"THE PUBLIC BE DAMNED."

The phrase that Vanderbilt made famens exactly fits the attitude of Jackson county officials, who, though elect-od as public servants, seem to regard

themselves as public masters.

It is none of the public's business the none of the public strust and takes money belonging to taxpayers. It is something to be carefully concaled from the people.

It is none of the people's affair in what condition county records are. People may have to pay taxes twice, and

then find themselves on the delinquent list, or they may have to swear that they own property they have paid taxes

they own property they have paid taxes on for years, but are not credited with. That, of course, only concerns the courthouse officials.

It is none of the public's business that the money one district pays for rouls is spent in "Dunnixing" roads in other districts. That only affects

the county court.

It is more of the people's concern that assessed cultations are raised a that 6622 per cent without taxpayer being given a bearing, and the raise called "equalization". That only in terests the board of equalization, each posed of the county court, the county assessor and the county clerk.

It is note of the people's affair with goes on at the Jacksonville courthouse Pay taxes and keep the political ring it office by votes; that's the job outlined for the people.

NECESSITY FOR EXPERTING.

Wise Talks By the Office Boy

Pa says a rose by any other name would be just as expen-sive back east this time of year. I sometimes think he pines for the piney woods in old Penobsect. Frappe County, Maine, where he was raised—but that's one thing yours truly never yearns for. The good mountains and the good old ocean and nice ald Oregon atmosphere are good enough for m . But it's all is how you were raised. Pa likes class chowder and corn on the end, and barvest apples and a lot of things that a kid who was born this side of the snow sheds hasn't had much chance to get acquainted with. Those who have lived on both sides of this great country and lived long enough to know what's can get all those things just as nice one place as another, if you know where to buy: We've got clam chowder from Foster that is just as nice as any year ever ate on the sand, and lets of other things that have that "Town East" taste.
