FOR STATE UNIVERSTY.

(East Oregonian, Pendleton, Or.) It is to be sincerely hoped that the voters of Oregon pass the University of Oregon appropriation bill at the coming election. The bill will be on the official ballot for a referendum vote. Oregon cannot afford to have it said that she refused to build up her state university. She cannot afford to drive her young men and women to Washington and Idaho to secure a higher

Union Republican, Feb. 1: Among the referendum bills that will come before the people this spring will be one that deals with the appropriation for the state university at Eugene, and un-less the signs are misleading it will be approved by an overwhelming major. ity, and it is up to eastern Oregon to do its part in this matter. A state that strangles its educational institutions is a good one to get out of, and Oregon does not propose to be in

Daily Herald, Columbia, Mo.: In Oregon the referendum has been invoked persons hostile to the state univer-to tie up the appropriations for that institution. At the last general assembly of Oregon a bill was passed increasing the university appropriation from \$47,500 to \$125,000. The bill had practically a ununimous vote in the general assembly. Now, however, it must, upon petition from a number of work, upon perition from a number of voters, be approved at the November election. In the meantime, of course, the university suffers. To have the people veto the legitimate appropriation bill would not only cripple high education in Oregon, but he a blow to the system of referendism. It is to be hoped that there will be no such result. that there will be no such result.

Eugene Register: The people of Ore

gon are rousing up to the fact that to strike at the state university is to wound he state in a vital spot and in fliet an injury from which it will take years to recover. Nothing would give Oregon a blacker eye with intending homeseckers all over the Union than for the voters to say they are opposed to higher education. If people who live in Oregon, or come to this state, have to send their sons and daughters to out side universities in order to give them a complete education, they will be dis posed to move to the states where such means of education are upheld with pride by the people. To earry the referendum against the state university will be the beginning of a general movement against all forms of advaned education, finally resulting in clim ination of all but public schools. If Oregon should become the only state in the Union without a state university, it would be the one state beld up to seem by the whole civilized world as the spot on the Pacific coast to stay away from as they would evade a land infested with the plague.

hereby called a special election in a city for the purpose of submitting the values of said city for their Purchasers of Oregon & California proval or rejection, a proposed among Grant Proposet May Be Attacked Un monthly section 72 of the city Charter Grant Property May Be Attacked Under Pulton Resolution, as Well as the Railroad Company.

Buyers of railroad grant lands from the Oregon & California may be at tacked, as well as the railroad company under the Fulton resolution, authoria ing the attorney general to begin suits to enforce the compliance with the terms of the grants—namely, that lands shall be sold for \$2.50 an acre in lots of not more than 160 acres to each pur-

chaser, and to actual settlers only.

This double authority conferred of
the department of justice by the reso lution greatly concerns holders of the lands, who have obtained their tracts from the railroad in violation of these terms. Nearly 700,000 acres have been sold by the railroad in violation of these terms, and much of these lands contain the most valuable timber in the state. The peasements have sur-tained themselves with the belief that the courts will regard them as innocess purificers. But the government xd meeterd that it was the busices placed by company on the sale ands, that many of them bought from Sauced patterns and that decide violating the terms of the greats cannot savely title and are youl.

The resolution also authorizes the at torney general to institute suits to as certain the rights of the United State was to the lands granted to the Coos Bay Wagon Road company for a wagon and from Roseburg to Coos Bay. By the terms of that grant the lands were to be sold for not more than \$2.50 acre and in lots of not more than 160

seres to each purchaser. These restrictions have been violated like those attached to the railroad lands, by sale in bulk and at higher prices than \$2.50 as here and by fasal of the company to sell to appleants for land at \$2.50 nm acre.

We are able to offer for a few days the most desirable young orehard within a few miles of Medford, which we have been able to offer our enstomers for a year, and within reach of the man with reasonable capital. The tract consists of 272 acres of orchard land, with 60 acres in cultivation and 45 acres in orehard of the right varieties of fruit, just coming into bearing. Thirty acres of the orehard is in Spitzenberg and Newtown apples and Comice pears. Fifteen acres in prunes, with good dryhouse on premises. Fully 60 acres more of good fruit land on the tract, covered with brush, but with enough firewood on same to pay for clearing and setting to fruit. Now is the time to act in this matter, for values are advancing so rapidly that only the rich can afford an orchard in this valley in a few years. Why shouldn't values advance, when the right kind of an orchard is yielding such fabulous re-
