**KLAMATH BANK
HAS A HOLD-UP**

KLAMATH FALLS, Or., Jan. 16.—
The Klamath County Bank was held
up and robbed of over \$3000 by two
masked men at noon today. The men
entered the bank with drawn revolvers
and commanded Alexander Mar-
tin, Jr., the cashier, to hold up his
hands. The robbers then ordered
Martin to put the counter cash into
a sack and hand it to them.

Martin, with the desperate man
holding their revolvers pointing at
his head, did not resist the com-
mand. One of the men took the sack
and ran out of the bank while his
accomplice covered the cashier and
two citizens, who happened to be in
the bank, so that they could not in-
terfere with their operations. The
robber who took charge of the sack
escaped out of the city in an easterly
direction. His companion gave him
ample time to get away from the bank
and, still holding his revolver on the
people in the bank, backed out of the
door. He was traced to a barn in the
rear of the bank and captured.

He was identified as Rial Preever.
The other robber was captured two
hours later. His name is Jack Hall.
Both men have been working around
Klamath Falls for some time. Hall
after the robbery, went to his board-
ing house where he changed his
clothes. He was driving a hay wagon
when arrested. Nothing resulted from
the search of Hall's room, but a bun-
dle of green backs, containing \$1150
was found in the garret of the house
with the clothing Hall had taken off.

Later \$1050 in gold and silver was
discovered in the hay in the barn
found where Preever was captured.
Cashier Martin says that there is
still about \$1000 in currency missing.
The freeing of Preever in the barn
was the result of a neat piece of
work, jointly executed by Martin and
Don J. Zumalt, a surveyor who was in
the bank when the robbery occurred.
As the second robber backed out of
the bank, Martin slipped a heavy cal-
ibered revolver to Zumalt and, taking
another revolver himself, Martin and
Zumalt ran to the door and opened
fire. The fusillade became too fierce
for the robber who turned out to be
Preever and he dodged into a barn
nearby only to be captured a moment
or so later.

CALIFORNIA FIGHTING JAPAN.
Three Bills Against Orientals Bob
Up in Statehouse.

SACRAMENTO, Cal., Jan. 15.—
The three anti-Japanese bills intro-
duced in the Assembly by Grove L.
Johnson, of Sacramento, and the one
by A. M. Drew, of Fresno, prohib-
iting aliens from holding land in the
state, have attracted such wide inter-
est that the 1000 copies of each or-
dered printed are already exhausted
and there is a demand for more.

The Johnson bills are designed to
prevent Japanese being members of
corporations; to segregate all Japane-
se by defining the limits within
which they must live. The first
named were introduced last session
by Mr. Johnson, and action upon
them was suspended at the telegraphic
request of President Roosevelt
during the diplomatic negotiations
between the United States and Japan
over the action of the San Francisco
School Board in excluding Japanese
youths from public schools and as-
signing them to the institution set
aside for "Mongolians." The Japane-
se claimed they were not Mongo-
lians, and Assemblyman Johnson in-
troduced an amendment specifying
"Japanese" in the law. It was this
measure to whose enactment the Pres-
ident objected, and it was killed.

Bans Business Rivalry.
The bill relating to directors of
corporations prohibits all aliens
from being members of such boards,
and its purpose is to prevent com-
petition of powerful Japanese con-
cerns with Americans.

The third Johnson bill is new.
It gives municipalities power to pre-
scribe the limits within which "un-
desirable, improper and unhealthy
persons, or persons whose practices
are dangerous to the public morals
and health of the community," shall
live.

The author here follows the lines
of the Supreme Court decision in
the "Slaughter-house cases." Dis-
cussing his measures today, Mr.
Johnson said:

Expects Ample Support.
"I look for a solid vote from the
San Francisco delegation upon all of
the bills; two from Los Angeles have
announced that they will support
them, and I believe the sentiments
against the Japanese has grown to
such an extent that the bills will
pass.

"I am prepared to make a fight
for them, and even should Washing-
ton interfere again I would not stop
until the Legislature went on record."
"I regard the presence of Japanese
as more dangerous a hundred-fold
than that of Chinese. In our schools
Japanese youths of 16 to 18 years,
with their characteristic disregard
for the virtue of women, should not
be permitted to sit beside our own
children. They are a menace to the
girlhood of the state.

"I am not prompted by the Asiatic
League or any other organization or
person in presenting my measures."
The Japanese already have a lobby

on the scene, and will contribute
considerable money to make a fight.
The hearing will be held in a few
days.

RESENT STATEMENTS.
Engene Women Get After Official
for Alleged Utterances.

