SUBSCRIPTION \$1.50 a Year

Entered in the postoffice at Medford, Oregon as second class mail matter.

AS TO CRATER LAKE.

It is to be hoped that the injunction suit to restrain state aid from going to the Crater Lake road may not be pursued to its ultimate, says the Portland Journal. It is improbable that it will have other effect than delay. To a layman the contention that the proposed road is local and that therefore the measure is not constitutional, is unsound. Crater lake is not local. The road that is to make it accessible is not local. Crater lake is not local to Klamath county. It is not local to Southern Oregon. It is not even local to Oregon. It is one of the matchless creations of nature that is the world's. It is an object of natural beauty and picturesque to attract and charm mankind. It is without bounds or limits. Like Niagara, the Alps and Lake Geneva, it is mankind's.

But it is in Oregon, and by the state appropriation it is proposed for Oregon to capitalize it and turn its beauty into state dividends. Switzerland has done the same and reaps an annual reward of millions. Paris has spent \$258,000,000 and is to spend as much more in making herself beautiful, and the claim is that the great expenditure is fully repaid by the usufruct from tourists. California's revenues from tourists is so great that she is spending millions on her roads to encourage the business. In this Crater Lake project Oregon is spending \$100,000 and no more. Yet in the natural beauty, in magnificence of scenery, in all those physical features of environment and climate, Oregon has all states a thousand times distanced. Its mountain ranges, its snow peaks, its rivers, its valleys and its flowers are an appeal to the beauty sense that the state can and should capitalize for her own enrichment. Paramount amid it all is Crater Lake, that, when it is once accessible, will be visited by all Oregon and by a caravan of strangers that will never cease to journey. Oregon wants visitors, for it is the visiting strangers that are most eloquent of her virtues. They are pleased with her landscape and are tempted to abide here, investing their money and promoting her greatness. If they do not do this they go away and are a walking and perpetual advertisement of the state. What else but all this resulted from the visitors who came to the Lewis and Clark exposition? What brought all these eastern money millions into Portland purchasing property and installing wealth creating industries but the caravan that journey through Portland and over Oregon, then?

The Crater Lake enterprise is sane and sound business policy, and the comparatively paltry sum the state is investing in it is warranted to the last degree. It would be unfortunate for the measure to be held up and the work postponed.

CONCRETE TIES.

Reinforced concrete railroad ties will be in practical use all over the United States within the next few years. This is made possible by the recent invention of a man named Gates, residing at San Jose, Cal. Mr. Gates says:

"To give railroads both here and in foreign countries a tie that would not decay with age or be affected by heat, moisture or insects, has been the dream and the ambition of thousands of men, and to supply this need—a need that has been recognized by railroad builders—I conceived the idea of making a rail support of concrete that had the advantages in the form of additional substances not incorporated by other inventors who have taken this material as their base for the construction of an indestructible tie. With cement as the foundation, I mixed a small amount of asbestos, together with a fibrous material adapted to render the concrete more elastic, and reinforced the entire mass with barbed wire, making a tie capable of withstanding the most severe and intense shock or vibrations. On the surface of the tie, and directly under the rail, a metal plate of sufficient size is placed, through which, and in close proximity to the base of the rail, are holes which provide for bolts passing through tie, plate and locking clamps, which, when bolted firmly, holds the rail so secure that derailments will be impossible."

A hard-hearted and unromantic Pennsylvania school superintendent wants his teachers to tell him when they become engaged; but that would spoil the sport of being engaged to two or three men at the same time.

Wisconsin has passed a law prohibiting swearing. Hereafter customers will converse with their lecturers in the deaf and dumb alphabet.

An Alabama man has proposed in vain to 200 women. Probably he is

one of the kind who carry their change in a purse, instead of loose in the pocket. Women divine such things by instinct.

Stead declares that airships will spell the doom of war, but we will still have with us the gold-lace creations called governors' staffs.

And yet, Professor Todd, in his balloon effort to talk to Mars, may get the wrong number, or hear that old familiar, "Line's busy."

Delaware this season will defend its title to being the "Shortcake State" by raising a strawberry crop of 20,000,000 quarts.

Spring styles in showy tariff language will now be on exhibition at the capitol, beginning at 10 a. m., until further notice.

