

AS IT LOOKED TO BLIND MAN

Senator Gore Describes Bryan Demonstration as It Appeared to Him.

DENVER, Col., July 9.—"I saw the waving banners, the marching, gesticulating crowds, and the look of triumph on the faces of the Bryan followers as plainly as if I had my sight, for a blind man is not so remote from the world as the person who has good eyes and no imagination."

"This is the way Senator Thomas P. Gore described the demonstration which was started by his reference to Bryan as 'the greatest apostle of human liberty.'"

"The demonstration was a complete surprise to me," he continued. "I had scarcely completed the introduction of my speech when the storm broke, and during the hour or more that followed I faced the crowd and saw what was going on. I believe my picture of it is as vivid as that of any man or woman present."

Senator Gore today is the recipient of congratulations from hundreds of Oklahomans, who are in the city and who aided materially in increasing the volume and duration of the demonstration.

NELSON REALLY MATCHED TO FIGHT GANS AGAIN

SAN FRANCISCO, Cal., July 9.—Battling Nelson, lightweight champion of the world, and Joe Gans, the dusky ex-champion, who lost his title to Nelson here July 4, are to meet in the ring for the third time at Ely, Nev., Labor day, September 7. This was decided last night at a meeting between the fighters, their managers and Tex Rickard, the Nevada fight promoter. The purse for which the boxers will fight is \$30,000. Nelson is to receive \$20,000, win, lose or draw, and Gans is to receive \$10,000. Nelson is to receive two-thirds interest in the movie pictures and the club the other third. Gans being left out on this proposition. Pick of the contestants and Rickard posted \$10,000, but might to bind the agreement. Rickard will post \$10,000 more as soon as he reaches Nevada. The fighters are to select a referee on August 29, and in case of failure to agree, the club is to make the selection three days before the fight. The fighters are to weigh in at 133 at the ring side.

To Protect From Frost.

W. H. Smith of Fresno, Cal., is in Medford, representing the Frost Prevention company of Fresno, Cal. Mr. Smith has samples of the devices now in use in California and several other states for preventing frost damage to fruit. These devices consist of a patented oil pot and an electric alarm thermometer, which will awaken you in your room at night when the danger point is reached. He states that these devices have proven a success in every case where they have been employed. He is at the Hotel Nash and will be pleased to meet the fruitgrowers and explain the method of fruiting which has been so successfully carried on in California and other states. Mr. Smith will be here but a short time and desires those interested to call upon him as soon as possible.

MARKET FOR NEW HOPS PLACED ON 10-CENT BASIS

The market for hops here is now firmly on a 10-cent basis. As was stated in the Sunday Oregonian, rumors were current the latter part of last week of 10-cents being offered on contracts, and the rumors have since been verified. It was learned yesterday that John Carmichael of Salem, the representative of Wigan, Richardson & Company of London, had contracted for several lots at that price, the aggregate amount secured being, it is said, about 70,000 pounds. Among the growers reported to have made contracts with Carmichael were George Merrill of Jefferson, J. O. Sewell of Hillsboro and Jacobson of Boonville. It is also known that 10-cent offers have been made to Krebs Bros. and to George Rose of Salem, but these offers were not accepted.

The lifting of the market for futures from 9 to 10 cents has created much interest, but no surprise in the trade. In all quarters it was thought that contracts would eventually reach the 10-cent mark, but the figure has been reached sooner than some of the dealers expected. Forecasts of an 11-cent market are now being made. The trade is watching the situation closely and there is much speculation as to what Paul Horst will do—Oregonian.

NEW SYSTEM IN VOGUE AT ALL LAND OFFICES

For the purpose of simplifying the system of keeping the records, an entirely new plan was introduced in all district United States land offices and in the general land office at Washington on the first of this month. Practically all of the record books heretofore in use have been discarded, while what is known as a serial number book and a card index have been substituted. In the serial book is kept a complete record of every transaction relating to a tract of public land from the time it has been filed on until final proof has been made and patent issued. Corresponding records will be kept at the general land office at Washington. Formerly this information was recorded in several separate volumes, each transaction regarding a tract of land being designated by a number corresponding with the order in which the process had occurred. Under the new system every step in the progress of perfecting title to each piece of public land will be recorded under one serial number with a complete indexing system in connection.

Under the new system one set of numbers will be maintained at each district land office for all classes of entries, purchases, locations, etc. The initial declaration, application or other paper required in any entry, purchase, selection or location will be numbered at the time in the order in which it is presented to the district land office without regard to its subsequent allowance or rejection. All intermediate or final papers required to be filed or issued in connection therewith will be given the same number as the original paper.

GARFIELD MAY VISIT KLAMATH PROJECT

C. H. Fitch, the acting director of the reclamation service, has written to Director Jacob Hoeck of the Water Users' association that it is very probable that Secretary Garfield and Director P. H. Sewell will visit the Klamath project this summer. At this time they are both absent from Washington and nothing can be done about the rejection of the bids on the Clear Lake dam until they return.

LOW PRICES SECURED FOR KLAMATH WOOL CLIP

Klamath and Lake county shepherds have disposed of the wool clip for this year. The price was lower than expected. Choice clips brought 15 cents, the most of the clip selling for 13 and 14 cents. Last year the price ranged from 19 to 23 cents. Shearing is finished in most parts of the country, although in the vicinity of the lava beds there are still a few bands that have not been shorn. All of the sheep are now on the summer range, most of the men engaged in this industry having passed land in the reserves.

RECEIPTS AND EXPENSES SHOWN BY RECORDER

City Recorder Pulliam's report for June shows receipts from liquor licenses, \$750; from 1907 taxes, \$112.51; from miscellaneous licenses, \$251.50; from water receipts, \$289.18; from poll tax, \$20; from street tax, 1907, \$183.09; from fees collected, \$60; and from sewer or 1903 taxes, \$26.14. The expenses show general fund warrants of \$1592.50; water fund warrants of \$4371.72; street and road warrants of \$1310.96.

ESTIMATE ON COST OF OAKDALE AVENUE SEWER

City Engineer Osgood has made an estimate on the cost of a trunk sewer on Oakdale avenue, north of Seventh street, at \$12,779. The sewer is intended to be large enough to serve the entire city after ten years, using 25,000 gallons per day as the basis of the estimate. The sewer would be 3000 feet long, 14 inch pipe, at an average depth of eight feet.
