GOVERNMENT WATER FLOWS OVER FIELDS

KLAMATH FALLS, Or., May 6.—Work is to be pushed with vigor by the reclamation officials all along the line on the Klamath reclamation project. Good progress under force account is being done on the Keno canal on the east side of Lake river, Campbell & Hoffman, who have the contract to construct the flume across Lost river along on the south canal, are very busy arranging the details for active work. Over 700,000 feet of good timber will be required for this structure, and men are in the woods getting it out. This flume must be completed, according to the terms of the contract, by October 1. This south branch canal is to convey water down the middle of the Klamath valley from the main canal, nine miles of which was constructed last year, and leaves the main canal seven miles east of Klamath Falls. It has just been announced that Secretary Garfield has approved the bid of Maney Brothers & Co., of Winnemucca, Nev., for the construction of five miles of the south branch canal for \$78,997, the work to be completed in five months. A representative of the company is now on the ground, securing tracts and now getting ready to take up the work, if possible, by May 16.

LONG LITIGATION PROMISED FOR KLAMATH TIMBER BELT

KLAMATH FALLS, Or., May 6.—The southern Oregon timber belt, where the big land rush occurred last fall, is again alive with people. On many claims several parties placed homestead filings and those claims are still in litigation. Not to weaken their chances for securing the lands, most of the settlers returned to the woods with the first signs of spring, and at this time there are a number of cases where two and three persons are residing on the same quarter section. They all maintain friendly relations, but when it comes to litigation the fight is bitter and every one receiving an adverse decision in the Lakeview office appeals to the commissioner of the general land office. It is now more than six months since the rush, and there is no end to the litigation that ensued therefrom. The fact is it has only just begun. Judgments are that the cases will be before the commissioner and the department for several years.

SENATOR CULBERTSON IS NOT A CANDIDATE

WASHINGTON, May 6.—Senator Cullbertson of Texas is in no sense a candidate for the democratic presidential nomination. He was prompted to issue a statement today by a story recently in circulation that in the event that Bryan fails to capture the nomination for himself he would throw his strength to Culbertson, thereby making the latter the choice of the majority of the delegates. "In view of the stories published," says Culbertson in his statement, "I desire to say that I am in no way a candidate for the democratic nomination for president. There is no doubt in my mind that the Texas democrats in the convention to be held this month will instruct the delegates to be sent to Denver from that state to vote for Bryan. It is my opinion that the Nebraska is the choice of the great majority of the democrats."

MAMMOTH COPPER MINE QUILTS LUMBER BUSINESS

KENNETT, Cal., May 6.—The Mammoth Copper company has gone out of the lumbering business. Its sawmill near the mine has been shut down after having been in operation for four years. Fifty men were laid off. The company has found that it can not purchase lumber cheaper than it can manufacture it. First, the price of lumber has fallen, and second, the cost of manufacture at the mine has increased for the best timber near the mill has been cut away and heavy stumps have to be paid to private owners. The company has cut all the timber on hand that it owned.

Death of Flies

Everypop is endeavoring to organize a crusade against flies, which, says Knowledge, are now admitted to play an important part in the dissemination of disease. Their breeding places in the city have been ascertained, their development history has been carefully worked out, and suggestions are made as to the manner in which their extraordinary rate of multiplication can be readily checked. It will be interesting to see whether the suggestions will be tried upon, and if so, whether any perceptible diminution of these insects in the city will be noticeable next summer.

Thompson Bound Over

YUBA, Cal., May 6.—J. W. Thompson, charged with grand larceny, stealing a horse from Charles King of Montague, had his preliminary examination before Justice of the Peace W. M. Thomas Thursday afternoon, and was bound over to answer in the superior court. His bail was fixed at \$1000. Thus far he has been unable to give the required bail, and he is confined in the county jail.
