Ann A. Arlberg, from Pendleton, Ore., purchased the George H. Lynch property, consisting of 800 acres, well improved, for \$15,000 through the real estate firm of Daily & McConah.

J. C. Torrance, a prominent citizen of Boise, Idaho, has been in Medford lately, visiting H. Humphrey and family, former neighbors. He is on his way home from a trip to Southern California.

Those who have been employed at the Blue Lodge have all left, with the exception of about three men. It is said that the mine will be shut down for some time, but not indefinitely. Some say that the suspension was caused by the financial stringency in New York, where the owners of the property reside.

A Lake county man has invented a sawblush scrubber, which is made on the plan of a V-shaped road scraper, and has a saucer-shaped device at each corner to keep it from being a good side-winder. He says although it is pretty hard on horseflesh and takes 12 and 14 men to pull the machine, it does good and rapid work. It is 13 1/2 feet wide and is pulled nearly as fast as a plow.

C. F. Willis, the well-known traveling man from Portland, who has traveled all over the Pacific northwest for the best part of the past 15 years, has picked Medford and the Rogue River valley as the most promising fruit districts and has just purchased a team and tract situated directly across the road from the Stewart residence, paying \$3000 cash for this small piece of Rogue River fruit land. It has no improvements, but is planted with Spitzemberg and Newtown apples and is considered a good buy. The deal was made by Daily & McConah.

SANITY OF THAW NOT TO BE ISSUE IN NEW TRIAL

NEW YORK, May 13.—Papers filed today by counsel for Harry K. Thaw show that the fight for his freedom

from the state hospital for the criminal insane in Matteawan, where he is incarcerated for the murder of Stanford White in this city, is to be based largely upon the grounds of the alleged illegality of his commitment, and the groundwork is evidently being laid for appeals which will carry the case to the supreme court of the United States if the lower courts refuse to discharge Thaw on habeas corpus proceedings. The question of his sanity is to be subordinated to the outset of the proceedings in Englishspeaking next Wednesday.

COLD IN THE GRAND RONDE RETARDS FRUIT CROP

LA GRANDE, Ore., May 13.—There is sign of a let-up in the long run of disagreeably cold weather that has chilled the residents of the Grand Ronde valley and retarded the growth and development of the fruit. However, the cold weather has not been of the killing kind, and no fruit is in the least injured, except that its development is retarded. It would require a very severe frost to injure the cherry crop now, and local growers are confident that the extraordinary crop of last year will be duplicated again this year. Unless all signs fail, the Grand Ronde valley will have the most remarkable crop in all classes of fruit that has been grown here.

MICE DESTROY \$250,000 IN ALPALFA AND POTATOES

RENO, Nev., May 13.—A scourge of black mice that have traversed thousands of acres of agricultural lands in the Carson river valley, destroying crops of alfalfa and potatoes, valued by the government biological experts at \$250,000, is being fought by the farmers' arduous success. Hordes of the sand mice have appeared as suddenly in Churchill county as they did in Humboldt, and as warm weather approaches their numbers seem to increase. Stray mice, according to the reports from the plague ridden districts, is the only poison that will exterminate the animals. Hundreds of pounds of this is being used by the federal agents.

FAIRBANKS, BRYAN AND JOHNSON ENJOY DINNER

PITTSBURG, Pa., May 13.—Three presidential possibilities were passengers on the Manhattan limited on the Pennsylvania railroad when the train reached the Union station here from Chicago shortly after 1 o'clock. They were Vice-President C. W. Fairbanks, W. J. Bryan and Governor John A. Johnson of Minnesota. According to the Pullman car employes they did not meet until dinner time, when they met at one table and engaged in the most pleasant social intercourse. After dinner Governor Johnson and Mr. Bryan, according to the same authority, engaged in close and earnest conversation until after 10 o'clock, when they retired.

CLEVELAND HAS 3-CENT FARE, THANKS TO JOHNSON

CLEVELAND, May 13.—Mayor Tom Johnson's fond dream of a 3-cent street car fare has been at last realized.

After a seven-year battle, which he waged against the mighty traction interests at times when the struggle appeared hopeless, his efforts were crowned with victory shortly after midnight this morning, when the final papers necessary to the transfer of the operation of the streetcar lines to the Municipal Traction company, fostered by Johnson, were exchanged.

