"Something which is of considerable interest to the public generally and which is perhaps not generally known is the system of prepaid orders now in effect between stations of the Southern Pacific company and all points in the United States. By means of this system tickets may be purchased at Medford from any place in the United States and mailed or telegraphed direct to the party wishing to come here. Sleeper accommodations and small amounts of cash in connection with these tickets may also be furnished at the same time."

**Good Coffee Values**

I was reading about a fellow who was asked what he had had for lunch, and he said: "A piece of luncheon, some almost eggs, a cup of near coffee and some not quite pie." Well, you won't find any "near coffee" around this shop; that is, if we sell it to you for coffee. It's easy for a grocer to give you a good run for your coffee money if he isn't too stingy. Coffee is lower than ever before and qualities better. It all depends upon how much a grocer is willing to pay for his coffee. You can buy the real old Govt. Java or you can buy Java which comes from Brazil, but whatever we sell you, whether it be Java, Mocha and Java or Costa Rica, you may know it is the best grade that can be sold for the money. We have a big coffee trade, and that helps us to give you fresh roasted coffee any old day you want it, and not the tasteless kind which has lost most of its strength. I expect a lot of ladies in the store today to buy our 25c coffee.
