

STATES GREAT BERRY CROP

Year Registers Heaviest Yield on Record of Cherries and Small Fruit—Hay Crop Immense.

PORTLAND, Or., June 22.—The Oregon Banker's association will hold their next convention in Salem on Friday and Saturday the 26th and 27th. The program will be one of the most interesting ever presented and the business men of Salem are planning an entertainment in honor of the association.

On June 24 the business men of Portland will make an excursion to Eugene for the double purpose of participating in the commencement exercises at the university and witnessing the opening of the splendid new depot. Then at a little later date the Portland Ad club will go to Albany as the guests of the Albany Commercial club, the manager of which organization was a former president of the Ad Men's club.

Fourteen Hundred Members.

Thirteen hundred and fifty-eight is the actual membership of the Portland Commercial club and there are 22 applicants to be considered at the regular meeting of the board of governors tomorrow. Fourteen hundred is a figure of early realization. Inquiries have come in from all over the state relative to the membership of this organization, the interest probably being awakened by the recent housewarming held in the new eight-story steel home of the club.

Nineteen hundred and eight will register the greatest crop of berries and cherries that Oregon has ever produced. The quality is magnificent, quantity almost unlimited, and while quantity is enjoying this fruit the maturing hay crop insures a big increase in the dairy output, which has been greatly benefited by as good feeding pastures as were ever known in this section. Residents of the northwest should take pains to see that their western country friends are made familiar with the unequalled conditions which make dairying so profitable here.

The sixth national convocation of the Phi Delta Kappa will meet in Portland from the 6th to the 11th of July, and the local chapter is arranging an elaborate series of festivities.

ESTABLISHING CAMPS AT CRATER LAKE FOR TOURISTS

Arrangements for the summer at Crater lake are being made and Will G. Steel, who has the matter in charge, has decided upon the establishment of the main camp at the Ararat station, where water is plentiful and where the camp can be established before the snow melts on the rim of the lake. Mrs. H. E. Moyer of San Francisco, will be in charge of this camp. She will arrive in the city tonight and as soon as the supplies can be taken to the camp she will take charge. At the main camp the plans call for the erection of a large substantial cabin and camp equipment so that all the comforts can be enjoyed. Meals will be served and small parties will be able to secure lodging.

Another camp will be established on the rim of the lake about July 15, the time when the season opens. It will be so arranged that parties can lunch on the rim and sleep in a cabin that is to be erected during the season. The main camp has been located at the Ararat station in order to solve the water question. There is no available water on the rim after the snow goes off, and it will be impossible to put in a water system and a pumping plant.

Mr. Steel will spend part of the summer at the lake, but he has so planned things that he can leave at any time that he finds it necessary. He thinks the season will see many prominent people at the lake, and that at the next session of congress it will be an easy matter to secure an appropriation that will enable the superintendent to make some of the necessary improvements in the park. Klamath Falls Herald.

JACKSONVILLE ITEMS.

Walter Applegate came down from Ashland Friday evening to visit old friends. Mr. Applegate was formerly deputy county recorder here and is now employed in one of the large wholesale houses in Portland.

Mrs. John Devlin of Ruch and her daughter, Mrs. Agnes Hines of Forest Grove, were in town Friday afternoon attending the commencement exercises of St. Mary's academy.

Mrs. Frank Dungey (nee Broad) arrived from Coos county recently on a visit to her old home.

Miss Mollie Towne and Grace Henry spent Sunday afternoon in Medford.

Harry Miller, who has been visiting relatives here and in Portland, has returned to his home in San Jose, Cal.

MARRIED.

BLACKBURN JENNINGS—In Jacksonville, by Judge Dunn, on June 18, William F. Blackburn and Ida Jennings.

CULLEN CONRAD—In Medford, on June 16, by Rev. C. H. Hoxie, Joseph Cullen and Mrs. Dora Conrad.

CARTER GRUBB—In Ashland, on June 16, by Rev. Edward T. Green, Henry Bernard Carter and Mary Louisa Grubb.

POLSON BARNEY—In Ashland, on June 16, by Rev. Edward B. Rease, Ruben Edgar Polson and Mary Blount Barney.

SPORTING NEWS.

James R. Keene, the thoroughbred fancier of New York, has annexed two more of the leading racing events of the year—the Suburban handicap and Tidal stakes—with Ballou and Collin.

San Francisco sporting circles are much interested in a report that Stanley Ketchel, the champion middleweight, has agreed to enter into a match with any middleweight that Matchmaker Frank Lynch of Grand Rapids can arrange a go with. Efforts are being made to get up a fight for July 4 with Tony Caponi or Hugo Kelly.

Yreka's high school has a first-class team of amateur ball players, which recently beat the Hornbrook team, reinforced by several of Ashland's best artists, by a score of 4 to 0. Webb pitched for the runner and Gordon Jacobs and Wick for the latter.

A dispatch from Ishita, Siberia, says that the Italian car in the New York to Paris race has been seriously damaged by fire. The arrival of the American car at Nertschinsk on Tuesday morning indicated that the Americans were decreasing the lead which the German car recently secured. The latter left Nertschinsk shortly before the arrival of the Americans.

The Portland team was beaten nearly every time it met the Oaklanders at San Francisco last week. Although they broke even when playing at the Oregon metropolis lately, the pitching staff is weak and uncertain. McCredie made a mistake in letting Pernolet go to Aberdeen.