Now is the time when the palpitating fancy of the sweet girl graduates lightly turns to thoughts of gowns.

It is nearly time for an announcement of a change of date for the inauguration of the Panama canal.

The "pantaloons gown" girl also creases 'em on the side, according to the illustrations.

There will be just as much headache in whisky by any other name.

President Taft is no bumblepuppy at letter-writing, either.

STATE SANITARIUMS.

They Will Be Run by the State to Treat Tuberculosis.

SALEM, May 24.—Governor Benson has appointed four citizens of the state-at-large, who, together with the president and secretary of the state board of health, will constitute the state commission for the treatment of tuberculosis, as follows: R. A. Booth of Eugene, A. L. Mills of Portland, to serve four years, and Leslie Butler of Hood River, and Mayor George F. Rodgers of Salem, to serve for two years. The act under which they are appointed goes into effect today and appropriates \$20,000 for the location and purchase of a suitable site for the establishment of state sanitariums for the treatment of tubercular poor, and \$25,000 for the support and maintenance for the fiscal years 1909-10. No compensation is attached to the appointment except necessary traveling expenses.

THE SUFFRAGETTES.

London Refuses to Patronize Bazaar for Their Cause.

LONDON, May 24.—The latest suffragette bazaar, organized by the Women's Social and Political Union, has proved rather unsuccessful, as London has tired of the suffragettes, the suffragettes and all their doings. A polling booth where women were urged to register their votes on various questions of the day, such as daylight saving and the censorship of plays, fell flat. Only a small proportion of the visitors to the bazaar took the trouble to vote.

The writers' table, at which Beatrice Harraden sold autographed books by distinguished authors sympathetic with the suffragette movement, was the most successful feature of the bazaar.

SEEING THINGS.

DENVER, May 21.—Creatures resembling frogs, but unlike them, in that they are whitish in color and have no eyes, were discovered yesterday in a sandstone bluff three miles west of this city by a truck gardener.

While digging in the bluff he uncovered a number of cells, inside of which were soft, mushy-looking balls. When these were rolled out they proved to be living creatures, presumably of another age. Local geologists are of the opinion that mud beds existed ages ago where now stand the sandstone bluffs, and that a chemical process changing the mud gradually to stone, imprisoned the amphibians just discovered.

TRAMP WITH MONEY.

CHEYENNE, May 24.—A tramp giving the name of L. U. Steinhoff was arrested tonight as a suspected accomplice in the Union Pacific mail robbery near Omaha Saturday night. When arrested, bank notes to the amount of \$800, issued by Reno, Seattle, Denver, Spokane and Iowa banks, were found on his person.

PREDICTS HIGH WHEAT PRICES.

CHICAGO, May 19.—In an address before the Fourmen's club tonight, James A. Patten predicted that high wheat prices would prevail all over the world for a year to come and that red winter wheat would sell as high in America a year from now as today.

N. P. REDUCES RATES.

SEATTLE, May 20.—The Northern Pacific railway has reduced its freight rates on lumber and shingles from all northwest coast points to Idaho and Montana. The reduction will be effective June 3. The new tariffs show reductions ranging from 1 to 4 cents per 100 pounds.

SUGGESTIVE QUESTIONS ON THE SUNDAY SCHOOL LESSON

BY REV. DR. LINSOTT FOR THE INTERNATIONAL NEWSPAPER BIBLE STUDY CLUB

(Copyright, 1908, by Rev. T. S. Linscott, D. D.)

May 20, 1909

Believing and Doing—James II: 14-26.

Golden Text—Faith without works is dead. James II: 26.

Verse 14.—What does James mean here by "faith?"

Can a man have true faith, if he is not filled with love for his fellows and doing all he can to help them?

If a man "say he hath faith" what is the test of whether he is telling the truth?

Are there those today, who say, and probably think, they have faith, but lacking loving hearts, and the fruits of love, are deceiving themselves?

What is a Christian's proof to himself, that he is not a deceived man in claiming to be in the favor of God?

Verses 15, 16.—How do you class those who see people in need of food and clothing and do not do all they can to supply the need?

Which person more nearly resembles Jesus, the one who talks very piously, and prays with the needy, but giving them no help, or the one who generously supplies the need without any religious pretensions?

If a man helps the needy to supply their own needs, is that as well or better than supplying the needs directly?

