MAKING SHUTTLES FROM DOGWOOD

Two Plants Installed in Oregon Cascades for Utilizing Timber Titherto Considered Valueless Except for Fuel. Stumpage Values Greatly Increased.

The supply of dogwood and persimmon shuttles in the southern states is nearly exhausted. The entire supply of shuttles, hobbins and spindles used in the cotton and woolen mills in all parts of the country is furnished by the dogwood and persimmon growing in the southern states, the seriousness of the situation is apparent. The textile mills of the country represent a capitalization of nearly a billion dollars and hobbins, shuttles and spindles are just as necessary parts of these mills as the throttle is to the locomotive.

Fortunately the shuttle manufacturers have found another source of supply in the dogwood stands in the far northwest part of the country. Two large companies manufacturing spindles, shuttles and hobbins have erected plants in the Cascades in Oregon, whose dogwood forests are the greatest in the world, the tree often attaining a height of 75 feet and a diameter of one to two feet. Up to the present time lumber users in the Pacific northwest have found dogwood valueless except for fuel, and its utilization for the manufacture of shuttles will bring about a considerable increase in stumpage values of this tree.

These companies, at their Oregon plants, will not only manufacture the articles named, but will utilize every part of the tree turning to account the waste wood and producing such by-products as pyroligneous acid, protocatechuic acid, acetate of lime, methylated spirits, solvent naphtha, wood tar, wood pitch and various forms of charcoal. Dogwood is indispensable in the manufacture of shuttles, hobbins and spindles because it is the only wood which takes a high polish and wears perfectly smooth by friction under water.

DEPOSED LEADER LOSES HIS TEMPER

CHICAGO, May 21.—William D. Haywood, deposed leader of the Western Federation of Miners, has again manifested his contempt for courts, judges and wits (used) by them.

"To hell with the courts. To hell with the judges that grant them," he shouted in addressing a gathering of socialists that had assembled to ratify the nomination of Eugene V. Debs as the presidential candidate for the socialist party.

An audience of 3000 listened to his virulent speech. Having scored the machinery of the law, Haywood bitterly criticized President Campers of the American Federation of Labor and John Mitchell, former head of the miners' organization. In fact, he roundly grilled every labor leader who has failed to embrace the cause of socialism. The speaker also denounced President Roosevelt.

After months of dickerings, Stanley Ketchel, the Michigan whirlwind, and Billy Papke, the Spring Valley miner, have been matched to fight 10 rounds for the middleweight championship in San Francisco on June 4. Under the

Wise Talks By the Office Boy

Pa says a rose by any other name would be just as expensive back east this time of year. I sometimes think he pines for the piney woods in old Penobscot, Frappe County, Maine, where he was raised—but that's one thing yours truly never hears for. The good mountains and the good old ocean and nice old Oregon atmosphere are good enough for me. But it's all in how you were raised. Pa likes clam chowder and corn on the cob, and harvest apples and a lot of things that a kid who was born this side of the snow sheds hasn't had much chance to get acquainted with. Those who have lived on both sides of this great country and lived long enough to know what's what can get all those things just as nice one place as another, if you know where to buy. We've got clam chowder from Boston that is just as nice as any you ever ate on the sand, and lots of other things that have that "Down East" taste.
