Begin the New Year IN THE RIGHT WAY By Building Iowa Box and Lumber Co. A good start means much to you. Get off on the right foot and keep going. Don't continue to throw money away by paying rent, when you can own your own home. How much did you pay out for rent during 1907? Stop and figure it out. What have you got to show for it? Nothing but a bunch of receipts. Suppose you had put this money into building a home and buying a lot? You'd have something to show for your coin, wouldn't you? The same thing holds true in the coming year. Are you going to waste your mazzuma all year, and have 1908 net you nothing but a living? Ask your wife about it, and see what she says. Building is going to be cheaper this year than ever. You can buy practically at your own terms. We sell all kinds of lumber—everything needed in any kind of a house from a small cabin to a palatial mansion. We also sell Booth-Kelly lumber.

Food for Convalescents

Did you ever have the grip-sneeze all over in spots, and have your head feel as though you'd been out the night before trying to "make Milwaukee famous," when in reality you went to bed at 7:30 with an antifebrile plaster over your forehead and your system full of hot lemonade and flaxseed tea and your mouth all puckered up with quinine? Pa says there is no parting so bitter as the parting of a quinine capsule just as you are in the act of swallowing it. Ma hasn't any doctor's diploma, but when it comes to things like grip or cold, she knows the proper dope to knock them silly. And when you're coming through, she knows how to make the dandy broth and gelatine and poached eggs and lots of things to bring you right up on the bit and make you feel like your old self again. We have all the things and lots more, like olive oil and grape juice and stuff to tone up your system after you've been up against it.
