A "BIGSTICK" CLUB.

Grants Pass citizens who have the welfare of the city at heart have organized a "Big Stick" club, whose aims and objects are most commendable.

The club is secret in its membership, which is limited to 25, the "skidoo" number, all members of the Commercial club. It is the purpose of the club to work, directly and indirectly, upon unprogressive citizens and force them into line for progress.

The mossback does not know what is going on, but the strongest kind of pressure is brought to bear on him, and he is virtually forced to get in line or "skidoo."

Those big property owners who refuse to assist in boosting a town, although they profit more than anyone else by the efforts of those trying to force the place ahead, through the increased valuations of property, are the principal subjects worked upon by the club.

Grants Pass is to have paved streets, thanks to the efforts of this secret club. Protests from influential men and property owners threatened to block improvements, as they have blocked them at Ashland, but the club got busy, the protests were withdrawn, sometimes under pressure, and the paving is to follow.

Because Grants Pass merchants refuse to pay farmers cash for produce they are barred from membership, and the club is now trying to force the merchants to do business on a modern basis.

KEEP THE MONEY AT HOME.

A business man of Medford, who has made quite a fortune from the people of Medford and who today draws a large income, both from his mercantile house and property investments, recently went to Portland with his sons and while there completely outfitted himself and boys from head to foot. He did not get his wearing apparel any cheaper, but paid the same prices as he paid here, and when he returned it was noticed that the boys wore suits of the same make as those sold by a Medford firm. But now that he is prosperous, he felt a little higher toned, perhaps, to buy things away from home.

Where would the man's present prosperity be if his customers purchased their goods from mail order houses or went to the metropolis for them? How could he live if treated by others as he is treating them? He couldn't.

If everyone in a community sent his money out of town for goods instead of buying at home, there would soon be no town. The first essential in any community is patriotism, loyalty to the town and its best interests, and those who fail to patronize home industry, but purchase abroad, are deliberately building up other towns at the expense of their own.

No matter what you need, buy it at home. If it isn't carried in stock your demand will cause it to be.

WHY CENTRAL POINT VOTED DRY.

The reason why Central Point voted dry is given as follows by the Central Point Herald:

Central Point remains in exactly the same position as it has occupied for the last four years. With every surrounding town wet and supplying liquor in jugs and bottles to our boys, we remain 'dry' and forest such revenue as licensed saloons here would give to the city treasury, as well as the right of regulating the traffic in intoxicants. This town was voted dry, not by the people who believe in prohibition, but by men who assumed that the Medford charter would not stand in the courts and who wanted to put that town on the dry list. The scheme failed and Central Point is again left to hold the sack for two more years while Medford will furnish our boys, in jugs and bottle monopoly, the cream of the transient hotel trade and draw thousands of dollars' worth of trade from our merchants every month that should be kept here.

D. H. Hawkins to hit; Eddie Root on deck—Medford Mail "and Hilton in the hole," says Ed.

WELL KNOWN DRUMMER

ARRESTED FOR PERJURY

P. N. Lathrop, well known in Medford as drummer for Allen & Lewis of Portland, was arrested at Grants Pass this week, charged with perjury. He has been released at Salem under \$500 bonds, furnished by Hal Patton. Mr. Lathrop said that his arrest was spite work. Some few months ago he was a witness in a divorce case at Salem, his home, and he was arrested on the charge of perjury, and the only thing they could have against him was that he might have been mistaken in some of the dates that he gave in his evidence.

The preliminary hearing in the case was set by Judge Webster for next Tuesday morning at 10 o'clock. Lathrop has expressed his intention to waive examination at that time and take the case before the grand jury for first hearing.

The penalty for the crime with which Lathrop is charged is imprisonment in the penitentiary for from three to ten years.

DEAD CHINKS' HAIR FOR RATS FOR WOMEN

NEW YORK, June 25.—A ton of Chinese hair for "rats" of American women formed part of the cargo of the big freighter Wray Castle, which has just arrived from the orient. The hair came from the heads of Chinese bandits who had been beheaded, and is valued at more than \$5000.

Enough of this hair is on board the Wray to provide thousands of American girls with the necessary "filling," and great care was taken on the freighter to keep it from exposure of any sort that might spoil it for the market in the United States.

Hardly had the consignment of the Chinese hair been brought to the American docks on Staten Island before the British steamship Seneca arrived at quarantine with 22 cases of Chinese pigtails, which, according to Captain Grimes, were collected in Chinese cemeteries by a crafty American, who collected the gruesome souvenirs for profit in three months' plunder of Chinese burial grounds.

Beware of the Flies.

It is more necessary for the welfare of your family to screen your house to prevent the entrance of flies than it is to lock your doors for fear thieves might find their way in while you are asleep. The former can do much damage by robbing you and your loved ones of health, while the latter can deprive you of only a little material wealth, which will not weigh anything worth while as compared to the priceless possession of good health. One fly can do more damage than one thief. If you leave your house unsecured the former will enter by battalions, while unhooked doors only mean a remote possibility of a visit from thieves.—Ex.
