#### OUR CITY WATER

Was there any water ever made dirt for than now being pumped through the city water works!

Is it possible for water to contain any one golid matter and still remain

Is it any wonder that meters don't work, that water pipes fill up and that people drink boors and go unwashed? Hear creek in all its mid carrying

curreer sever was muddler than now, and this solution of mother earth is retailed, without an effort at settling of filtering, to consumers.

If Medford cannot afford a good

supply of pure mountain water, and people must continue to use the liquid soil of Bear creek, and filtration is too costly, a large settling basin or sories of settling basins should be built, so that the silt in the water may have a chance to be deposited somewhere besides in the family wash busins and

It is a serious question whether to sell such stuff as water is not a viola tion of the pure food law, as well as ob-taining money under false pretenses.

## Half Price Suit Sale

SEE THE WINDOW DISPLAYS

Probably never again in the history of this store will we be compelled to sell the newest and best Suits at the ridiculously low prices we are now offering. You ask why? The reason is apparent enough—we attempted to show too large assortments. In stead of offering you from six to one dozen Suits to choose from, we have never shown less than 75 suits, and from that up to 150, from which to choose. True, fast as we sold suits we ordered more to take the places of those sold in order to keep our stock in good condition. The result is that we are overloaded. Our money is tied up in ladies' suits. and you can use them. All we We are not asking anything like cost for these suits. They are selfing, too, and somebody is going to get a bargain. Will it beyon? Don't say to yourself that we are trying to HOODGO some body; but come and see suits that you have seen before marked at \$14.50 and along to \$35.00 now
