Hart, will remain in the valley and have charge of the ranch they purchased last week, a few miles south of this city, for which they paid the owner, Mr. Johnson, the sum of \$20,000. The land is situated near the Burrell orchard and is set to trees.

The parties that were arrested several days ago for an attempt to break into some of the butcher shops, were yesterday turned loose and ordered out of the city, after being made to pay for their board. It seems the prosecuting attorney failed to appear and they were held as long as the law permits without a hearing.

Here is a pretty good record for sewing machine sales. D. T. Lawton, implement and carriage dealer in this city, since July 21, 1908, has sold over 160 White sewing machines in Medford and the immediate surrounding country. That is a cracking good record, but whether the credit is due Mr. Lawton or the White Sewing Machine company isn't quite clear, but both undoubtedly are entitled to credit.

Sees Mother Grow Young

"It would be hard to overstate the wonderful change in my mother since she began to use Electric Bitters," writes Mrs. G. L. Kirkpatrick of Danforth, Me. "Although past 70 she seems to be really growing young again. She suffered untold misery from dyspepsia for 20 years. At last she could neither eat, drink or sleep. Doctors gave her up and all remedies failed till Electric Bitters worked such wonders on her health." They invigorate all vital organs, cure Liver and Kidney troubles, induce sleep, impart strength and appetite. Only 50c at Chas. Strang's.

THEY LIKE MEDFORD.

Correct Glasses Correctly Fitted

Notice the difference in the way the rays of light pass through the OLD style lens and the new TORIC lens.

When looking through the TORIC lens you get the same vision clear out to the edge of the glass, in all directions, that you do ONLY through the center of the old-style of lens, thus giving you more freedom of vision without the strain upon the Kestus muscles, which constantly occurs when wearing the old-style glasses.

With the old-style before the eye you see like this. With the new TORIC lens you get the same results at all angles without turning your head that you do directly through the center of the old style.

Dr. Gobie makes a specialty of the above lenses; also fits the 1-SIGHT bi-focal, ground from ONE piece of glass. Optical Parlor in Perry's Warehouse, Seventh Street, Medford.
