HOOD RIVER, Ore., June 18,--Dr. Samuel Adams Robinson, 80 years old, wealthy, optimistic and looking for the finest piece of soil on which to plant the finest trees in order to raise the finest apples in the world, is at Hood River. Dr. Robinson is lately of Coville, Va., but is well known in Oregon. Recently he disposed of an estate in Virginia on which were many acres of the celebrated Albemarle Pippin. From time immemorial the Albemarle Pippin has been the favorite apple of English royalty and tickled their palates long before Oregon was geographically located. In the orchard disposed of by the doctor were trees over 30 years old, three feet thick and still bearing. In fact, one of them bore the tiny amount of 29 barrels last year. The doctor was not happy. Having been at Hood River several years ago he discovered there was a place that put his beloved pippin far in the shade, and he is looking for a change of base.

But he wants the best and is seeking it. Although a firm believer in the excellence of the Hood River article, he believes there may be some other spot in Oregon more favored and he wants to find it. When he does he will plant an orchard under the direction of a trained, practical and theoretical orchardist, that has never had its like. Trees of pedigreed stock will be selected and methods of cultivation, pruning and spraying adopted that are the result of the combined experience of the best orchardists in the world. Expense is a secondary consideration with this ardent old orchardist, whose ambition is to raise an apple so fine that when it is placed on exhibition it will win all the prizes in a walk and there will be nothing else to it.

From here Dr. Robinson will go to other fruit growing sections in the northwest in his quest of the promised land. He does not say he will not return, but admits that he may not. In the twilight of life he still believes he will live to grow apples whose glory shall outshine all others and open a new way to the orchardist.

COMMENT UPON TAFT BY BRITISH

Case of Love Me Love My Dog Says Pall Mall Gazette--Gets State Craft From Brilliant Master

LONDON, June 19.--The afternoon papers comment on the nomination of W. H. Taft by the republicans. The Standard declares that Taft comes by his statecraft from his brilliant master, and adds that he possesses a mind of his own and has ability. While praising the republican nominee, the Globe does not deem that his election is by any means certain. It says that Bryan is certain to give his opponent a hard fight. A few of the papers are disposed to sneer at Taft as subservient to Roosevelt. The Pall Mall Gazette says that the nomination of Taft by the republican party is an example of "Love me, love my dog."