Is it possible for a church to be doing full Christian service which is not helping the needy, either in its own, or some other community?

Verses 17, 18.—Is it possible to show faith without works?

Have all those who, with loving

hearts, are engaged in good works, also got saving faith, whether they profess to have it or not, and whether they are the members of the church or not, and whether or not they are even orthodox in their views?

Have any, who attend church regularly and profess to be religious, but are harsh with the poor, give nothing to charity, and care nothing for the needy, got saving faith?

Have those got saving faith who pray for the poor and needy, and for the sick and suffering, and yet do nothing to feed the poor or comfort the sick?

Verses 19, 20.—Is there any moral merit in mere orthodoxy, or is there any essential moral blame in mere heterodoxy?

Granted a man with the spirit of Jesus, engaged in good works, what does he lose by being heterodox, and what does he gain by being orthodox?

Verses 21-23.—When God told Abraham to leave his own country, and to start for another that God would show him, was there any other way that he could have faith in God, but by actually starting on the journey?

What is the meaning of, "and Abraham believed God and it was imputed unto him for righteousness?"

Love is an essential part of faith, and love implies action, or good works, hence is it at all possible for a person to have faith who is engaged in good works?

Lesson for Sunday, June 6th, 1909

—The Power of the Tongue. James III: 1-12.

ENGLISH NOT IMPRESSED.

They Wink the Other Eye About Roosevelt's Shooting.

LONDON, May 24.—Before he left America the English papers devoted considerable space to Mr. Roosevelt's African trip. Now from time to time they publish only a short paragraph announcing the bag he has made. Public expectation is, perhaps, rather disappointed. Something out of the ordinary was looked for from his trip.

It is now seen, however, that he is having the same experience as other gentlemen and even lady tourists, and people here know too well how big game shoots are arranged in India and Africa for distinguished, royal, noble and political visitors to regard the results of one of them as being of sporting interest. Lord Randolph Churchill's description of his bag of eight lions in South Africa some 26 years ago was the joke of England until the end of his life, and the joke will not be revived.

Those Giraffes.

Some little fun, however, is being extracted from Mr. Roosevelt's trip. There is some surprise at the report that his bag includes two giraffes. "In East Africa," says the Daily News, "licenses are not granted for the killing of these animals. It would seem that either an undesirable exception has been made or that the report is wrong. It is impossible to contemplate the alternative that Mr. Roosevelt twice hit a giraffe while trying to shoot something else."

"We suspect," says the Globe, "however dangerous the rhinoceros may have been that Mr. Roosevelt killed, the menace of that animal was less formidable than the fatal facility for giving nicknames possessed by the natives. They have christened Mr. Roosevelt Bwana Tumbo, the strong, fat man."

No Excitement—Now.

But probably the real reason for the difficulty of arousing interest in any African trip, despite the lavish use of the camera, is found in a recent statement of the Cape Town correspondent of the Times, who said:

"Africa is becoming so much like Piccadilly that one might travel from Cape Town to Cairo without experiencing any abnormal excitement."

Nairobi, British East Africa, May 15.—Theodore Roosevelt, who is at present the guest of George McMillan at the Ju Ja ranch, whither he repaired from his camp at Machakos, in the Athi river country, spent his first day at the ranch in his room, resting from the fatigue of his journey.

Writes \$1-a-Word Job.

He has, however, begun work on a series of articles describing his adventures up to date. This was yesterday, and today Mr. Roosevelt continued writing, but he found time also to visit parts of the McMillan estate and to discuss the prospects of sport with F. C. Selous, the well-known English hunter, and his host.

Mr. Roosevelt will resume his shooting expeditions on Monday.

HENPECKED SOLONS AFRAID.

SPRINGFIELD, Ill., May 22.—Opposition from wives and sweethearts of members of the house caused the defeat today of the Hill bill against "Merry Widow," peach basket, cartwheel or bungalow hats, and against the use of birds, snakes, lizards or other animals, reptiles or insects as trimmings for hats.

Forty votes were cast for the

measure, and considerably less against it, but many members remained silent. B. L. Chipfield frankly confessed that he dared not vote for the bill and go home.

"If you were of an independent spirit," rejoined Minority Leader Browne, "you would vote 'yes' and leave home."

Representative R. E. Wilson said: "I've got no home—I vote 'aye.'"

