Hart, a few miles northeast of Eagle Point, in prospecting for coal. He informs a Morning Mail representative that they have a tunnel now in about 60 feet and are getting very encouraging prospects. When he returns, work will be resumed.

Women Who Are Envy

Those attractive women who are lovely in face, form and temper are the envy of many, who might be like them. A weak, sickly woman will be nervous and irritable. Constipation or kidney troubles show in pimples, blotches, skin eruptions and a wretched complexion. For all such, Electric Bitters work wonders. They regulate Stomach, Liver and Kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth velvety skin, lovely complexion. Many charming women owe their health and beauty to them. 50c at Chas. Strang's.

ANOTHER BAD RUNAWAY.

Buggy Was Smashed. But Mr. and Mrs. Painter Escaped.

What came near being a serious runaway occurred yesterday. As Mr. and Mrs. C. S. Painter of Eagle Point were coming to this city, when coming down the Pruet hill, some four miles north of this city, where the road is graded up quite high, one of the animals he was driving, a young mule, became frightened at a buggy which was going in the opposite direction. The team crowded the wagon over the edge of the fill and tipped Mr. Painter out, taking the lines with him.

The team veered to the opposite side of the road, where the wagon upset, throwing Mrs. Painter out, the box barely missing striking her. As it was, she was only slightly injured. Mr. Painter secured another rig and an extra horse and came to town. One of the animals was slightly injured. Mr. Painter was quite badly bruised and shaken up from his fall, but no bones were broken.

ARE MAKING PROGRESS.

Work on the New Business Blocks Is Being Pushed Rapidly.

The new brick business houses on West Main street are being pushed along at a rapid pace—and they look good. The Palm-Neidemyer block is up two stories and the collar joists are now being put in, and when this is completed the fire walls will be put up and the roof put on.

This is a wonderfully pretty building—and a large one, being 50x140 feet in size. The owners have been considering the advisability of putting the building up three stories, but it has been decided not to do this.

The syndicate is also growing rapidly. The first floor joist are in place and the brick walls have been started.

ELECTION JUNE 21.

At That Time a Director Will Be Elected for Five Years.

As will be seen by the official advertised notice, the annual school election for the Medford district, No. 49, will be held on Monday, June 21, when the polls will be open from 2 until 4 o'clock in the afternoon.

The election will be held at the High school building and the names which will appear on the ticket will be chosen as follows: One director for the term of five years, and the transaction of business usual at such meetings. The notice is signed by the clerk of the board, Oris Crawford.

WORK IS PROGRESSING.

Six boarding cars were taken out yesterday over the Pacific & Eastern railroad for use in boarding the help on the extension of that line.

There are now several teams and men at work with scrapers, plows and the work is moving along as well as could be expected, still the superintendent of construction, Mr. Rogers, is badly handicapped in his work because that more teams cannot be secured.

Correct Glasses Correctly Fitted

Notice the difference in the way the rays of light pass through the OLD style lens and the new TORIC lens.

When looking through the TORIC lens you get the same vision clear out to the edge of the glass, in all directions, that you do ONLY through the center of the old-style of lenses, thus giving you more freedom of vision without the strain upon the Rectus muscles, which constantly occurs when wearing the old-style glasses.

With the old-style before the eye you see like this.

With the new TORIC lens you get the same results at all angles without turning your head that you do directly through the center of the old style.

Dr. Gobie makes a specialty of the above lenses; also fits the 1-SIGHT bi-focal, ground from ONE piece of glass. Optical Parlor in Perry's Warehouse, Seventh Street, Medford.

SUBMARINE BOAT SUNK.

SEBASTOPOL, June 12.—Hope, though slight, is entertained that the Russian submarine boat Kamballa, which was sunk in a collision with the battleship Rostislav during the maneuvers last night, is still alive. Despite efforts being made to raise the submarine, the imprisoned men may have passed to the great beyond.
