

SPORTING NEWS.

Ashland beat Central Point on the grounds of the former Sunday, playing 15 innings before the game was decided. The score was 7 to 7 at the end of the 14th inning, the winners making three runs in the 15th. Wicks and Pauly both pitched good games and had pitched alone counted the game would probably have been called by darkness. Errors at critical times lost out for Central Point.

Gutek and Haekenschmidt, the great wrestlers, received an offer recently to wrestle in Europe for \$10,000. O'Rourke did not hesitate to double the amount, for he feels sure of drawing a good crowd to New York to see the contest.

San Francisco's percentage is slowly but surely dropping. When all the teams hit their stride and are playing consistently the race is going to be one of the prettiest since the present league was organized.

Jay Gould of New York, who recently added to his laurels in the tennis court the acquisition of the gold racquet by his third victory in the Tuxedo tournament, will be among those who will compete in the Olympic games at London this summer.

June 4 has been selected as the date for the 100-mile road race under the auspices of the Portland Automobile club during the rose festival. In addition to the feature event there will also be a 50-mile road race.

Each event will have three handsome cups as prizes. Henry Wemme has also donated a \$500 trophy, which must be won three years in succession in order to retain it permanently, thus helping to make the affair an annual event.

The pennant race in the Pacific Coast league has started in that style that makes the game fans' delight. The season is in its third week now and the teams look to be an even choice with a possibility that Oakland is the weakest in the bunch. The American league has proven the most popular baseball organization in the country, because its pennant races have always been so close. Nearly every year four teams have had a good show and the honors were only finally decided the last couple of weeks. Such a race is in prospect on this slope this year. Portland lingers in the south this week and next, and will open at Portland with San Francisco May 5. Revenge, the fans are praying for, and it will be sweet if they can get it in the opening series here, for the terrible slaughter of the first week of the season.

NOMAL EXAMINERS INSPECT ASHLAND SCHOOL

The state board of normal school examiners, composed of Superintendents Turner of Grants Pass, Powers of Salem and Churchill of Baker City, completed their first official visit to the State Normal school at Ashland Tuesday, having spent two entire days in making a most rigid inspection not only of the work of the institution, but of the general equipment which the school has, so as to be in a position to make an intelligent recommendation to the next legislature, a duty developing upon the board under the provisions of the act under which they were appointed by Governor Chamberlain.—Times.

a grand ball in the evening, during which a May queen will be elected by ballot and crowned queen of the May in the presence of the assembled multitude. It is expected that a candidate for queen will be furnished from every town and country community in the valley and that the momentous question of who is the most popular young lady in the Rogue River valley will thus be definitely settled.
 Other announcements of different events will be made later.—Central Point Herald.

When the Fire Bell Rings

Most people WAKE UP. Haven't you heard it ringing, ringing, ringing loud enough to wake the dead in Medford during the last year?

It means that right now is the right time to get in on the ground floor in the heart of the city, before the new railroad, the water system and the coal road sets things to booming in Greater Medford.

It means that such a chance as we are able to offer for the next

FIFTEEN DAYS ONLY

It Leads Them All

When you got your cook stove you probably were told that it was the best that could be bought. You believed what almost any dealer claims for his stove—that "it leads them all." But what do you think about it now? Are you satisfied? Do you think that the range you are using is as near perfect as it is possible for a stove to be?

Haven't you often thought of some improvements that could be made? Would not a grate especially constructed to burn wood help you? How about a glass part in the oven door to make it easy to keep the oven clean? A thermometer guide for perfect baking; a simmering lid, a controller damper, and other features which you are not having the benefit of unless you are using a **MOORE RANGE**.
