PRENZIED FINANCIERING.

In the board of equalization, consist ing of County Judge Dunn, County Clerk Coleman and County Assessor Applegate, Jackson county possesses a trio of financiers who put the frenzied financiers of Wall street to same. They have invented a process whereby simple fiat, they make a dollar into \$1.66 2-3.

Probably nowhere in the world has wealth been discovered and put into free silver agitation that Bryan proscheme whereby we are saved even the up about an hour, trouble of coining, and by simple declaration find our money grown over night

To treat a man cruelly arouse well as that of the other two members his savage instincts and brings of the board of equalization? And every ugly spot in his nature, didn't they all solemnly swear to quently the treatment that hekson's "faithfully and honestly examine, correct and equalize at full cash value all property," and haven't we Judge Dunn's own word for it that he obeyed the law and his oath? Don't he himself assert in his numerous open letters, ed to his care, not worthy of being in which he is prolific in calling other the of re-election of power, where it people liars, that he is a Simon pure placed in or him or his subordinates truth-teller, one of the few in Oregon? is possifheir petty spite and chagrin Consequently, when he says that our to walpless prisoners. money has grown like the mushroom ask to be shown and can't find of with a microscope the inflated era that Judge Dunn and the eg sny is there?

Everyone n see at a glance how much money there is in keeping store in Jackson county.

Two of this coterie of high finan ciers are asking re-election upon their records. They have repeatedly approved the 6623 per cent increase in valuations from the platform, and have said that they will do the same thing over again and that their action was right and legal. In other words, it is perfectly just and right to make a dol far into a dollar and sixty-six and twothirds cents, so as to tax a man for two-thirds more than he possesses. In case of their re-election the property

We are a simple, unsophisticated people, we residents of southern Oregon, but many of us are from Missouri and have to be shown. Such scintillating figureial genius as exhibited by the board of equalization in the increasing of our wealth dazzles us. We don't want to be classed by Roosevelt as among the "malefactors of great wealth," "those whose faces love grown hard, while their hodies grew soft," and that will be our class if we permit Judge Donn to keep on practicing his frenzied finance, magically increasing our wealth by the stroke of

MAN'S INHUMANITY TO MAN.

"Man's inhumanity to man make countless thousands mourn."

Since the days of inquisition, when in the same of religion finalish tortures. were practiced upon the helptess prisoners, humanity has constantly grown better. As civilization advanced in no way was its progress shown clearer than Three miles south of Medford and 215 in the more humane treatment given miles west of Phoenix, is now cut up in the more humane treatment given

There must be a good deal of the savage in the man who delights in torture of any kind, whether of man or heast. The aborigines took a devilieb pleasure in maltreating victims. The brute of today who has a thin veneer of civiligntion spilled upon him to hide from the unobserving his real nature, shows to attend the rose carnival. himself in his treatment of inferiors or unfortunates.

As punishment for his attempted escape, he was strung up by the wrists. handcuffs being placed upon them, the chain being passed through the steel lattice work of the cell above the pris oner's head. RAILROAD ASSESSMENT.

"It is said that the board of equalization did not raise the railroad as sessment on its lands along with the assessment of the other property of the county. This is as near the truth as the other falsehoods which have been circulated. Every piece of prop erty in Jackson county was raised the same proportion as every other piece. '- Medford Mail.

For the benefit of the organ of the ourthouse ring, which is trying to beeloud the isome, it can be stated that no one ever charged that the railroad escaped "equalization." What did hap pen, however, was the material reduction in callroad assessment, by the board of equalization before the hor cental raise was slapped on.

In 1906 the courthouse records show that the Southern Pacific company paid taxes on an assessed valuation of \$3, 341,451. In 1907 the board of equalization reduced this gross valuation to owners may look to see their money \$3,181,097, a reduction of \$159,455. ARGUMENTS IN FAVOR OF INCREASING SUPREME JUDGES

Among the many measures to be vol ed upon at the coming election is the proposed constitutional amendment in easing the number of judges of the nirreme court.

This proposed amendment has the fol-owing advantages:

First-It simply substitutes regular diges for the present commissioners. Second—It adds no additional ex-ense to the conduct of the court, there eing relatively the same number of the same relative salaries

Third-It will expedite the hearings f appealed cases.

Fourth—As to all rearrangements of

the inferior courts comprehended by this amendment, the matter is left to the legislature, as the interests of the different localities may require.