EUGENE, Or., Jan. 15.—A few
days ago a Medford paper printed an
interview purporting to have come
from J. W. Hobbs of this city, who is
deputy internal revenue collector,
quoting him as saying that business
conditions in Eugene were no better
since local option law went in effect
than before, and that many Eugene
society women, since the saloons were
closed, held "booze parties" regularly
at their homes, and that a large
number of them had become drunk-
ards in consequence.

The story was reprinted in the lo-
cal papers and created much com-
ment. Women's clubs and societies,
as well as the W. C. T. U., held special
meetings and passed resolutions
condemning Hobbs and his utter-
ances and demanding an explanation
of the interview.

Hobbs happened to be away from
the city on his official duties when
the article was printed here, and it
was a few days before he read it.
When he did, in Salem yesterday, he
at once wired to the local papers de-
claring that the interview was false
and denying that he ever made any
such statement about the women at
Eugene. The women seem to be pac-
ified at this statement.

STANDARD OIL CASE.
Government Begins Along Two Lines
of Attack.

CHICAGO, Jan. 16.—The govern-
ment's two lines of attack on the
Standard Oil company are expected to
converge in this city Tuesday,
when special Examiner Ferris will
resume the hearings in the dissolu-
tion suit and District Judge Ander-
son will take up the retrial of the re-
bate case on which Judge Landis' fine
of \$29,000,000 was wiped out by the
supreme court. Ten subpoenas
were issued today to secure govern-
ment witnesses in the dissolution
suit. It is expected that some wit-
nesses will offer testimony in rebut-
tal of that given by John D. Rocke-
feller and John D. Archbold in New
York.

HAINS ACQUITTED.
Jury Returns Verdict After 22 Hours
Deliberation.

FLUSHING, N. Y., Jan. 15.—After
22 hours of deliberation the jury
in the case of Thornton Hains, accus-
ed of complicity in the murder of
W. E. Anns, today returned a verdict
of not guilty. The verdict received
applause which was so pronounced
that the court ordered the room
cleared. Thornton Hains' face was
a study in emotional changes. From
a haggard look his features quickly
brightened into a smile to the jurors
and then turning to Mr. Shay he
shook him by the hand. Tears filled
his eyes and he drew his handker-
chief and wiped them away.

Garfield Experiment.

WASHINGTON, Jan. 14.—Secre-
tary Garfield is preparing for a double
experiment in the San Carlos Indian
reservation in Arizona. There is
found on that reservation a peculiar
stone which is called "tufa," or
"white ash," which is peculiar to the
reservation. When first removed
from the quarries it can be cut with
an ordinary knife, but it hardens
when it is exposed to the air. It is
as light as wood, and there is a
great demand for it in the vicinity
of the reservation for building purposes.
The Secretary has asked Congress to
set aside three sections, or almost
2000 acres of land, within the re-
servation in which this stone is found
for the use of the Indians. He thus
expects to experiment with the stone
itself and at the same time ascer-
tain whether it is possible to get In-
dians to work in developing it and
demonstrating its usefulness. The
Secretary thinks that if the stone
possesses the quality attributed to it
there will be a general demand by
builders for it, especially in the
Southwest, where timber is scarce.

Says He Was Double Crossed.
INDIANAPOLIS, Ind., Jan. 15.—
"I shall have something to say to-
morrow that will be plain and spec-
ific," said John W. Kern. "When I
make my statement I think it will
make them jump some." This was
said with reference to a story to the
effect that Kern believes he was
beaten for the senatorship through
an elaborate and carefully worked-
out system of double-crossing.

Rojevstvensky Dead.
ST. PETERSBURG, Jan. 14.—
The death of Vice-Admiral Rojevst-
vensky is announced. He was in
command of the Russian fleet in May,
1905, when it was practically de-
stroyed by the Japanese in the Battle
of the Sea of Japan.

THE MAIL FOR NEWS.

**P. & E. MOTOR
CAR SMASHED**

Smashing the motor of the gasoline
car, slightly injuring one of the
members of the crew and badly shak-
ing up a number of passengers was
the result of the wreck on the P. &
E. railroad last evening shortly after
6 o'clock, when the motor car used
on the road ran into the open
switch near the junction and crashed
into the rear end of the old engine
which was standing on the siding.

The motor car was in charge of
Conductor Frank Reed and Motor-
man George Gardiner when the ac-
cident occurred and was running at
a slow rate of speed when it took
the siding, the switch to which had
been left open by somebody. The
brakes were immediately applied,
but the distance was too short and
the collision was the result.

George Gardiner, the motorman,
was cut by flying glass and the pas-
sengers, of whom there were five or
six, were badly shaken up, but none
with the exception of one who had
his hand cut, was injured.

