That the offer in which \$2500,00 in That the offer in what is the ladies in Medford and vicinity is being widely flacioused is proven by the large num. per of inquiries that have come to the Pribune office, and the question as to who are the candidates that have been ominated has been asked many times Positively no information will be given out from this office as to who will compete for the prizes until the an nonnecement of the names, Saturday, fanuary H.

PAVORABLY RECEIVED DISCUSSION OF SOCIALISM.

Taking Exception to Them-Gross Ex aggeration of Conditions Claimed.

Full details of this great offer, giv-ing the fields to be covered, or the districts and what prizes are to be article in the Tribune by Pather Greg ary which grossly misrepresents the So cialist party and Socialism in general, and I ask your permission to answer it in your paper. Pather Gregory goe on to say that the Socialist movemen s made up principally of the proletaria the floating population. This is only partly true, for while Socialism repre sents the interest of the working clasus a whole, it is not made up of the doating proletariat, for most of the great leaders and thinkers are not of that cines. thinkers as Alfred Russell Wallnee, En rico Ferri, the great criminologist; Jack London, Upton Sinclair and scores of thers equally as great.

Who the Socialists Are.

No. it is not the hoboes or Weary Willies that come to Socialism, but the small property owners ad farmers, onco mechanics. Father Gregory says Social on is a revolutionary movement against capital. This is another misstate Socialism is not against capital, but against the private ownership and con trol of such by the private capitalist Neither do we look with greedy eyes at any honestly acquired wealth. But we question the honesty of taking advan-tage of the wage earners and small farmers who are compelled to sell them arlyrs piecemeal to the private owner of the means of life.

Advocates Complete Trial.

Socialism is revolutionary only in ar as it advocates a complete change in the ownership of property used in the production of wealth. In all coun-tries like the United States, where we inve the ballot, this can be necor plished by political action. In coun tries like Russin there is no other way only than to fight. The Socialists of Russia have twice tried political action only to have the doman dissolved each me by the emperor.

Father Gregory states that the Social ats advocate the nationalization of al crivate property in their platforms. hallenge him or his friends to produc any such platform. All that any So rialist platform has ever taught is that those instruments of production which are used collectively must be owned

Not Opposed to Religion.

Another of the father's vagaries that Socialism is oppopsed to religion and denies the existence of God. So tore to do for or against religion of We have no religious test for people cho join the movement, and the So allotte congresses have all declared eligion to be a private matter. Mars end Engles may have doubted the exstence of a personal god, but I have known of many good Republicans and Democrata to have the same opinio priest to condemn the Republican of

Democratic parties as being ungodly. Father Gregory also accouses us of advocating free love. It is hard to understand what he means by free love If he means free fast, I will ask him or his friends if we haven't got b very securely established under the de main of Democratic and Republica government. There is not a city of any size in the United States which loca not receive hush money from jos such sources.

On Marriage Question.

Because we want to see natural se-ection operate in the marriage relation, we are accused of wanting pro-missions sex relations. The present marriage is a property marriage in se far as it is not does be love met but can be support me? And all the laws of man cannot make people love when none, secure from poverty. No. Socialism destroying th home, it is the present sestem, expital-
