

PORTLAND EXCURSION TO GOOS BAY REGION

Lumbermen Preparing to Leave for Hoop Concometion—Special Train of Portlanders to Visit Eugene—Daily Rose Show Given in Metropolis.

PORTLAND, Or., June 15.—While cyclones are visiting the south, east and middle west and the rising waters are destroying millions of dollars' worth of property, farm and city, Oregon is enjoying beautiful weather, delicious fruit and looking forward with the confidence inspired by assured crops this fall.

Portland lumbermen will not be to night at the Commercial club to arrange for a big excursion to Coos Bay. Concometions will be held at Marshfield June 22 and Bandon on the 24th.

Portland Guests of Eugene. On June 24 Portland business men will be the guests of Eugene. A special train will leave for the university town at 7 in the morning and the party will participate in the opening of the new depot there, will attend the commencement exercises at the university and be entertained at a reception tendered by the Eugene Commercial club.

The Oregon Humane society has installed nine ornamental drinking fountains at various points throughout the city. In addition to the regular drinking cups, places are provided for dogs and horses. Eight of these fountains were presented by citizens of Portland, while the ninth is the gift of the National Humane society of New York, who are presenting similar fountains to different cities in the United States.

Daily Rose Show Given. The housewarming of the Portland Commercial club in its new eight-story steel home, which was held last Friday night, brought together a large and enthusiastic body of prominent citizens, and it was probably the happiest event that has occurred in this city since the Lewis & Clark exposition.

The daily rose show in the lobby of the chamber of commerce draws thousands of visitors, while at the Commercial club huge quantities of perfect blooms are furnished each day by different members of the club for the decoration of the rooms. Oregon City has occupied the center of the stage during the last week with an especially successful rose show and carnival.

Advertising Unatilla. Secretary C. H. Marsh of the Pendleton Commercial association is enthusiastic over the future of its city and Unatilla county, and advises that his soliciting committee will not cease their efforts until they have secured \$8000 to give publicity to the resources and advantages of the county.

Few lectures have had as representative audiences, few lecturers have been accorded the rapt attention as greeted E. H. Thompson, city engineer of Seattle for 20 years, when he discussed "Good Roads and How to Make Them" at the Empire theater last Thursday night. He proved that such improvements pay both from the standpoint of sanitation and finance.

LAKEVIEW SALOON MEN RESOLVE ON REFORMS

Last week the saloon men of Lakeview held a meeting, at which they mutually agreed to close their places of business at 1 o'clock on Saturday night and keep them closed until the following Monday morning. They also agreed to do away with wide-open gambling.

This new state of affairs was introduced last Saturday night, and Sunday the saloons remained closed all day. It was probably the first time this has occurred in the history of the town. At the recent election the county went "wet" by but 85 votes, and this no doubt caused the saloon men to take the action they have, which will be for the betterment of the community.

The barbers, who have been in the habit of opening a half day on Sundays, have also agreed to keep their places of business closed the entire day henceforth. This will go into effect next Sunday.

UNIVERSITY STUDENTS SEND BILL HAYWARD EAST

UNIVERSITY OF OREGON, Eugene, June 15.—The Associated Students of the University of Oregon will send "Bill" Hayward, Oregon's famous trainer, east this summer. Hayward will take six weeks in the Yale summer school, perfecting himself in the most approved methods in training and physical culture, and studying the best forms of gymnasium apparatus and equipment and will also inspect a large number of the most prominent universities and other gymnasiums of the eastern states.

Hayward will be away from Oregon for a couple of months or more, and will have charge of the training of Dan Kelly and probably Forrest Smithson for the Olympic games. He will accompany the American team to London.

BUICK REMOVED FOR INDICTING BORAH

WASHINGTON, June 15.—The summary removal of Norman M. Buick from the office of district attorney for Idaho was due largely to the fact that Mr. Buick, in an endeavor to gratify a personal and political grudge against Senator Borah, virtually compelled the grand jury to return an indictment against the senator, which indictment was later repudiated when Mr. Borah went to trial. When the president realized that Mr. Buick had grossly abused his official power he determined that such a man should not be allowed to continue longer in office.

Coal for Sale. We are now prepared to furnish hand-picked coal at the mine, five miles east of town, in any amount desired.

