot upward and before Professor Kramer could unfasten the rope which held his parachute to the balloon he was hurled against the church chimney. His chest was crushed by the blow. The balloon bounded along on the roof until it collided with the steeple, dragging the unconscious balloonist after it. The rope then broke and he fell to the roof of the church, rolled to the edge and plunged to the ground 20 feet below.

DIARRHOEA

There is no need of anyone suffering long with this disease, for to effect a quick cure it is only necessary to take a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

In fact, in most cases one dose is sufficient. It never fails and can be relied upon in the most severe and dangerous cases. It is equally valuable for children and is the means of saving the lives of many children each year. In the world's history no medicine has ever met with greater success. PRICE 25c. LARGE SIZE 50c.

TWO MORE SEATS.

Republicans Have Majority of 45 in House Now.

CHICAGO, Nov. 7.—Today's returns from congressional districts throughout the country resulted in a Republican gain of two, as compared with the figures of last night. Albert Douglas, Republican, was elected in the Eleventh Ohio district and Moses P. Kincaid, Republican, in the Sixth Nebraska district. The contest in the Fifth Nebraska district is extremely close, and it will require the official vote to determine the result.

According to the reports already received the next house will consist of 173 Democrats and 218 Republicans, as compared with 220 Republicans, 166 Democrats and 2 vacancies in the present house.

OVER ONE HUNDRED DROWNED

TOKIO, Nov. 6.—News has reached here of the loss of the steamer Tash Maru, which was sunk off the Totoro islands during a storm. One hundred and fifteen persons were drowned. The vessel was crowded with fishermen and passengers and of those on board only 29 were saved.

WILL MAKE 20 HOMESTEADS.

Second Opening of Umatilla Project Soon to Be Announced.

WASHINGTON, Nov. 7.—Formal announcement of the second opening of the Umatilla irrigation project will be made shortly by the secretary of the interior. This unit includes 25,000 acres of irrigable land.

Issuance of this notice will make available for entry about 20 homesteads of 10 to 20 acres each of government land. All other farm units are in private ownership, and these lands are valued at \$40 to \$100 per acre.

Fillings on these farms will be received at the La Grande land office after public notice. Entry will be required to deposit \$7.30 per acre on making fillings. This includes one-tenth the construction of \$60 per acre and \$1.30 per acre for maintenance and operation for the crop year 1909.

GOMPERS WILL ANSWER.

Will Explain His Reasons For Trying to Throw Labor Vote.

WASHINGTON, Nov. 7.—Before he left here today to attend the annual convention of the American Federation of Labor at Denver, Samuel E. Gompers, president of the federation, gave out an interview in which he declared he was not a candidate for reelection as president of the organization.

"I am not a candidate for reelection as president of the American Federation of Labor in the sense that I seek the office," declared Gompers. "But if I am not active as president, I shall take my position in the rank and file of labor."

Gompers defended his course in supporting Bryan and declared that he would answer his critics from the floor of the convention. He would explain his attitude fully, then, he declared.

John W. Hayes, grand master workman of the Knights of Labor, a body not affiliated with the American Federation of Labor, today declared that Gompers and his associates exceeded their authority in taking the federation into politics.

It is probable there will be warm discussions when the federation meets at Denver.

CONTESTS FATHER'S WILL.

Young Leslie Carter Punished for Fidelity to Mother.

CHICAGO, Nov. 7.—The fight of Leslie Dudley Carter to break the will of his father, Leslie Carter, who cut him off without an inheritance because of his friendship for his mother, was begun today before Probate Judge Cutting. After hearing the testimony of several witnesses, Judge Cutting announced that the will would be formally admitted to probate, whereupon the attorneys for Mr. Carter had an appeal entered, which will bring the case before a jury. An ineffectual effort was made to inject into the evidence testimony regarding Leslie Carter's attitude toward his wife.

Mr. Carter's will declared that his son was to have no part in the estate, while he continued to live with his mother, Mrs. Leslie Carter-Payne, but that, if he left her, the other beneficiaries might at their discretion give the young man such sums as they saw fit.

ROB RAILROAD WHOLESALER.

Lackawanna Employees Accused of Combining to Steal \$100,000.

