Cold Water for Headaches. Philadelphia Record.

"The best cure I know of for a head-ache is to wash your face," said a bright tooking man. "Yes, I believe to suddenly cleanse your face with cold water will open up the pores and prob-ably start the blood in circulation, and I know it will relieve you of a headache in a jiffy. I have tried it myself a great many times and have always been successful. There is something in the nature of a stimulant in the coldwater treatment that braces me right up. My head when it aches gets hot and throbs, and the water makes it cool and fresh. I have a theory, too that people don't wash their faces near that people don't wash these days of ly enough, anyhow, in these days of dusty asphalt streets and soft coal dusty asphalt streets and soft coal smokes. People will be much better off with their pores kept open and clear of all dust and dirt, and there is nothing so good for the skin as soap and water."