HARRIMAN TO CONSTRUCT IMMENSE POWER PLANT

That extensive work is in prospect in railroad construction for the Klamath section in addition to that already well under way is the general opinion owing to the recent visit of general officers of the Southern Pacific. F. E. Calvin, vice-president and general manager of the Southern Pacific; William Hood, chief engineer, and several other of the high officials, together with construction Engineer Hovey, who has charge of the California Northeastern, spent a portion of the past week in inspection of the work done and under way. Three days were devoted to looking over the route of the railroad, inspecting the work already done, and a visit was made to the site of the big electric power plant on the Klamath river near Spencer. This is the electric power plant which it is intended shall generate power for the operation of electric locomotives on the Southern Pacific mountain divisions, and probably for the greater portion of the system in California and Oregon. The plan involves the building of a canal for about two miles, sufficient to carry the entire flow of the Klamath river, where the stream flows at present between rugged walls of what is virtually a box canyon and with a rapid fall in elevation, and the dropping of the volume of water a distance of 250 feet, thereby generating a 600,000 horse-power of electric current.

WAVE WAITED FOUR YEARS TO HAVE WATER TURNED ON

Members of the Water Users' association owning lands under the Upper project held a meeting at Bonanza last Monday, and approximately 30,000 acres of land were represented.

A telegram was ordered sent to the director of the reclamation service requesting that the lowest bid on the Clear Lake dam be reconsidered and accepted and that work be begun immediately. It was also decided that a committee be appointed to draft a letter embodying the views of the land owners on the Upper project with instructions that copies of the letter be sent to all of the officials interested in reclamation matters, and that another committee be appointed to investigate and recommend means for securing the cancellation of the contracts for government irrigation in the event that Director F. H. Newell refuses to reconsider and accept the lowest bid on the dam.

The main complaint of the landowners in the Upper project is that they have already waited four years for the government to begin work on the project in that section, and up to this time nothing has been done and apparently there is no indication that anything will be done for some time.

GETTING READY FOR SUMMER AT CRATER LAKE

Crater Lake and other Klamath resorts are becoming quite well known, and as a result it is expected that a large number of tourists will visit the national park this season.

Will G. Steel, who has all the franchises in the park, is now devoting his time devising plans for the improvements to be made this year. The season at the lake will not open until July. The snow is still quite deep and it will be impossible to get to the lake with team and wagon until about the middle of next month. Mr. Steel is of the opinion that he will have a busy season and he will do his best to get conditions so shaped up that he can care for all visitors.

It is especially certain that a number of eastern capitalists will visit the lake this summer, and from all parts of the Pacific coast inquiries are being received asking about the time the season opens. Many people visited the park last year, but at this time the indications are that more tourists will come this year than during any preceding year. The lake has received such extensive advertising that it is becoming generally known that the Klamath country is the place of resorts. The fact that E. H. Harriman maintains a resort in this section has resulted in valuable publicity, and will have a tendency to bring many wealthy tourists.—Klamath Falls Herald.

Notice is hereby given that there are funds in the city treasury for the redemption of all outstanding warrants issued against the light and water fund, protested prior to December 31st, 1907. Interest on the same to cease after the above date.

L. L. JACOBS, City Treasurer.

Harry Culbertson, general contractor and builder, cement work a specialty. Medford, Or.

Dog Tickets of Wire. Something which is of considerable interest to the public generally and which is perhaps not generally known is the system of prepaid orders now in effect between stations of the Southern Pacific Company and all points in the United States. By means of this system tickets may be purchased at Medford from any place in the United States and mailed or telegraphed direct to the party wishing to come here. Sleeper accommodations and small amounts of cash in connection with these tickets may also be furnished at the same time.

Something New. In Rubber Tires that it will pay you to investigate. COMPLETE STOCK. prompt work, satisfaction guaranteed.

Mitchell & Roek GENERAL WAGONERS. East 7th Street, rear of Merriman's Blacksmith Shop. Medford, Or.

Summer Attractions

In light weight suitings are many and varied, but none take the place of our fine light serges and tweeds; that are cool and neat, and both hang well and keep their shape when made into well fitting garments. We will make you a summer suit for outing, business or dress that will be elegant in style and finish, and be artistic in fit and make. Look at our new styles in cut and workmanship!
