STATE TO GAIN \$10,000

The state of Oregon is in a fair way to gain \$40,000 through state lieu land selections made several years ago and concerning which an investigation has inst been closed at Lakeview. A lot of homestead filings were made upon the same land, and the homesteaders proceeded to question the state's right to the land under its se

In the meantime Mr. West had per feeted the title by substituting good base for had, where there were defects, and the state's right as to 1000 acres was made safe as against the home stenders, some of whom, it is believed, were more anxious to get the land for its timber than for its value as home sites. The state stands upon its record title, which is prior to the home-stend

The party looked over the ground, sampled it thoroughly, and had assays made. Then they went to work to acquire control of the Jumbo and Batte groups. Recently a deal was consummated by which they have entire control of those two groups. They are sinking on the Butte and are highly pleased with the showing. Last week a lesige was struck, and the ore in places is literally placted with gold, says the Lakeview Herald.
