

SNOW NEARLY GONE AT LAKE

Will G. Steel Reports that Big Tourist Travel is in Prospect for Crater Lake

Will G. Steele of the Crater Lake company arrived in Medford from Crater lake Thursday and reports that the snow has disappeared from all except the rim of the lake itself or shady sides of hills. He expects a great number of tourists at the lake this summer, but on account of the financial stringency will be unable to carry out original plans for the hotel upon the establishment this season. He will establish a kitchen and provide tent accommodations, so that sightseers can secure meals and lodging at Armit's house and feed for teams at the junction of the Klamath and Medford roads, a few miles from the lake.

Mr. Steele has worked out a new plan for securing government aid for the building of roads and other improvements in the national park. He will endeavor to have engineers sent to make a complete survey of the roads and trails about the crater and estimates of their cost, and then have the work started on contracts. By the continuing of the contract plan, Cascade reserve park secured \$50,000 at the last session of congress as against Crater lake's \$3000.

SAYS MITCHELL IS THE STRONGEST MAN

The residents of Jacksonville in the late sixties will remember DeWitt Clinton DeWitt, the herculean principal of the public school of the county seat. He is now a resident of Towanda, Pa., and for many years has ranked as one of the leaders of the bar of the Keystone state, as well as being a prominent politician. Mr. DeWitt is again a delegate to the democratic national convention and spent several hours at Lincoln, Neb., visiting Mr. Bryan during his stay there.

Speaking of candidates for the vice presidency, Mr. DeWitt said: "John Mitchell is the man. I have been weighing the value of the various candidates, talking with other candidates and comparing views, and the result is that I come out for Mitchell. Not only would Mitchell carry Illinois, Indiana, and Ohio, but he would carry Pennsylvania. What other candidate so far mentioned gives promise of anything like Mitchell's following? None. I believe the next few days at Denver will show the truth of what I have said, and I feel certain now that the majority of the Pennsylvania population appreciates the strength that the leader of the coal miners would bring to the ticket."

NEW YORK AGAIN ELECTS NORMAN MACK

DENVER, Col., July 9.—The New York delegation at a caucus yesterday morning re-elected Norman E. Mack national committeeman and adopted the unit rule. It did not discuss the question of agreeing on a candidate for vice-president.

No action was taken regarding the presidency, and shouts of snip meeting followed the adjournment.

T. J. Ketchum created a commotion by shouting: "I propose the world shall know there are 25 members of this delegation for Bryan and I demand that the delegation be polled."

Members of the Hamann organization gathered about the obstreperous member and assured him he would be "more than pleased" when the vote on the presidency should be taken.

HUMPHREY LEADS IN SHOOT HELD ON CLUB GROUNDS

A successful shoot was enjoyed by members of the Medford Rod and Gun club at the club grounds Wednesday afternoon. The following was the score out of a possible 25:

Daniels 19
Seely 19
Elwood 19
Patterson 19
Ross 18
Butler 11
Eynart 20
Biden 21
Miles 21
Haskins 16
Brown 14
Smith 13
Humphrey 23
Rickoff 21
Menard 20

SMALLPOX RAGING THROUGHOUT RUSSIA

ST. PETERSBURG, July 10.—An appeal for government aid in checking the ravages of smallpox, which is devastating Russia from the White to the Black seas and from the Baltic to Siberia, was made today by representatives of the affected districts. They declared that unless heroic efforts were made Russia will be afflicted with the worst scourge in the history of the country. In several districts the death rate is 25 to 30 per cent. The disease's rapid spread is due partly to the lack of cleanliness in the masses' personal habits and the laxity in enforcement of sanitary measures.

ADVERTISED LETTER LIST

Fritz Aeschliman, Ora Butler (2), Mrs. C. E. Chiles (2), Mrs. A. S. Conley, Frank R. Cooper, F. Doeker, M. Ed Hain, C. C. Hays, E. R. Henry, Arthur Homer, Fred K. Lawton, H. C. Leighton, Littlefield, Cordeau Loffa, H. C. Mackey, T. L. Masters, William Medford, John Moline, Mrs. John O'Conner, Hallie Owen, Margaret Reid, Mrs. Clinton Reynolds, Miss E. Schutte, Wm. E. White.

BORN.

VON DER HELLEN—At San Isidro, Philippine islands, May 31, to the wife of Lieutenant George von der Hellen, P. C., a son.

McKINNEY—At Grants Pass July 1, to the wife of Joseph McKinney, a son.

CHISHOLM—At Portland, July 1, to the wife of Clinton Chisholm, a daughter.

Next of Small Orchard Tracts.

Next Tuesday and Wednesday C. H. Pierce & Son, owners of the large ranch two miles east of town, will place it on sale, subdivided into 5 and 10 acre tracts, at prices ranging from \$100 to \$150 an acre. The value of property so finely located as these tracts are is bound to increase rapidly, and Mr. Pierce feels confident that he is offering to his clients a rare opportunity to purchase some very valuable land at an exceedingly nominal figure. Two-thirds of the property is already under cultivation. There are several wells and springs on the place, and as choice fruit land the owners state it is unsurpassed. The sale is being well advertised and there is every prospect that small tracts of this land, which so many people have been eagerly seeking, will soon be bought up.