NEW YORK, Nov. 7.—Robberies within the last three months involving more than \$100,000 worth of freight leaving the terminal of the Lackawanna railway in Brooklyn were disclosed today by the arrest of four employees of the railroad. Two were clerks, George Tracey and Jas. T. Martin, and two drivers, G. Lomax and William Stewart.

The detectives found, they say, that inside employees first located the most desirable goods and then the dishonest drivers extracted these goods while in transit from the terminal to the consignees.

ON THE ROAD TO PROSPERITY

BOSTON, Mass., Nov. 7.—Business inactivity which marked the pre-election period has given way with a rush in New England and announcements of the resumption of operations having been made in all directions within the last three days. Many industries are affected, but the reports indicate that the textile concerns have acted more promptly and in greater numbers in ordering longer hours and in increasing the number of operators. Other lines have already arranged the increase in the operating departments of the jewelry and rubber factories, thread, yarn, knitting mills, machine and tool making plants and railroad repair shops.

NEW HAVEN, Conn., Nov. 7.—The revival in the industrial activity will be felt in Connecticut in nearly every branch of trade, especially in the Naugatuck valley, the center of the brass and copper goods making. Increased orders to electrical equipment concerns will be followed immediately by a resumption on full time of many plants in Waterbury and Bridgeport.

MOBILE, Ala., Nov. 7.—The shops of the Mobile & Ohio railroad at Whistler, which were running half time, started full time today.

GLENS FALLS, N. Y., Nov. 7.—The International paper mills of this city and Fort Edward, which were running part time since the strike was instituted August 1, will resume full operations Monday. Nearly all the striking papermakers applied for reinstatement.

WILL CONTEST GOV. DENEEN.

Democrats Claim That Stevenson Was the One Elected.

CHICAGO, Ill., Nov. 6.—The reelection of Governor Deneen will be contested, according to a signed statement issued tonight by the chairman of the Democratic central committee. The chairman says he is convinced that with a correct count and an honest contest, Adlai E. Stevenson has a plurality in the vote cast on Tuesday for governor, and that he shall demand a recount.

Deneen's plurality is estimated at 20,000. Errors have already been discovered, according to the secretary of the committee, in several precincts, and he explained that if only three ballots in each precinct were taken from Deneen and given to Stevenson the latter would have won.

Governor Harris Will Certify.

COLUMBUS, O., Nov. 7.—Governor Harris has decided to certify to the Ohio senate when it is called in special session next January, the appointments of an insurance commissioner, fire marshal, oil inspector, highway commissioner and number of trustees of state institutions. The senate is expected to confirm these appointments at once, and it is expected by the Republicans that when the governor-elect sends his appointments to the senate he will be in a position to say that the positions are already filled.

DENIAL TOO LATE.

Leader Murphy of Tammany Makes a Statement After All Is Over.

NEW YORK, Nov. 6.—Leader Murphy of Tammany tonight issued a statement specifically denying that Tammany did not support Bryan. He says it is silly to accuse Tammany of knifing Bryan and that the charge is being made by persons who know better, but who hope to make political capital out of it.

Positively for Taft.

ST. LOUIS, Mo., Nov. 6.—Returns completed tonight give the electoral vote of Missouri by the plurality of 2172.

Bryan Carried Nevada.

RENO, Nev., Nov. 6.—Democratic committee headquarters say Bryan carried Nevada by 150 or 200. Judge Norcross concedes the entire state to the Democratic party, excepting one regiment.

Maryland Is Split.

BALTIMORE, Md., Nov. 6.—The calculations of the official returns of Tuesday's elections show that the electoral vote of Maryland will be split, Bryan getting six electors and Taft two. On the popular vote, counting the elector receiving the highest vote, Taft carried the state by 561.

Illinois Legislature Republican.

CHICAGO, Ill., Nov. 6.—According to today's return from the congressional districts the Republicans have gained two over last night's figures. According to reports already received the next house will consist of 173 Democrats and 218 Republicans.

Still They Come.

FALL RIVER, Mass., Nov. 6.—Beginning Monday the Stevens cotton mills will begin operation day and night. The concern employs 250 operatives.

BANK CLEARINGS JUMP AFTER VICTORY FOR TAFT.