The motor was smashed into
pieces and it is thought by officials
of the road that it will be impossi-
ble to repair it. At any rate, if it can
be repaired, it will amount practi-
cally to the building of a new motor.

The motor car cost \$2000, and it
will be a week or more before it can
be replaced. In the meantime the
company will use a wagon and team
to haul the mail between this place
and Eagle Point and to transport
such passengers as may wish to ride
between the two points.

Edgar Hafer, general manager of
the road, stated to The Morning
Mail last evening that the company
would use every effort to have the
motor car service running again in
the shortest possible time.

Just how the switch happened to
be left open had not been deter-
mined last evening, and an investi-
gation will be made into the matter.
The motor car left the depot about
4 o'clock, having been delayed in its
departure at the regular hour of
2:30 by the motor refusing to work.

**One Mistake Found Giving Canon
Another Vote.**

VOTES CANVASSED.
Mayor-Elect Canon and the three
new members of the city council
were officially notified yesterday af-
ternoon by Recorder Collins that they
had been elected. This followed the
meeting of the city council, which
canvassed the vote at the recent elec-
tion. The canvass brought to light
but one mistake in the count as an-
nounced, and that was a small one.
It was found that W. H. Canon had
received 129 votes for mayor in the
second ward instead of 138, making
his majority nine votes.

This was the last meeting of the
present city council. The new coun-
cil and mayor will be installed into
office next Tuesday.

ENLARGE PLANT.
Medford Sash & Door Co. Obligated to
Increase Facilities.

"Our business is growing with the
town, and so we have found it nec-
essary to enlarge our plant," said P.
C. Hansen, one of the owners of the
Medford Sash & Door factory, to a
Mail representative yesterday, in an-
swer to questions relative to some
new buildings the company is erect-
ing.

One addition will be 26x36 feet
and will be used as a warm room and
glue room. An additional stockroom
is also being built. This will be 36
feet square.

Besides these improvements, the
company is putting in new machin-
ery. A sash-sticker and a planer are
expected in a few days. A new motor
has been installed and the power ca-
pacity of the plant has been doubled.
A framing machine will be added in
the near future so that the company
can handle any job that comes along.

NEW TELEPHONE LINE.
Completed Between Central Point
and Trail, 30 Miles.

Showing the rapid development of
the Rogue River valley tributary to
Medford is the fact that a rural tele-
phone line running between Central
Point and Trail, a distance of 30
miles has almost been finished. The
work of putting in the line has almost
been completed. Harvey Richardson
of Agate, Or., has charge of the work.
This line will open up easy com-
munication for a large and rich ex-
tent of country, practically all the
people living along the line being
subscribers. The line will connect
with the Central Point exchange.

ENCAMPMENT INSTALLS.
New Officers for Rogue River En-
campment I. O. O. F.

Rogue River Encampment, No. 39,
I. O. O. F., last evening installed the
officers elected for the ensuing year.
The various officers being inducted
into their chairs by District Deputy
Grand Patriarch A. J. T. Smith of
Gold Hill, as follows:

Senior warden, C. C. Taylor; high
priest, W. S. Crowell; junior warden,
N. J. Wiley; treasurer, W. S. Crow-

ell; scribe, J. G. Demmer; guide, J.
E. Day; first watch, H. H. Harvey;
second watch, E. C. Gaddis; third
watch, B. F. Clark; fourth watch, A.
H. Olin; inside sentinel, Charles O.
King; outside sentinel, M. L. Mead-
ows; guards of tent, R. O. Duncan,
J. W. Cox.

TO REDUCE TAXES.
Measure to Taxation on Timber
Lands.

A bill to lighten the burden of tim-
ber land owners in the taxation of
their land is to be introduced in the
legislature during the coming week.
The object of the bill is stated to be
to tax the land on the basis of the
amount of matured timber it is ca-
pable of producing each year.

This purpose is stated in the first
section of the bill as follows:

"The valuation of land shall not be
increased on account of growing
crops and standing timber thereon,
and the assessment and taxation of
lands useful only for timber produc-
tion shall be based upon the yearly
growth of timber."

It is provided that standing timber
shall be taxed for the year it is cut
and for each of the five years pre-
ceding, the assessment to be made
when the timber is felled, and to be
a lien of the logs, prior and para-
mount to any other claims, that may
be enforced by the tax collector at
any time after the logs are cut.

Section 3979 of the code, is also
amended by the bill to make it the
duty of any managing officer or agent
of a corporation engaged in timber
cutting for timber, cordwood or any
other purpose, to furnish a list con-
taining a true statement of the num-
ber, variety and average diameter of
trees that have been felled. This list
is to be furnished every month, and
the assessor must assess and deliver
a monthly statement to the tax col-
lector.