Scores of first-class pitchers in both the National and American leagues have been "bumped sumbitch" firer" more than once this season.

Frank Gotch, champion catch-as-catch-can wrestler of the world, has reached Seattle to train for his match July 1 with Dr. B. F. Roller. They met once before, when Gotch failed to throw his opponent, although he says he was out of condition then. Gotch calls Hook Smith, the Russian lion, a yellow dog, although many of those who saw their match say that the former employed the dirtiest of methods and the foreigner quit in disgust.

The associated students of the University of Oregon will send "Bill" Hayward, Oregon's famous trainer, east this summer. He will take six weeks in the Yale summer school perfecting himself in the most approved methods in training and physical culture and will also inspect university and other gymnasiums. Hayward will have charge of training of Dan Kelly and probably Forrest Smithson for the Olympic games. He will accompany the American team to London.

WATER IN TULE LAKE IS GRADUALLY FALLING

Recent measurements of the water flowing through the Tule lake outlet show a decrease of a few second feet. Several weeks ago the flow was 22 second feet, but at the last measurement it was 19 feet. The decrease in the flow is explained by those familiar with the conditions as being due to the fact that the lake is getting lower, and as the water recedes the stream through the outlet decreases, says Klamath Falls Herald.

There is at this time no indication whatever that the water is running into a cave or cavity that is likely to fill up, but those who have been watching the phenomenon are becoming convinced that the water finds its way through a subterranean channel into some river in California.

Engineers of the reclamation service are kept informed as to the condition of the outlet, and it is very likely that next year a considerable sum will be set aside to enlarge the opening so that it will be of practical use in the reclamation of the inundated lands in the Tule lake basin.

There has been no work done on the outlet since early in the spring, and it is thought that the flow could be again increased to 22 second feet if a channel were dug from the deeper water to the opening. The lake is gradually getting lower, but this is due to a measure only to the outlet, for at this season of the year the evaporation increases and the inflowing water decreases, causing a gradual receding of the lake.

STATEMENT MEN PROPOSE TO CAPTURE ORGANIZATION

Statement No. 1 members elect of the Oregon Legislature do not propose to take any chances of having either branch of the lawmaking body organized by unfriendly forces. Plans already are being formulated by which the statement members expect to capture the organization of both houses. In carrying out their program, however, the republicans (statement men) undoubtedly will be joined by the 15 democratic members whose votes will be required for the successful organization that is proposed by the legislators who are pledged to elect Governor Chamberlain as United States senator. The details of the plan, it is said, propose that the democratic members, in return for their support in the work of organization, are to content themselves with the election of Governor Chamberlain to the senatorship, at the same time conceding to the statement republican members all of the important committee chairmanships.

KLAMATH SALOON MEN BUILDING IN DORRIS

Reports from Dorris are that there are now in the course of construction four saloon buildings, which will be occupied by Klamath Falls liquor dealers as soon as prohibition goes into effect. This being the case, Dorris will have almost a dozen saloons for there are already six coming to full blast and it is said that the Klamath saloon men will also move there and also use of the Bonanza wet goods merchants has his eye on the new location.

SOUTHERN OREGON CROPS NEARLY UP TO AVERAGE

Despite the fact that this has been a bad spring for crops reports from all parts of the country give assurance that the yield will be nearly up to the average. In Klamath county grains are doing well and on some of the dry land farms the crops are as far along as they were at this time last year. Lake county sends forth the report that all vegetation is doing well in that section, and from Modoc county, California, comes the report that in all parts of that county the farmers entertain a hopeful view of the crop situation, notwithstanding the long period of north winds. The rains of the past few weeks have been quite general, providing a great boon to the entire country.

Ten to One in Favor of Gans.

SAN FRANCISCO, June 20.—The odds in the Gans-Nelson fight scheduled for July 4 have dropped a point and the champion is now a 10-1 favorite over the Dane. This is not the ring side price, as Gans followers have not yet come through with much coin, and it is freely predicted that the negro will be a 10-3 favorite on the day of the fight. Both sides are showing much interest in the betting.

Automobile Given Away.

The undersigned will give to any person an automobile worth the sum of \$2000 who will produce any two-crank or lever clothes washers, now in use in the United States, that can do the work of one of the Harrington Washers in all kinds of washing, both heavy and light.

The undersigned has offered \$200 and has stated publicly that he would give to any person said sum of \$200 who would produce a washer that would do half the work that can be done by the Harrington Washer, and do it as rapidly and as easily and in as good order, and he now by this publication repeats said offer.

The weight of the Harrington Washer is less than four pounds, substantially constructed of copper, and is a compressed air machine. Will last for a lifetime under constant use. What more do you want? Agents wanted. R. S. HARRINGTON, inventor. To be seen at the Moore Hotel for a few days. \$1

NEW CASES.

S. L. Sandry vs. Southern Pacific company; suit for damages; dismissed. Frederick W. Lawton vs. William Dutton; dismissed.

J. C. Hall vs. George W. Dunn et al; order made declaring injunction permanent.

Buy Tickets by Wire.
"Something which is of considerable interest to the public generally and which is perhaps not generally known, is the system of prepaid orders now in effect between stations of the Southern Pacific company and all points in the United States. By means of this system tickets may be purchased at Medford from any place in the United States and mailed or telegraphed direct to the party wishing to come here. Sleeper accommodations and small amounts of cash in connection with these tickets may also be furnished at the same time."