What is clearly the result of an improved tone in business consequent upon the election of Taft is the big leap in Portland's bank clearings yesterday. In fact, these figures are the first tangible evidence in the local financial world that Taft's election will mean continued confidence and prosperity. The total clearings for the day were \$1,829,270. Not only is this a new mark since the financial depression of a year ago, but only twice in the history of Portland has this mark been exceeded, and then only slightly.

The banner clearings for Portland were on March 11, 1908, when they totalled \$1,884,096, beating yesterday by only \$54,826. One week later, or March 18, 1907, the second highest record was reached, when the transactions totalled \$1,882,607.

THE SOCIALIST VOTE.

Not More Than 500,000 for Debs—In Chicago He Loses 31,000.

CHICAGO, Nov. 6.—The Socialist vote in Tuesday's election showed a great falling off from the record in 1904 in the three principal cities of the country in which Socialism is strongest. Chicago Socialists who polled 45,000 votes in 1904 were given less than 14,000 votes in the returns, and the more sanguine do not expect that the totals will exceed 20,000 votes for Mr. Debs. Cincinnati and Cleveland, also listed as strong Socialist centers, according to the leaders of the party, polled a greatly decreased vote.

While admitting the adverse figures today, A. M. Simons, member of the national committee of the Socialist party, asserted that an increase was shown in the vote this year in the small towns. Mr. Simons said:

"Mr. Gompers influenced the labor vote on which the Socialist party depends to a great extent. His words caused many thousands of semi-Socialists of radical views to vote for Mr. Bryan and also frightened many conservative labor men into voting for Mr. Taft." We are particularly pleased with results on the Pacific coast, where an increased vote was shown in many towns. We have received word of gains in Texas towns, in Missouri and a few towns in New York.

The total vote for Mr. Debs, it is estimated, will not exceed 500,000 in place of the 1,000,000 which was predicted by enthusiastic Socialists. He received 403,000 in 1904.

GOMPERS' POWER ENDED.

Discredited by His Venture Into Politics.

NEW YORK, Nov. 6.—That the avalanche which covered Mr. Bryan in his third defeat marks the end of Samuel Gompers as a labor leader was the opinion of many labor leaders today.

"Gompers stands a discredited leader as the result of the recent vote," said one union man. "He cast his lot with Mr. Bryan and attempted to deliver the labor vote to the Democratic party. The vote shows that he failed ignominiously, and his defeat means his downfall in the American Federation of Labor, I believe."

It has been well known that Mr. Gompers has faced bitter opposition in the federation in the last few years. At the last two elections he succeeded in winning out by the narrowest margins. It was the general view here that his fliasco in this presidential election would give his enemies in the federation renewed strength and would enable them to defeat him for re-election as leader.

HOW FOREST FIRES START.

Information on the Subject from the Forest Service.

What starts these forest fires? This question has been asked over and over again this summer by readers of the accounts of the destructive fires which have been raging in all parts of the country.

Campers and locomotives, is the usual answer. Many of the other things which start blazes in the forest are forgotten. It is true that per-

Is Your Hair Sick?

That's too bad! We had noticed it was looking pretty thin and rough of late, but naturally did not like to speak of it. By the way, Ayer's Hair Vigor is a regular hair grower, a perfect hair tonic. The hair stops coming out, grows faster, keeps soft and smooth. Ayer's Hair Vigor cures sick hair, makes it strong and healthy.

The best kind of a testimonial—
"Sold for over sixty years."

OREGON OUT OF DEBT.

State Has Balance of \$658,320.15 in Treasury.

SALEM, Or., Nov. 5.—Oregon has no state debt, bonded or otherwise. This is one of the first facts stated in the biennial report of State Treasurer Steel, issued today. There is in the treasury a cash balance of \$658,320.15—of which \$214,897.98 is in the general fund—an amount sufficient to pay state expenses until next March, when taxes for 1909 will be paid.

The report shows that two years ago the balance in the general fund, applicable to payment of current expenses of the state government and maintenance of a state institutions, was \$212,512.03; there was received during the two years \$2,590,507.45, leaving the present cash balance in that fund \$214,897.98.

THE BRIDE WENT.

The Bridegroom's Friends Locked Him Up in Dungeon.

CHICAGO, Nov. 5.—Hallowe'en sprites dealt most unkindly with one poor bridegroom the other night. He was married at 6 o'clock in the evening only to a spirited away from his bride at midnight by rough goblins in automobiles and imprisoned in a noisome dungeon until almost noon today.

