

Sixth annual sale of Muslin Underwear at DEUEL & KENTNER'S, the BIG STORE

Five Day's Sale, Commencing Tuesday, Jan. 21

No beautiful pictures or flowery talk, but the best line of Ladies' Muslin Underwear on the market. This line of goods has been sold by us for the last six years and the ladies of Medford and vicinity are thoroughly acquainted with it. You must wait for their BIG SALE. Good goods and prices talk and we have both.

On Friday, Jan. 17 we have our January REMNANT SALE. That day we place all remnants in every department at about one-half the value. Don't forget you can fix out the children in fine shape for little money.

NEWS ITEMS FROM TRAIL.

L. Bassett and John Hall left for Bend a few days ago. Mr. Hall will return in a few days and Mr. Bassett will remain until spring.
 Frank Hammond was down to Trail recently. He said the run was shining nicely up on the mountain.
 The old Rogue River ferry is still being used, though the high water left it and the United States said it crossed on the side by means of a block and rope.
 The Rogue River ferry is still being used, though the high water left it and the United States said it crossed on the side by means of a block and rope.
 The Rogue River ferry is still being used, though the high water left it and the United States said it crossed on the side by means of a block and rope.

J. L. Richardson is carrying the mail from the ferry to Trail. The man from Eagle Point dare not cross.
 Minis Pence and family of Elk creek drove down to Trail Sunday.
 John Miller was trading with Trail merchants Sunday. He says they have been having the grippe up his way.
 Everything is looking fine up here—grass is good, and Johnson Bros. are driving cattle on the range.

PHOTO GALLERY SOLD.

L. H. C. Mackey, have sold my photographic gallery to Mr. F. W. Lesmeister. The reason that I have not announced it sooner was to find out first what kind of a photographer Mr. Lesmeister was. Now I can say that he is a good all-around photographer and I recommend him to all of my customers and friends.
 Respectfully
 L. H. C. MACKEY.

WHY COST OF PAPER IS STEADILY INCREASING

Today there is general complaint among publishers that printing paper is constantly growing dearer. In the middle west many local papers are raising their subscription price 50 per cent in order to pay for the paper. From the time when Gutenberg first used movable types made of wood, the cheapest day of metropolitan papers, some of which consume the product of acres of paper in a single edition, printing has been very large.
 The cost of a newspaper is not only the amount of paper consumed, but also the cost of the ink, the labor of the press, and the cost of the distribution.

since 1899 from 2,000,000 to 3,500,000 cords. The year 1906 marked an increase of 93,000 cords in the imports of pulpwood, the highest average value per cord for all kinds, and a consumption greater by 409,033 cords than that of any previous year.
 Spruce, the wood from which in 1899 three-fourths of the pulp was manufactured, is still the leading wood, but it now produces a little less than 70 per cent of the total. How well spruce is

suited to the manufacture of pulp is shown by the fact that during a period in which the total quantity of wood used has doubled, and many new woods have been introduced, the proportion of spruce pulpwood has remained nearly constant, in spite of the drains upon the spruce forests for other purposes. During this time three different woods, from widely separated regions, have in turn held the rank of leader in the lumber supply.

The average cost of pulp delivered at the mill was \$7.21. The total value of the wood consumed in 1906 was \$26,400,000. The chief item determining the price of paper is found in the cost of pulp. An example of the increased price of paper is found in the case of a publisher of a daily in the middle west, who recently paid \$1200 for a carload of paper. The same quantity and grade of paper cost a year ago but \$800.

DUOFOLD

REASONS WHY YOU SHOULD WEAR Duofold Health Underwear

DUOFOLD HEALTH UNDERWEAR, being made of two separate fabrics, it is warmer than a single fabric of twice the thickness. The good housewife puts a double blanket on the bed for the same reason. The outer fabric in Duofold Health Underwear excludes the cold, the inner retains the heat.
 DUOFOLD HEALTH UNDERWEAR, being made from two light fabrics interknit, it has warmth without bulk or weight, the inner fabric being made of very fine combed cotton and attached to the outer fabric of wool, keeps the wool from shrinking. The good housekeeper, in washing a piece of lace, sews it to a cotton fabric to keep the lace from shrinking.
 DUOFOLD HEALTH UNDERWEAR, being made of two separate fab-

rics with the air space between, bears to the human body the same relation as that of the double window of the house. Air being a non-conductor of cold, the garment made of two separate fabrics with an air space between is warmer than a single garment of double the thickness.
 DUOFOLD'S inner fabric of cotton with air cells between—the impurities of the body are absorbed by the outer fabric, while in the ordinary single garment the impurities are retained next to the skin.
 DUOFOLD HEALTH UNDERWEAR, being made with the inner fabric of a very fine cotton, is soft, and can therefore be worn by those who would like to wear wool, but think they cannot.
 DUOFOLD HEALTH UNDERWEAR has twice the absorbing and ventilating qualities of a single fabric.

SOLD ONLY AT **THE TOGGERY** Oregon's Greatest Value Givers