Hilton made an effort to save the bill by postponing consideration for a week before the roll call ended.

TO GO TO ALASKA.

Morgan to Look Over His Properties in the Far Northland.

SEATTLE, May 25.—Alaska, in which he and the Guggenheims, his associates in northland enterprises, are investing large sums, probably will be honored soon with a visit from J. Pierpont Morgan after his visit to California.

Intimations to this effect have come from the offices of the Northwestern Commercial company, a Morgan-Guggenheim corporation, owning three steamship lines operated between Seattle and Alaska, the Copper River & Northwestern railroad and a long chain of salmon canneries. The trip is to be made on the company's steamship Yucatan, which is being extensively overhauled. Simon Guggenheim and S. W. Eccles will accompany the financier.

SISTER KILLS BROTHER.

Tragedy at Target Practice at Bonner's Ferry, Idaho.

SPOKANE, Wash., May 24.—A Bonner's Ferry (Idaho) special says:

Mr. Steven Shields accidentally shot and killed her little brother, Johnny Sullivan, this afternoon. She was shooting at a target and just as she pulled the trigger the boy ran past the target, the bullet lodging in the right breast, killing him instantly.

Mr. Shields is prostrated over the accident. The boy was 12 years old and was visiting his sister, who lives on a ranch half a mile from here.

FANATIC NOT TO TESTIFY.

KANSAS CITY, May 22.—James Sharp, who calls himself "Adam God," was placed on trial here today for the killing of Patrolman Michael Mullin, who was one of five persons who lost their lives in a religious riot here on December 8 last.

Holding his Bible in his hand and frequently referring to it for guidance, Sharp announced that he would not testify in his own behalf.

"I am at peace with God now," he said, "and there is nothing I could say."

The state placed in evidence the weapons taken from the "Adam God" band, found after the street fight.

HUGE SKELETONS DUG UP.

SAN CLEMENTE, Cal., May 22.—Skeletons of five gigantic Indians, unearthed in an Indian burial ground near this place, are being viewed by hundreds of curious spectators today. Two of the enormous racks of bones are about seven feet long, while the others measure more than six and a half feet.

The skeletons were found at an unusual depth, under the burial ground of the Tamal Indians, who inhabited this section before the white invasion.

Trinkets and ornaments of unique pattern were found with the skeletons.

SENATE FIGHT ON INCOME TAX

WASHINGTON, May 25.—Had it not been for the attitude of progressive Republicans, who favored the adoption of the income tax amendment to the tariff bill, it is thought probably Bailey might have reached an agreement today with members of the finance committee for a vote on his amendment on June 10. Offense was taken by some of the insurgent Republicans because notice served by the Texas senator yesterday that no general agreement could be obtained on any phase of the tariff bill so long as Aldrich refused permission for the fixing of a date for the vote on Bailey's income tax amendment.

It was made clear at the informal conference that the Republicans supporting Cummins' amendment desired a continuance of the coalition with the Democrats, but they do not want it at the expense of surrendering control of the income tax fight to the Democrats. Cummins conveyed this view to Bailey. Cummins said tonight he would offer his amendments as soon as consideration of the schedules had been concluded. He will revise the amendment so as to meet the wishes of a number of Republicans. It will provide for a flat rate of 2 per cent on incomes, including those of corporations. A drawback will be allowed to individual stockholders of corporations equal to the sum paid on stock by the corporation itself when it can be shown that the total of his income is less than \$5000 per year. The Bailey amendment provides for a tax of 3 per cent.

NOT BADLY DAMAGED.

KLAMATH FALLS, Or., May 19.—The reports of damage to the buildings in Crater Lake Park were considerably exaggerated. W. F. Arant, superintendent of the park, has just returned and found the house only slightly damaged. The roof was caved in, but can be repaired at a slight cost. The barn collapsed completely, and the large timbers used in its construction were broken into kindling. The barn was large, but was especially built to withstand the enormous weight occasioned by the heavy snow throughout the winter. The buildings of the Crater Lake company were not damaged. The snow is still eight feet deep at the superintendent's station. At the rim of the lake it is a few feet deeper. It is going off rapidly, and the season for visiting the lake will open some time in June.

