minable on the Pacific Coast.

WASHINGTON, May 12 .- An Invest igntion by the interstate commerc-commission of the causes for the procond general allvance in freight rates broughout the country is likely to take place. Hints from commission circle indicate this as a propobability. Offi emily, the members of the commission have as yet taken no cognizance of the etion of the railroad men in arranging or new schedules, which will incremount gross earnings from \$100,000,00 a \$200,000,000, according to conserva-ive estimates. Unofficially, however hey are untching events with keen is crest in all phases of the situation.

There is a strong impression in Washington officialdon that behind the causes for raising charges opinly stated by the railroad presidents and trafic managers lies a plan to bring dis redit upon the interstate commerce act is assended by the last congress. It is od regarded as an attempt to discredit self, although it is believed that ther may be a design to cast odious reflec-tion upon the national administration e fear. While taking pleasure in the tion upon the national administration owth and prosperity of other towns, at the same time that it is sought to upon constantly in view the aim to bring the rate making power conferred by the present law into disrepute with the people of the country. It is insisted that the cairond mag-

rates who originally fought against th deal with the fixing of rates are now turning to other means to render that power distusteful to the people whose entiment and agitation forced congres to pass the Hephurn Delliver hill. I would be natural, it is pointed out, for them to seize an opportunity as soon a possible -free the new law had gonnto effect, the popp almrimpETAOLN nto effect, the popular impression being that the ratemaking act would tend to reduce traffic business all along

Wise Talks By the Office Boy

Pa says a roos by any other name would be just as expensive back east this time of year. I sometimes think he pines for the piney woods in old Penobscot, Frappe County, Maine, where he was raised—but that's one thing yours truly never yearns for. The good mauntains and the good old ocean and nice old Oregon atmosphere are good
 enough for m . But it's all in how you were raised. Pa likes class chowder and corn on the cob, and harvest apples and a lot of things that a kid who was born this side of the snow sheds hasn't had much chance to get acquainted with. Those who have lived on both sides of this great country, and lived this great country and lived long enough to know what's what can get all those things just as nice one place as another, if you know where to buy. We've got clam chowder from Boston that is just as nice as any you ever ate on the sand. and lots of other things that have that "Down East" taste.