Another section of the bill directs
that the tax be computed on the
rates paid for logs for the current
year and for the five preceding
years, and that it shall be enforced
by levy or action at law, on or before
the 15th day of the month following
that in which the logs are cut.

It is argued in favor of this bill
that it will tend toward the conserva-
tion of the timber supply, and that
the destruction of the forests, without
justly treating the owners of timber
lands.

NEW OFFICERS.
Baptists Elect New Governing Board
for Year.

A very important business meet-
ing was held at the First Baptist
church of this city last evening at
which the election of officers for the
ensuing year took place. The meet-
ing was well attended and plans for
the year were discussed. The follow-
ing officers were elected:

Trustees, 1 year.—J. G. Fry, H.
E. Marsh, S. L. Bennett, Jr.; 2 years,
C. F. Updyke, J. F. Wortman; 3
years, E. S. Stinson, L. J. Lozier.
Clerk, Paul Hansen; assistant clerk,
Harry Tuttle; treasurer, Mrs. H. C.
Garnett; finance committee, Chair-
man and solicitor, S. L. Bennett;
advisory committee, Mrs. L. J. Lo-
zier, Mr. L. J. Lozier, Ed Bennett;
baptism committee, Mrs. Wm. Wil-
son, Mrs. S. L. Bennett; music com-
mittee, Mrs. H. E. Marsh, Miss Ce-
cile Boswell, Miss Alice Tickell;
ushers committee, Harry Boswell
and C. H. Frost.

The officers of the Sunday school
are as follows: Superintendent, H.
C. Garnett; assistant superintendent,
Harry S. Stine; secretary, Mabel
Webb; first assistant secretary,
Harry Boswell; second assistant sec-
retary, Alma Martin; treasurer, Rob-
ert Horning; superintendent cradle
roll, Mrs. H. C. Garnett.

The church also decided to hold
a roll call at the next monthly busi-
ness meeting.

FIRST NATIONAL BANK.
Annual Election of Officers by the
Shareholders.

The shareholders of the First Na-
tional bank held their annual elec-
tion on Tuesday. All of the old of-
ficers and directors were re-elected.
There has not been a single change
among the officers of this bank since
it began business. The customary
semi-annual dividend of 4 per cent
was declared. All were pleased with
the prosperity of the bank for the
year following the panic.

Officers—W. S. Crowell, presi-
dent; F. K. Deuel, vice-president; G.
W. Dunn, vice-president; M. L. Al-
ford, cashier; Oris Crawford, assis-
tant cashier.

Directors—William S. Crowell, F.
K. Deuel, Charles Strang, E. V. Car-
ter, G. W. Dunn.

SWAMPED WITH ORDERS.
Surgeymen Pushed to Keep Pace
With Tree Planting.

N. S. Bennett, proprietor of the
Eden Valley Nursery, stated to a
representative of The Morning Mail
that, though this was the dull time of
the year for the nursery business, yet
orders for more trees were coming
in steadily, indicating that the acre-
age to be set to trees this coming
season will be larger even than antici-
pated. Mr. Bennett said that if he
had twice as many trees for sale as
he has he could dispose of them all
readily. As a matter of fact, nursery-

Correct Glasses Correctly Fitted

Notice the difference in the way the rays of light pass through the OLD style lens and the new TORIC glass.

When looking through the TORIC lens you get the same vision clear out to the edge of the glass, in all directions, that you do ONLY through the center of the old-style of lens, thus giving you more freedom of vision without the strain upon the Rectus muscles, which constantly occurs when wearing the old-style glasses.

With the old-style before the eye you see like this.

With the new TORIC lens you get the same results at all angles without turning your head that you do directly through the center of the old style.

Dr. Goble makes a specialty of the above lenses; also fits the I-SIGHT bi-focal, ground from ONE piece of glass. Optical Parlor in Perry's Warehouse, Seventh Street, Medford.

MEDFORD FLOUR MILLS

NEW LUMBER COMPANY.
Takes Over Business of Armstrong & McKee.

One of the newest new incorporations with headquarters at Medford is the Medford Lumber company. The capital stock is \$25,000 and its incorporators are J. H. Cooley of Hebron, Neb.; R. D. Kleppinger of Belvidere, Neb., and J. A. Bothwell and Mr. McKee of Medford.

The new organization has purchased the Armstrong & McKee lumber yards and grounds on North Central avenue and will conduct all business from there. They will not operate any sawmills at present, but will ship in all lumber handled. Later they expect to buy stumpage and operate their own sawmills.

Of course, we all believe that it is better to give than to receive—until some one passes around the hat.

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and set it. He will work with energy and think clean, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery
prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and cleans, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs. Constipation is the most unclean uncleanness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.