ANOTHER OUTBREAK IMMINENT

GRAND JUNCTION, Colo., May 21.—That another outbreak between cattlemen and sheepmen is imminent in the western part of Mesa county, where 2000 sheep were butchered yesterday, is the news contained in a message from Atchewa today. A large number of sheepmen left there last night to apprehend a band believed to be responsible for the outrages. A sheriff's posse is also traveling to the scene.

GRAND JUNCTION, May 21.—Word comes tonight that the posse have failed to find the slightest clew to the marauders and that there is small hope of apprehending them. Should the posse and raiders meet, a pitched battle is expected.

WITNESSES HAVE SKIPPED.

SAN FRANCISCO, May 25.—It was announced today by the prosecution in the Calhoun case that Attorneys Hugh and John O'Neil and E. A. Platt, all wanted as witnesses by the prosecution, have disappeared. The O'Neils were accused of having tried to prevent the appearance of one of the witnesses for the prosecution, and Platt was under the charge of grand larceny in connection with the delivery of Detective Burns' papers to the defense.

COLLIDES WITH WILDCAT.

GRAND JUNCTION, Colo., May 19.—Two men who came to Grand Junction yesterday tell a thrilling story of a battle Sunday night with a wildcat, which attacked them after they had been hunted 20 feet from a railroad velocipede. The machine collided with the cat in the darkness and the animal attacked them. A fierce struggle followed, and finally the men killed the wildcat with a log. They were seriously injured.

FRENCH GOVT INTERESTED.

CHEYENNE, May 19.—The murder of Joe Emge and Joe Allemand, sheepmen, and Jules Lagier, a sheepherder, in the Big Horn country, April 23, by a band of masked riders will be investigated by both the French and United States governments. The French government has demanded an investigation of the death of Lagier, who was a French citizen, and it will also conduct separate inquiry through the French consulate at Chicago.

TEDDY GETS BUFFALO.

NAIROBI, British East Africa, May 22.—Theodore Roosevelt and

his son Kermit are continuing their hunting excursions from their camp on the Heatley ranch on the Nairobi river. Two bull buffaloes have fallen before their guns, one, the bigger of the two, being brought down by Mr. Roosevelt alone, while the other was bagged by Mr. Roosevelt and Kermit together.

NOW STREET SWEEPER.

St. Louis Judge Ordered by Doctor to Get Pure Air.

EAST ST. LOUIS, Ill., May 24.—Forced by order of his physician to resign his office of police magistrate and obtain employment where he could enjoy pure air and outdoor exercise, Judge Thomas Stanton today started to work as a street sweeper in East St. Louis. As magistrate, Stanton received an average of \$300 per month. As street sweeper he receives \$1.50 a day.

Stanton was elected magistrate of East St. Louis two years ago, after filling the unexpired term of Magistrate McKane. The time and attention he gave his office told on his health, and he became a sufferer from stomach trouble. One year ago he was taken to the hospital, and for several weeks it was feared he would die. He recovered and resumed his duties, but in a few weeks he was returned to the hospital.

He resigned his office six months ago, and since then he has tried several experiments. Last week he applied to the mayor for the position of street sweeper, and on Monday his wish was granted.

FOR FREE DELIVERY.

Assistant Postmaster Woodford Is Working for It.

Assistant Postmaster Ralph Woodford is not going to allow anything which can be removed to remain in the way of a free mail delivery for Medford. He has but recently completed a map of the city, showing all streets and alleys and the names of the streets. This has been no small job, and Mr. Woodford has burned the midnight oil a great number of times in its preparation.

"What's doing in the free delivery matter?" was asked Mr. Woodford, to which he replied: "Nothing, to my knowledge. A special representative of the government is liable to drop in here almost any time, and when he gets here and looks over the situation I can probably give you a news item. Until then, we will all have to wait."

MILWAUKEE RAILROAD.

It Is Reported That It May Extend to Portland.

SEATTLE, May 26.—Trackage arrangements between the Union Pacific and the Hill roads, it is believed here, will not convey any rights to the Milwaukee, which, if it seeks entrance to Portland, will have to reach the Oregon City over its own tracks. In railroad circles there prevails a belief that the Milwaukee will extend to Tacoma and east, to strike the Lewis river and country back of Vancouver, and ultimately to build to Portland.

GRANTS PASS TEACHERS.

