BILLY NOLAN ARRANGING FOR FIGHTS IN FRISCO

CHICAGO, May 29.—Billy Nolan has arrived today on private business, but is busy investigating the possibilities of arranging matters for the combined prize fight clubs of San Francisco, and it is probable that he will close articles for at least two championship bouts.

He says he has charted a course for the San Francisco clubs to arrange fights between some good men. He expects to have good success and if suitable terms can be reached it is estimated that he will close a deal for a battle between McFarland and Gans. It is also stated on good authority that he probably will arrange for a fight between Alie Attell and Jerry Driscoll. Nolan brought with him a silver belt, studded with diamonds, which he says will go to the winner of one of the championship bouts.

Nolan's arrival here caused a great stir among the fighters and managers, and there is much speculation as to what he will be able to land for the results of his visit.

LOOKS LIKE GOVERNOR FOR SENATE

Whirlwind Campaign of the State Closes at Portland Tonight--St. Johns Voting on Drying Up Portland

PORTLAND, Or., May 29.—Direct election of United States senators and prohibition are the issues of the state campaign which ends tonight, the election being Monday, June 1.

Both contests have been bitterly contested. The senatorial contest has been a three-cornered fight. Governor George E. Chamberlain, the democratic executive of a republican state, has made a whirlwind campaign on State-ment No. 1, the clause which pledges legislators to elect the senator endorsed by the voters, and will probably carry the state.

H. M. Calk, his republican opponent, has also made his campaign on State-ment No. 1, but weakened his position somewhat by his failure to enter the different fights waging for the election of state legislators. Chamberlain's supporters were quick to take advantage of this, and raise the cry that Calk was hand in hand with the silent faction which hopes to elect enough anti-State-ment No. 1 candidates to the legislature to overthrow the popular vote of the people, unless a candidate suitable to it is chosen.

Anti-saloons elections are being conducted in all but two counties in the state. Some of these fights are to close entire counties, others are precinct squabbles. One of the most remarkable of these fights is at St. Johns, where prohibitionists under the local option law, has been able to include one Portland residence precinct in the voting district. Under this arrangement voters of one city will decide whether the residents of another neighboring city shall have saloons.

ELECTORS MAY VOTE NO MATTER WHERE REGISTERED

The following communication received from Attorney-General Crawford is self explanatory and will prove a source of information to voters as well as election boards. An elector may vote for all officers, provided he is an actual resident of the precinct in which he offers to vote, notwithstanding the fact that he may have registered in some other precinct.

Mr. Crawford's letter is as follows: "In reply to your favor of the 27th ultimo, I would call your attention to section 17 of article II of the state constitution, which requires that every qualified elector shall vote in the precinct in which he lives, for county officers, and in any county in the state for state officers, etc. Therefore, whether a voter is registered or not, he must vote in the precinct in which he lives for county officers. Of course, if he lives or is registered in one precinct, or both, he may vote in another for state and district officers only by the use of blank A. The same as though he were not registered, but in either case he cannot vote for county officers. He must vote in the precinct in which he lives, to vote for them. If he changes his residence after registering, he may change his registration, if the books are still open, in the manner provided in section 2827, by the use of blank B. If he does not do so, he can vote by use of blank A. The same as if he were not registered at all, as he is not registered in that precinct, but in that case he can vote for all officers, as he is voting in the precinct in which he lives.

"Yours very truly,
"A. M. CRAWFORD,
"Attorney-General."

JACKIES MADE HAPPY BY FINDING OF LOST CASH

SAN FRANCISCO, May 29.—The jockies of the battleship Maine are overjoyed today, after two hours of suspense when they believed some one had stolen a watch containing \$5000 with which they were to be paid and the paymaster of the Maine who lost the watch, is happier still.

The money was being taken out to the ship in a bunch when it suddenly disappeared. The alarm was given and marines were rushed ashore with orders to capture any one seen with a grip that looked like the missing money bag. Everyone coming along the shore was searched before the paymaster happened to tell Assistant Chief Warden Dill what the trouble was. "Bill Part" he was to be known, gained heavily, and picked up from behind his back a satchel which he had supposed was empty, and which he had supposed was filled with the missing money bag.

Prisoner Refused Permission to Switch Prisons and Must Go Back to Matteawan as Dangerous

ALBANY, N. Y., May 29.—In spite of protests, Harry K. Thaw, slayer of Stanford White, must go back to the asylum for the criminal insane at Matteawan, according to the statement made by Dr. Albert W. Ferris, chairman of the state lunacy commission, here today.

"I have observed Thaw carefully and so have the doctors at the Matteawan, and my opinion is not guesswork.

"I am positive that his case is incurable, and it would be a great risk for him to be at large or to have partial freedom." EX-RECEIVER BOOTH OF LAND OFFICE TO BE TRIED

PORTLAND, Or., May 29.—Instead of beginning the trial of J. H. Booth, ex-receiver of the Roseburg land office, next Tuesday, it has been decided to postpone the trial until Monday, June 22.

The trial of J. H. Booth will be the first of the series of conspiracy cases which have been hanging fire for several years. It is one chapter in the story of land grabbing in southern Oregon. The particular case in which J. H. Booth will be tried on June 22 will be one in which Frederick A. Krebs, financial agent of C. A. Smith, the Minneapolis lumber millionaire, who looted the timber lands of Oregon on several occasions, figures.

After severing his connection with the Booth-Krebs lumber company, with which he was serving as secretary, J. H. Booth was appointed receiver of the land office in Roseburg district. It is alleged that Booth gave advance information as to available timber lands in the timber speculators and in return for this information, and as a slight token of his esteem and appreciation, Krebs wrote Booth a check for \$500. All of Krebs' transactions of this character were paid by check and Krebs retained the canceled checks he received from the bank, thus each check served as a receipt for money paid out for shady transactions.

According to the officials, the Booth-Krebs company had designs on some timber when Krebs learned of the fact and decided to get into the game. This, it is alleged, resulted in an arrangement for dividing the territory. Later A. B. Hammond, a wealthy timber operator, concluded that he should participate in the acquisition of valuable timber covered by the Booth-Krebs company, and Krebs, so a new agreement was made whereby Hammond was declared in. The officials says the land was secured and through the assistance of Booth in giving out the tip in advance.
