It is a disgrace and shame and an evidence of a low civilization for our roads to be in such outrageous condition, and vengeance is sworn against the authorities who are responsible.

One thing is patent, the road districts are too large and should be changed and supervisors compelled to go over the roads in early spring with a scraper.

A lot of dirt to make them wiggly and leveler to smooth down and fill up and not wait until summer and then put or throw in a lot of dirt to make more mud and deeper holes.

Ed Watson has bought William Lamb residence property.

The proposed electric road will shorten the distance between the Falls and Valley about seven miles.

It seems inadvisable to enter pupils in some grades at this time of the year, since the pupils are beginning reviews for the examinations, and owing to the crowded condition of several rooms.