Acquitted by the Court on Charge of Whipping Pupils.

GRANTS PASS, Or., May 26.—Without even hearing the defense, the case of assault and battery against Principal Mollie, of the High school and City Superintendent R. R. Turner was dismissed yesterday afternoon. The school population is largely split into two factions. The two officials were accused of whipping R. Richey last week. The demonstration of the rival elements in the justice court yesterday was so pronounced the room was ordered cleared. Five attorneys had been engaged.

INDICATES PROSPERITY.

WASHINGTON, May 20.—Returns from the national banks of the country showing the condition April 28, 1909, show since May 14, 1908, loans and discounts have increased \$134,760,000; that the total resources have increased \$774,260,000; that government deposits have increased \$111,250,000, and bills payable and rediscunts have decreased \$8,879,000.

MAKES GETAWAY.

SALEM, May 19.—S. W. Harvey, serving one and one-half years in the state penitentiary for larceny committed in Jackson county, made his getaway today from the home for the feeble-minded. Harvey is the eighth convict to get away from the feeble-minded institution, only two of whom have been recaptured. Harvey has only one eye, the right.

FOR SALE.

That big red barn between the schoolhouse and Kerby postoffice, can be bought for \$1000, with \$100 an acre for the ground and \$1.15 per share for the water. Parts further out as low as \$50 below and \$20 per acre above the ditch. The entire tract of 190 acres, \$6500, with 650 ditch shares. H. B. Reed, Kerby, Or. 3-1td-1tw

SUBSCRIBE FOR THE MAIL.

MEMORIAL DAY SERVICES

Memorial services will be held in the Tabernacle, Sunday, May 30, at 2:30 p. m.

Once a year our thoughts are turned to the brave defenders of our country. This service is for a review of the past and to awaken patriotism. Those who love God and our country should join in this service. All the people are cordially invited. Following is the program: Hymn, "God Bless Our Native Land" (Mason). Scripture lesson, Matt. x:24-42. Rev. M. F. Horn. "Peacefully Slumber the Brave" (Strickland). Prayer, Rev. W. C. Reuter. "God Uphold Thee, Free Columbia" (Beckley). Sermon, "The Sword Unsheathed and Sheathed," Rev. W. F. Shields. Hymn, "My Country, 'Tis of Thee."

MEMORIAL DAY PROGRAM.

Following is the program for the observance of Memorial day on May 31 in Medford:

Decoration of the graves of soldiers and sailors by Chester A. Arthur Post, No. 47, and W. R. C. Public invited to participate. Start from Angle opera house at 9 o'clock a. m., proceed to cemetery by team, where public services will be held.

Reassemble at Angle opera house at 2 o'clock and from there march to the park in the following order: Band, G. A. R., W. R. C., school and civic orders.

Service to the unknown dead by the W. R. C. and school children, then march to the platform in park. Selection by band.

Song by choir. Invocation by Chaplain. Reading of orders and Lincoln's Gettysburg address by adjutant.

Song by choir. Address by Rev. James McDougall of Portland.

Song by choir. Benediction.

We earnestly request all old soldiers to meet with us and take part in the exercises of the day. Also we cordially invite all ex-Confederate soldiers and sailors to meet with and join with us in these exercises, both on Memorial Sunday and Decoration day. By order of

COMMITTEE.

KLAMATH CANAL BREAKS.

Lowlands Inundated and Much Damage Is Done.

KLAMATH FALLS, Or., May 26.—Owing to the break in the South branch canal of the government irrigation ditch at 2 o'clock this morning, the headgate is closed. Before the water could be turned off considerable damage was wrought to the inundated lands. It will require several days to repair the break.

The Kansas case simply shows that Mooley is playing no favorites.

CLASSIFIED ADS.

STOCK PASTURED—by the head. Call Gus Samuels, Perry's Warehouse. 22-3t-p

FOR SALE—Seventy-five head of goats. Address Beagle post office, James Briscoe. 17-6tp

FOR SALE—Eight head of good milch cows; also No. 4 Sharpless separator. M. W. Wheeler, Phoenix. Telephone Farmers' line No. 2899. 27-4t

WANTED—All the chickens and eggs we can buy; will pay top notch cash price. 134 S. Ivy st., near Park. Phone 615. Rogue River Fish & Poultry Co., Medford
