In the matter of the estate and guardianship of Fannie G. Birdseye, son Investment Co. 293-11

Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. K. V. Pierce, of Buffalo, N. Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for women's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No honest dealer will advise you to accept a substitute in order to make a little larger profit.

IT MAKES WEAK WOMEN STRONG. SICK WOMEN WELL.

Dr. Pierce's Pleasant Pellets regulate and strengthen Stomach, Liver and Bowels.

a minor—Order to show cause why sale of real estate should not be made.

In the matter of the last will and testament of J. W. Clark, deceased—Order admitting will to probate and appointing R. A. Clark administrator.

GROUSE SEEKS PROTECTION.

The Idaho City World says: A grouse, pursued by a hawk, sailed into town last Saturday for protection. It struck a glass door of Shanahan's saloon on Main street, but did not break the glass. It then darted across the street to the law office of Attorney William A. Sample and shot through one of the panes of glass without pain to the bird. Mr. Sample was at his desk writing, and within three or four feet of the glass through which the grouse effected its entrance. Mr. Shanahan and Mr. Sample caught it, but had quite a chase. After its capture the grouse was perfectly calm and had no fears, feeling confident that it was in safe hands, and its confidence was not betrayed. The bird was carried around town for a time, and was then tossed up into the air and sailed off. It was not injured in the least.

THERE ARE OTHERS.

A party of Illinois investors recently clubbed together and sent one of their number, who had visited Oregon during the exposition, for a trip through the state. Upon his return to Portland, this gentleman said he had found Oregon people much changed. At that time they were intensely conservative, today they are enthusiastic, optimistic and unanimously predict a great future. In fact, many of the communities are growing so rapidly that the imagine they have all the growth, but those who have seen the new orchards, the substantial farm houses and other improvements taking place everywhere, knew that the next decade will see record-breaking advancement along every line. Asked if he was satisfied, he replied: "I wouldn't return to Illinois, but shall remain here to receive my friends, who are coming in parties of three, five and even ten."—Pacific Outlook.

No. 32—293 acres, under Fish Lake ditch, 9 miles from Medford, 3 1/2 miles from Central Point; land is level and can be cultivated; it is bottom land on the Rogue river; soil and other natural conditions make this an ideal tract for peaches, pears and grapes. Price \$18,000, one-third cash, balance term of years at 6 per cent. Benson Investment Co. 293-11

THE WIDOW'S PROTECTION.

The porter inserted a fresh boot in the electrical polishing machine.

"I'll tell you a funny thing about a widow," he said. "She is a regular visitor to our hotel, and she always brings here with her an old pair of her dead husband's boots. He must have been a whopper, the dead man. His boots are genuine mudsows."

The Fence the Government Demands

HOW "UNCLE SAM" GETS HIS MONEY'S WORTH

Page Fence bears the high honor of being the standard of comparison adopted by the United States Government. Your "Uncle Sam" knows about the different makes of wire fence and from repeated tests in government laboratories and in the field, he knows that one make of wire fence stands pre-eminent in tensile strength, elasticity and the various qualities that go to make up a perfect fence. You can easily guess which fence this is from the fact that when the wise old man wants bids on wire fence for government parks, Indian reservations, etc., he quietly slips in this little proviso—"PAGE FENCE OR EQUAL." The only "pull" Page Fence has with the government is its tremendous tensile strength of 80 TONS TO THE SQUARE INCH, due to its Page Special Process high-carbon, open-hearth steel. The best Bessemer steel fence wire on the market will stand only half that terrific strain. With the single exception of Page Fence, all other wire fences on the market are made of common Bessemer steel. Do you wonder that "Uncle Sam" is one of our steady customers?

PAGE FENCE The Famous High-Carbon, Open-Hearth Steel Wire Fencing

"JUBILEE YEAR" or Quarter-Centennial of PAGE FENCE

The Coil—and the Reel! The horizontal wires are coiled lengthwise and are so elastic that when stock stampede into it, or falling trees crush it, or snow warms its contracts it, it springs back, taut and rigid, the moment it is released. It is self-adjusting, ever hills, in hollows—anywhere. Heavy Galvanizing. Page Fence carries more pounds of galvanizing zinc and spelter per ton of steel than other fence. Has many times longer life than ordinary wire fence, being practically indestructible. No Short Strands! No Welded Wires! The stay wire is one continuous piece, firmly secured at top and bottom, and is wrapped THREE TIMES around every horizontal. This makes it impossible for horizontal wires to slide up and down. No short wires fused by electric heat—where every weld makes a weak spot. Qualifies us to give the most reliable information obtainable anywhere. Costs you nothing to consult our fence experts. Saves Nails, Posts and Staples. Ordinary wire fencing requires double the number of posts, nails and staples needed in erecting Page Fence. When you add to this big saving, the extra years of service, and satisfaction that Page Fence gives, you will see why this is really the cheapest fence you can buy. Let the Government's choice be yours! Buy Page Fence and you'll get your money's worth, the same as "Uncle Sam."

"THE QUESTION BOX" Everybody invited to ask questions about wire fences. Prompt answers. Free.

"JUBILEE CATALOG" FREE A book that every farmer, Stock Raiser, Dairymen and Poultryman should read. Send for it. Tells how Page Fence is made—word every tree.

HUBBARD BROS.

"The widow is very timid. She is afraid of being broken in upon by hotel thieves in the dead of night. So every morning she puts before her door, beside her own dirty boots, the boots of the departed. She thinks they scare off thieves."

No. 1—12 acres, mostly 10-year-old orchard, 1 1/2 miles from Medford depot, about 3/4 mile from city limits, trees on place about 26 1/2 feet apart, 294 trees, Newtown Pippins, 84 Ben Davis, 84 Spitzenbergs, 182 Comice pears; land lays almost level, very gentle slope; deep black soil, sub-irrigation; can get water within 6 or 8 feet. Price \$12,000; terms on 12 acres, \$7000 cash, balance 5 yrs. at 6 per cent. Benson Investment Co. 293-11

OREGON WOMAN ELECTED.

SEASIDE, Or., April 30.—Miss Ruby Acker, niece of Josiah West, and who was a bookkeeper some two years ago for J. West & Co., at Seaside, has attained prominence in Wisconsin by being the first woman elected to the office of county superintendent of schools in that state. Miss Acker is receiving many congratulatory letters and requests for her photograph and biography.

She was elected superintendent in Fond du Lac county, Wisconsin, in the last election in a contest with a veteran of two terms in the office. Her campaign did not include stump speaking, but she devoted her energies, without losing a day's work in the high school, however, to writing personal letters to friends in the several voting precincts in the county. Miss Acker is a graduate of the University of Wisconsin and has spent several years in teaching in the public schools. She is the sole support of her foster mother, who is 89 years old.

Eden Valley Nursery NOT IN THE TRUST

First Class, home-grown, whole-root trees. Right prices and a square deal for everybody. What more do you want? Who pays the agent, you or the other fellow? I deal direct with the planter. A nice stock of fruit trees and Tokay vines for fall delivery. Tell me your tree troubles.
