The second section of No. 16 yesterday evening dropped a flagman some distance south of the depot to flag the third section in case it should approach too near. When ready to pull out they did so, and had gotten beyond Third street before being aware that they had a man aboard whom they had left behind. He was signalled for and came up after the train had waited for him several minutes.

The employees of the Medford Domestic laundry gave a formal surprise party to one of their number, Miss Maude Saye, at her home on Friday evening of this week. The evening's festivities lasted until after 12 o'clock and none were there present who did not express regret because of the young lady's plan to leave here. Miss Saye has been an employe of that institution for three years, and as an indication of the esteem in which she was held she was presented with a beautiful finger ring.

Won't Slight a Good Friend

"If ever I need a cough medicine again I know what to get," declares Mrs. A. L. Alley of Beas, Me., "for, after using ten bottles of Dr. King's New Discovery, and seeing its excellent results in my own family and others, I am convinced it is the best medicine made for colds and lung trouble." Every one who tries it feels just that way. Relief is felt at once and its quick cures surprise you. ### Correct Glasses Correctly Fitted

Notice the difference in the way the rays of light pass through the OLD style lens and the new TORIC glass.

When looking through the TORIC lens you get the same vision clear out to the edge of the glass, in all directions, that you do ONLY through the center of the old-style of lens, thus giving you more freedom of vision without the strain upon the Muscles, which constantly occurs when wearing the old-style glasses.

With the old-style before the eye you see like this.

With the new TORIC lens you get the same results at all angles without turning your head that you do directly through the center of the old style.

Dr. Goble makes a specialty of the above lenses; also fits the 1-EIGHT bi-focal, ground from ONE piece of glass. Optical Parlor in Perry's Warehouse, Seventh Street, Medford.