This Isn't Hot.

Hot! no, this isn't hot. Why, in some parts of the world the temperature is 20 degrees higher than it is hereabouts. Here is the table:

Tunis 112.5 degrees
Manila 113.5 degrees
Nubia 115.2 degrees
Am-Dize (Egypt) 116.1 degrees
Ene (Africa) 117.34 degrees
Raghal (Asia) 120.9 degrees
Stockton (Cal.) 120.9 degrees
Phoenix (Ariz.) 122.9 degrees
El Paso (Mex.) 123.4 degrees
Near Suez 126.5 degrees
Near Port Mankuarie 129.9 degrees
Near Sycene (Africa) 129.2 degrees
Muzouk (Africa) 133.4 degrees

The Rogue river climate is moderate in comparison. Just the kind of climate to grow apples, apricots and melons.

—D. H. H.

To Protect From Frost.

W. H. Smith of Fresno, Cal., is in Medford, representing the Frost Prevention company of Fresno, Cal. Mr. Smith has samples of the devices now in use in California and several other states for preventing frost damage to fruit. These devices consist of a patented oil pot and an electric alarm thermometer, which will awaken you in your room at night when the danger point is reached. He states that these devices have proven a success in every case where they have been employed. He is at the Hotel Nash and will be pleased to meet the fruitgrowers and explain the method of smudging which has been so successfully carried on in California and other states. Mr. Smith will be here but a short time and desires those interested to call upon him as soon as possible.

LOCAL MARKET.

The following quotations are an impartial report of the prices paid by Medford dealers:

Summer Outing Book.

The O. R. & N. and S. P. Co. has issued a very handsome "Summer Outing Book." This book covers the summer resorts of Oregon fully, is beautifully illustrated and contains very valuable information.

One of these handsome books will be given to all asking for same while supplies last.

Call at the local office and ask for one.

The Hotel Nash is serving the best merchants' lunch in Oregon daily from 11:30 until 1:30 o'clock. Price 25 cents, with your favorite drink.

ORDINANCE NO. 161.

An ordinance authorizing a contract with the Warren Construction company regarding the use by said company of the city's stone quarry and steam road roller and providing the form thereof.

The city of Medford doth ordain as follows:

That the mayor and city recorder be and they are hereby authorized and directed to make and execute a contract on behalf of the city of Medford with the Warren Construction company, a corporation, which contract shall be in words and figures, as follows, to wit:

This Agreement, made and entered into this day of by and between the city of Medford, party of the first part, hereinafter called the city, and the Warren Construction company, the party of the second part, hereinafter called the paving company.

Witnesseth: That, whereas, the city is the owner of a steam road roller located in the city of Medford,

Whereas: The City is installing a stone crushing plant and is opening up a quarry at Jacksonville, Oregon, to gether with the installation of a rail road siding to the quarry and a siding and trestle for unloading purposes within the limits of the city of Medford, and owns some land that would be suitable for a plant site near said trestle, and

Whereas: The paving company will require in the construction of the bitu lithic pavement on Seventh street, Medford, the use of a quarry, crusher, roller, trestle and strip of land adjoining the trestle.

Now, therefore, in consideration of one dollar cash in hand paid, the receipt for which is hereby acknowledged, the city agrees:

First—That the city will complete their equipment at Jacksonville so that the plant is completed and in shape to turn out and deliver crushed rock to the trestle within the city limits with as much dispatch as possible consistent with the requirements, and upon completion will turn the same over to the paving company to operate and use for a period not to exceed two months from the date the crusher is turned over to the paving company ready to operate.

Second—That the city will allow the paving company the use of the steam roller in connection with the paving of Seventh street.

Third—That the city will allow the paving company the use of a strip of land not to exceed 75x150 feet on the public land near the trestle to be created by the city. The exact location to be selected by the city engineer.

In consideration of all of the above, the paving company agrees:

First—That the paving company will use the city quarry, taking rock where directed by the city engineer, and pay for same the sum of five cents (\$0.05) per cubic yard for each and every yard of rock excavated from the quarry, and to clean up the quarry and turn same over to the city upon completion of the Seventh street paving contract in good condition and satisfactory to the city engineer—measurements to be made on a basis satisfactory to the city engineer and said price per cubic yard does not include the 20 cents per ton cost of transportation, Jacksonville to Medford, nor the cost of electric power, which sum are to be paid to the railroad and the power company by the paving company.

Third—That the paving company will use the city crusher and other equipment necessary in connection therewith, together with the trestle and a space 75x150 feet adjoining same as required by the Seventh street paving contract, and will pay for the use of same the sum of five cents (\$0.05) per cubic yard for each and every cubic yard of rock crushed, and will clean up the trestle and land adjoining, upon completion of the contract and leave it in the same condition as when the paving company assumed charge, and will return the crusher and all other equipment used in connection therewith in as good condition, ordinary wear and tear and the acts of God excepted, as when turned over to them.

Fourth—That the paving company further agrees to hold themselves responsible for all accidents that may occur in the use and operation of any of the above city property and to hold the city harmless from all liability in connection therewith.

In consideration of the above, the parties hereto have set their hands and seals this day of first above written.
