Double Your Money.

Did you ever stop to think how rapidly you can make a fortune by doubling your money?

For instance, say you start with only 1 cent and double it every day for only one month, and you will be surprised to see that you have accumulated several million dollars. Figure it out for yourself and become convinced.

We simply mention this to show you how rapidly money accumulates when doubled over and over again and call your attention to the fact that real estate in Medford is doing that one thing; during the past two years you know of many instances where Medford property has doubled in value over and over again.

As a matter of fact, the present prices of Medford real estate are very low, and it is a better buy now than it ever was. Medford has doubled in population during the past two years, and it has only commenced to grow; the surrounding country is increasing in population and value faster in proportion than is Medford, which is bound to increase the population of Medford and the value of real estate faster than ever before.

The immense acreage planted to orchards as it comes into bearing alone means the doubling of Medford's population again inside of two years, and the doubling and quadrupling of its real estate values within the same period of time.

Coupled with this are the immense timber resources now being opened up for the market and the great mineral resources now being rapidly developed.

The Gold Ray Realty Company of Medford, of which Dr. C. R. Ray is president, owns over 10,000 acres of farming and fruit lands all over the valley, as well as acre property, business property and town lots in the City of Medford, which they are offering at very low prices on long time and on easy terms, and it will pay prospective buyers to investigate same before buying elsewhere.

This company also offers to build houses to suit purchasers and sell same on long-time, easy monthly payments. Call and investigate at their office with the Rogue River Electric Co., 206 West Seventh street, Medford, Or.