LIGHTHOUSE SERVICE TO BE GREATLY IMPROVED

WASHINGTON, May 13.—Under suspension of the rules the house yesterday passed an omnibus bill to authorize additional aids to navigation in the lighthouse establishment. The bill appropriates \$750,000 and provides various light stations, buoys, tenders, etc., in various parts of the country.

The bill authorizes an allowance of one ration a day for each keeper, on the basis of 30 cents per ration, and the committee reporting the bill estimates that this change in the system will mean an additional outlay by the government of \$17,500 annually.

The revision granting to widows or children of lighthouse keepers and their assistants a sum equal to two years' pay in case such keepers or assistants should lose their lives by reason of the perilous service was struck out.

TWO WOMEN WILL MAKE LONG AUTOMOBILE TRIP

NEW YORK, May 13.—In the last three or four years several transcontinental trips have been attempted and some successfully made by automobilists, but it remained for Mrs. E. E. Teape and Mrs. Vera MacKelvie of Sand Point, Idaho, to be the first women motorists to attempt the 4000 miles from the Atlantic to the Pacific. On May 14, starting at Portland, Me., Mrs. Teape and her daughter, Mrs. MacKelvie, driving an eight horsepower two-cylinder Waltham-Orient runabout, will start across the continent to Portland, Or. The trip is to be made alone, unhampered by drivers, chauffeurs or luggage other than the necessary wearing apparel, and is to be made in easy stages by the way of Boston, Albany, Buffalo, Chicago, Des Moines, Omaha, Cheyenne, Salt Lake City, Ogden, Boise, Baker City to Portland.

SUSPENSION OF DIAMOND TRADE CAUSED BY PANIC

WASHINGTON, May 13.—Reporting to the state department from Amsterdam, Consul Henry H. Morgan said that possibly no country of Europe had been relatively affected so disadvantageously by the recent financial crisis in the United States as the Netherlands, largely on account of the total suspension of the diamond trade. Where as the exports of the sparglers in 1906 amounted to \$11,833,352, in 1907 they fell off to only \$7,452,604.

People who are looking for bargains in stones will, however, be disappointed, as prices will be maintained at the old level through influence of the diamond trust.

MILITARY MURDERERS BLEED VICTIM LIKE PIG

PORT TOWNSEND, May 13.—Incriminating evidence found against Holt in the murder of Bandsman Johnson early Saturday morning consists of Holt's artillery badge, taken from the ashes of the furnace into which the victim's body was thrust. A box into which the murderers attempted to put the body and the water pail over which the victim was bled after his head was cut off to prevent blood from spattering over the floor have been found. The guard over Holt has been rebled.

KLAMATH CO. CHARACTER FOUND IN TULE

KLAMATH FALLS, Ore., May 13.—Charles Brennan, a familiar character, was found dead at the J. P. Lee ranch, about 12 miles from town. He had been staying at the ranch alone during the winter, and was addicted to drink. Circumstances indicate that he laid down in the rules near the river, where he died. His body was found by parties who were sowing wild rice so as to make the hunting good this fall.

PRESIDENT DOESN'T WANT DAUGHTER TO STUMP OHIO

BELLEVILLE, O., May 12.—At the urgent request of her father, President Roosevelt, Mrs. Alice Roosevelt Longworth has changed her mind about stumping the eighth Ohio congressional district, where an election will be held this fall.

The president, it is said, was displeased with the publicity given the announcement that his daughter would make political speeches, and this is reported to be the principal reason why he asked her to change her mind.

In August the Congress of Warwick will address a mass meeting of 15,000 negroes in the eighth district, where she will endeavor to elect a socialist to congress. It had been Mrs. Longworth's intention to debate with the countess on the stump. The latter has informed E. G. Wharton, socialist candidate for congress, that she will make 12 speeches for him in the county.

TO INVESTIGATE ARMY APPOINTMENT

WASHINGTON, May 13.—Senator Rayner has introduced a resolution authorizing the president to convene a court of inquiry to consist of five officers of the army to investigate charges and accusations against William P. Stewart of the army, who had been detailed at the abandoned military post at Fort Grant, Ariz.

The resolution will lie on the table until tomorrow, when Rayner will speak upon it. He gave notice that he expected the senate to take action at that time.
