

AMEND COMPLAINT FOR WET MEDFORD

Change in Case for Prosecution in Injunction Proceedings—Colvig Argues From Prohibition Standpoint Decision Latter Part of the Week.

Attorneys Robert G. Smith and E. E. Kelly yesterday filed an amended complaint in the injunction proceedings...

William M. Colvig, special attorney for the prohibitionists, in the injunction proceedings brought to keep Medford wet...

This is a suit for an injunction to restrain the county court of Jackson county, Oregon, from making the order required of it by section 10 of the local option law.

That case and the one at bar are not on "all fours" as to the facts. In the Marsden case an injunction was sought to restrain the county court of Coos county from making such order...

Case Not On "All Fours."

From all reports the float was a grand success. Everyone who saw it says that it was the finest in the parade.

Postal cards of this float are now being sold in Portland and other places, and in this way it will certainly be sent broadcast over the land.

Prohibition Election.

Will this court say that an account of the Medford city charter, an election on the question of prohibition can be called for the entire district of the county, that Medford must be excepted on account of its "later law"?

The committee asks to be discharged. J. P. HUTCHASON, Chairman.

Tribune Is Thanked.

A warrant in favor of J. P. Hutchason was ordered drawn to finish the matter up with Ashland, Gold Hill, Central Point, Jacksonville and Eagle Point.

Option Not Repealed.

But now comes the plaintiff and says that this decision by the people of the whole county does not apply to Medford, because the city charter is a later law on the subject.

The power of the council to license the sale of liquor is simply suspended by the election of the people; and if at some future election the same question is again submitted and prohibition is again legally issue such licenses under paragraph 19, section 25, of the charter.

Injunction Extraordinary.

It is the local option law repealed by the provisions of the charter insofar as it affects the city of Medford? If the two statutes can be reconciled the court might not to imply a repeal of the general law which seemingly conflicts with the later special act.

Band Uniform Report.

The report of the band uniforms committee was read, showing that a total of 618.26 had been made on the dance and ball game, which was more than enough to pay for the uniforms.

AMUSEMENTS.

An entire change of bill at the Grand tonight. The program includes the following: "For a Flower," "Good Luck for the Coming Year," "The Indian's Revenge," "The Maniac Juggler," and "The Enchanted Glands."

There are elevated orchestra seats, which means an uninterfered view of the pictures. A large ventilating shaft and electric fans insure cool and fresh air.

INSANE FROM JEALOUSY, HUSBAND SHOOT'S WIFE

LOS ANGELES, Cal., June 18.—After brooding two weeks as the result of a quarrel with his wife, which caused her to leave home, J. W. Forsberg, a machinist, went to the woman's room at 6 o'clock this morning, shot her three times and then put the gun in his own mouth and blew his brains out.

Ice Cream an Experience Social.

This evening, beginning at 7 o'clock, at the home of Mrs. Benjamin Garrott, near the Christian church, the Ladies' Aid society of the Christian church will serve ice cream and cake.

To Bring Float to Medford.

Table with 2 columns: Item, Amount. Includes Medford Furniture Co, T. C. Daniels, Medford Pharmacy, Baker-Hutchason Co, Total, Total paid out, Total collected.

Leaving balance due J. F. Hutchason \$35.50. The committee leaves this bill of \$35.50 in the hands of the club and asks them to dispose of same as seemeth right.

Report on Float.

Medford, Or., June 17, 1908.—As chairman of the Portland rose carnival float committee, I respectfully submit the following report:

The committee met in the parlors of the Hotel Nash and discussed designs with a representative from the rose carnival. A design was finally decided upon and our ideas sent to Mr. Harper.

From all reports the float was a grand success. Everyone who saw it says that it was the finest in the parade.

Postal Cards Printed.

Postal cards of this float are now being sold in Portland and other places, and in this way it will certainly be sent broadcast over the land.

Tribune Is Thanked.

A warrant in favor of J. P. Hutchason was ordered drawn to finish the matter up with Ashland, Gold Hill, Central Point, Jacksonville and Eagle Point.

GEOLOGICAL SURVEY ANA RIVER DISTRICT

Great Volume of Water Flows From Springs in Semi-Arid Region—Water Is Warm, Indicating That It Rises From a Depth of More Than 1000 Feet

At the head of Summer Lake valley in northern Lake county, is at this time attracting considerable attention as an effort is being made to raise the water so as to utilize it in the irrigation of the large sagebrush plain in the north end of this valley.

Mr. and Mrs. Hunt Lewis, who have been at the Bear Creek orchard, are in Portland again.

William Bybee, the well known pioneer, was in Medford Wednesday. He has sold his Rogue River farm for \$54,000.

R. F. Malkey, district attorney-elect, was in Medford Wednesday. His family is visiting in Ashland.

John C. Barnum, manager of the R. R. V company, is making Portland a short visit.

National Republican Platform.

thirteenth, fourteenth and fifteenth amendments to the Constitution of the United States, designed for the protection and advancement of the negro, and condemn all devices that have for their real aim his disfranchisement for reasons of color alone.

We indorse the movement inaugurated by the administration for the conservation of our natural resources; approve the measures to prevent waste of timber; commend the work now going on for the reclamation of arid lands, and reaffirm the republican policy for the distribution of available land and public domain to landless settlers.

Although at peace with the world and secure in the consciousness that the American people do not desire and will not provoke war with any other country, nevertheless, we declare our unalterable devotion to a policy that will keep the republic in a position to defend her traditions, her doctrines at all times, and assure her an appropriate part in the promoting of permanent tranquility among nations.

Ship Subsidy Bill Is Favored. Under the administration of the republican party foreign commerce with the United States has experienced a remarkable growth, until it has a present annual valuation of approximately \$3,000,000,000.

The geologists of the United States geological survey, who have been studying the region, rejected at once the idea that the areas east and south of the springs could furnish the waters, partially because of the aridity in these areas and partly because their investigations had revealed structural conditions that would tend to prevent the circulation of the water westward to the point at which it issues.
