PARENTS BOIL BABY TO DEATH

Anxious Father and Mother Place Little One in Bath and Put Water on Stove to Heat.

COLFAX, Wash., April 9.—The 8-month-old son of Mr. and Mrs. Fred Burns of Pampa, Western Whitman county, was seized with a fit this morning. The parents placed the babe in hot water as a remedy. The water became cold, and the anxious parents put it on a stove to heat it. There was more fire than they thought, and the water became scalding hot. The infant died shortly after.

HEART IS TAKEN OUT, PATCHED UP BY SURGEONS

NEW YORK, April 9.—With a knife wound in his heart that was every minute bringing him nearer death, Robert Inglis, a young athlete of Yonkers, was taken to St. Joseph hospital in that city and within 15 minutes was on the operating table, where the surgeons opened his breast, lifted out the heart, took three stitches and replaced the organ. A few hours later the patient was able to talk and the physicians said his recovery was possible, although his condition was still considered extremely critical, with the chances against him.

Inglis received his wound following a warty altercation with three strangers on the street. The hospital happened to be near by and the injured man was hurried to it. The stitches had to be taken when the heart was distended or between beats, as had they been taken when the organ was contracted they would be torn away when the heart swelled again with blood. Removal of a portion of two ribs on the left side was necessary before the heart could be taken out. The stitches were made with catgut. Inglis, when he recovered consciousness, identified Paul Fornisky, whom the police had arrested, as the man who had assaulted him.

LABORERS ORGANIZE TO ELECT A PRESIDENT

CHICAGO, April 9.—Five hundred thousand workers will enter the presidential campaign in a solid unit and try to elect a working class candidate. It is declared William D. Haywood, secretary-treasurer of the Western Federation of Miners, recently. His announcement was caused by a dispatch from the executive board of his organization, informing him that preparations for the consolidation of 500,000 members of labor unions have been adopted by half of the largest organizations in the country. Haywood continued:

"If a spur to the workers was wanted Secretary W. H. Taft furnished it in his recent speech for a larger army for use in case of internal trouble. Taft and other such politicians will soon learn that labor is becoming too intelligent and too business in its conduct to be used as a tool for the capitalist class. Already the amalgamation of the United Mineworkers, the Western Federation of Miners, the United Business Workers of America, carriage workers, shoemakers, bakers and confectioners and other organizations, numbering more than 200,000 members, is certain before the election. A meeting will be held next week of the representatives of the unions to formulate plans. The founding of the new labor party may be postponed for a short time, but it is assured within a few months. We will form a federation of labor that will not send lobbyists to the legislature to beg for what they never get, but stand up to office to have what we are entitled to."

Representatives of the unions will meet Monday to adopt a plan for organization.
