MEDFORD PAMPHLET ATTRACTS ATTENTION

That General Passenger Agent A. L. Craig of the Great Northern railroad is interested in Medford is shown by the following letter received from St. Paul by F. H. Hopkins:

My Dear Mr. Hopkins: Thank you very much for the copy of "Medford, Oregon and the Rogue River Valley" booklet. It certainly is a great credit to your section, and I wish we had several thousand of them to distribute through our outside agencies.

To me the booklet is especially interesting in view of my personal acquaintance with the country and interest therein. Possibly you do not know that after that streetcar interview during the fair time I made it my business to visit the Rogue River valley and go over it pretty thoroughly, and found that there really were some good things outside the Hood River valley.

May I ask that you send me another copy of the booklet under personal cover. Also send a copy to Mrs. W. B. Peters, care agent B. & O. railroad, McKeesport, Pa.

With kindest regards and best wishes, I am, sincerely yours, A. L. CRAIG.

BUTTE FALLS ITEMS.

Charley Edmonson and Dick Stegge went down to Medford Friday. The former will soon open a butcher shop at the Falls.

The electric road survey comes down near Brownshoro and from there continues to Eagle Point.

The bad weather of the past week has "jurred" the nerves of some of our citizens, as two of them came near a collision, but better counsels prevailed. It will be found the better practice to strictly attend to one's own business and not obnoxiously "butt into" other's matters.

J. P. Hughes, merchant of Butte Falls, drove to Medford Friday to secure supplies for store and new building.

W. H. Moore of Medford drove a party of three to the Falls on a business trip.

C. W. Skein, land attorney of the Southern Pacific railroad, was examining the lands of the railroad hereabouts during the past week, and while here visited the unsurveyed section and said that this tract would be surveyed July 1. He does not take a very hopeful view of conditions and evidently is out to look over the land and report to the railroad company so it may be prepared to scrip the land. The homesteaders should look after their rights, for the railroad people have their eyes on the unsurveyed. Take no chances. Write to your congressman and senator.

Mr. Wilson of the unsurveyed lands has gone on a visit to Medford.

Frank Niel has gone to Medford on business. He reports that the roads are getting some better.

Emil Peck, late of Little Butte, visited Butte Falls lately with a view of opening a business store. He was very favorably impressed with the town and particularly with the splendid water power of the owners of the townsite.

The Iowa lumber camp has about ten acres of timber cut and are about to saw the logs into lumber and store the same upon the camp grounds awaiting transportation out.

Butte Falls Lumber company is turning out some fine finishing lumber and have the shingle mill in operation.

The Medford Commercial club should push the railroad interests to the Falls if Medford expects to reach a population of 25,000. The railroad will do it.

JACKSONVILLE ITEMS.

Dr. B. F. Adkins was over from Medford Monday afternoon.

Silas J. Day and Mrs. Mamie Dox have returned from a week's visit at Salem.

Henry White and W. C. Sherman were down from Ashland Monday attending circuit court.

Miss Fay Sears spent Saturday and Sunday with friends living in Medford. Attorneys W. E. Phipps and M. Pardia were in town Monday on business.

C. C. Taylor, D. L. Day, A. Z. Sears and J. J. Seale were in town Monday serving as jurymen.

Mrs. D. B. Grant and daughter were visiting with D. B. Grant on Saturday.

Sewer Gas in Homes.

The American Analyst gives the following test for the detection in an apartment of sewer gas: Saturate unglazed paper with a solution of one troy ounce of pure acetate of lead in eight fluid ounces of rainwater. Let it partially dry. Then expose in the room suspected of containing sewer gas. The presence of gas in any considerable quantity soon blackens the test paper.

Different Kind of Fire.

A young fellow was noticed the other day gazing lovingly at a letter as he stood on the street corner. After fondling it for a moment, he went up to a fire alarm box and tried to get it inside. A passerby who had been watching him, however, intervened. "I know your heart's on fire," he observed, "but I think you had better use the box at the next corner."—San Francisco Argonaut.

Willing to Be Sociable.

A little three-year-old who is so precocious was lying in her bed last night to sleep in the dark, with her father sitting beside her waiting for her to get to sleep, when this one slight conversation took place: "Hello, dada." No answer. "How do do, dada?" Same answer. "After a few moments' silence, "Glad to see you, dada."—New York Times.

Unused Portions of the Farm.

Nearly every farm has at least a few acres which are of little value for growing agricultural crops. These lands should be set aside for a wood lot and devoted to the production of fuel, fence posts and timber for farm uses.

The species best suited for plantations of these various uses are well planting directions and advice as to protective measures are given in about 100 of the forest service.