The victim was A. E. Wilson, a chauffeur. His partner in misery, just taken for a partner for life, was Miss M. E. Nehring, until six hours before the tragic separation. The hallowe'en goblins were four husky chauffeurs of the Cozy Company, where Wilson is employed. They attended the wedding and when they prepared to leave at midnight, Wilson attended them to the door. There they kidnapped him and hurried him to the stock room of the garage, where he was kept under lock and key until about noon.

Wilson was released just in time to meet his weeping bride and leave on a honeymoon for the East.

INDEPENDENCE WET TOWN.

Charter Gives City Privilege of Granting Saloon License.

SALEM, Or., Nov. 5.—Though unmentioned in the recent Supreme court decision governing the sale of liquor in the city of Medford, and but little known among the people of Independence, the charter of that town brings the city under the Supreme court opinion with the cities of Medford, Condon and Estacada.

The independence charter was granted in 1905, and varies from the other charters in the clause granting the privilege of licensing saloons, only in the fact that it is more explicit and specifically stipulated that all acts or statutes in conflict with this provision of the charter are repealed. An attempt will be made to secure a license under this charter for a saloon in Independence. The town is now "dry."

Lame Back.

This ailment is usually caused by rheumatism of the muscles of the small of the back, and is quickly cured by applying Chamberlain's Liniment two or three times a day and massaging the parts at each application. For sale by Chas. Strang.

For Sale.

240 acres of land, 40 acres in cultivation, balance hill land, timber and pasture. 20 acres can be irrigated, fine good springs and creek of lasting water; good wagon road to town; 1 1/2 miles to school; good neighborhood; 1 mile to saw and shingle mills; near outside range; old house and barn; small orchard. This is fine apple land. The place is 10 miles from Myrtle Creek. Price \$8,000. If sold at once, Box 11, Myrtle Creek, Oregon. 41-4t

MAIL WANT ADS BRING RESULTS

KEEP BABY WARM.

Three-Year-Old Builds Fire Under Tiny Brother's Couch.

GALENA, Ill., Nov. 7.—While his mother was absent from the room, the 3-year-old son of Mr. and Mrs. Henry Rapp built a fire under the baby carriage in which his 8-month-old brother was lying. The flames communicated to the coverings and the infant was so badly burned it died. The child explained his act by saying he wanted to keep the baby warm.

CASHIER COUGHS UP.

George Hopkins Responds to Police Ruse and "Puts It Back."

SAN FRANCISCO, Nov. 7.—A searching investigation of the books of Cashier George Hopkins of the State Savings & Commercial Bank of this city is being made following his arrest last night on charge of embezzling funds of the institution. It is believed that shortages exceeding \$5,000 will be discovered. Hopkins, who came to San Francisco from San Jose, was given his position with the bank two years ago. He was to have left today on a vacation, but by accident the assistant cashier, W. W. Deamer, and the manager, C. T. Haag, of the bank discovered a draft for \$1,500 which on the books showed a payment of \$700. Police investigation was asked by the bank and a trap was laid for Hopkins.

May Save the Yankee.

BEDFORD, Mass., Nov. 7.—Telegraphic advices were today sent to the secretary of the navy informing him that the cruiser Yankee, which went aground here recently, is in a precarious position during the heavy weather of the past few days. Tremendous seas have been breaking over the vessel, but without doing serious damage.

John Arbuckle, the contractor who contracted to raise the Yankee, expresses the hope that he will be able to save her.

Because you have contracted ordinary colds and recovered from them without treatment of any kind, do not for a moment imagine that colds are not dangerous. Everyone knows that pneumonia and chronic catarrh have their origin in a common cold. Consumption is not caused by a cold but the cold prepares the system for the reception and development of the germs that would not otherwise have found lodgment. It is the same with all infectious diseases. Diphtheria, scarlet fever, measles and whooping cough are much more likely to be contracted when the child has a cold. You will see from this that more real danger lurks in a cold than in any other of the common ailments. The easiest and quickest way to cure a cold is to take Chamberlain's Cough Remedy. The many remarkable cures effected by this preparation have made it a staple article of trade over a large part of the world. For sale by Chas. Strang.
