

Social and Personal

Mrs. Anna Martin of Jacksonville went north Friday evening.
 Horace Pelton of Sams Valley was in Medford Friday transacting business.
 W. G. Steel is in Medford buying supplies for his Crater lake caravan party.

George H. Merritt of Jacksonville was a Medford visitor Thursday afternoon.

T. J. Neff and Booth Lee of Central Point spent a few hours in Medford Friday.

Judge Charles Prim, the lawyer, has returned from his outing in Evans Creek district.

Miss Frances Barnes was a Medford visitor Friday. She will return to Portland soon.

J. T. Bates, the horticulturist, was among the many in Medford during the past week.

A. L. Wimer of Talent precinct was in Medford Friday doing business with our merchants.

Miss Maud Stone Wright came down from Coletia Friday evening for a short in Medford.

Mrs. Clara Elmer of Jacksonville, the school teacher, has returned from a visit to California.

Frank R. Neil of Big Butte precinct and two of his daughters were in Medford Saturday afternoon.

H. C. Keutner has returned from a trip to his prospective fruit farm, which is located near Woodville.

L. C. Hill, the genial representative of an eastern firm, is making our city a visit, but will not remain long.

E. L. Gurnea, the electrician and civil engineer, is now a resident of Medford and operates an auto which he owns.

Hon. E. G. Smith and A. C. Hough, the Grants Pass lawyers, were in Medford and Jacksonville Friday afternoon.

Mrs. Newbury and her daughter, Mrs. C. A. Moore of Baker City, and Mrs. M. Peter of Jacksonville returned from Coletia Friday evening.

W. H. Canon, United States commissioner, has returned from his outing in Meadows precinct and is busily engaged with his duties already.

Peter Deisch, the lawyer, has started on his return to Arkansas, after a visit of a few weeks in this section. He will eventually return to the Pacific coast.

J. Albert Whitman, who has been a citizen of New York for some time past, made Medford a short call this week while on his way to Klamath county to visit his father.

A shipment of apples which arrived at Astoria on the last steamer from San Francisco was seized and destroyed by Inspector Dow, as the fruit was infested with codlin moth.

Miss Adele Pichel has started on her return to Douglas City, Alaska, after a visit of several weeks in Medford. She will resume her duties as principal of the public schools there next month.

C. S. Jackson, publisher of the Oregon Evening Journal, is making Medford a brief visit. He was among the Portland business men who went to Klamath county a few days since and is on his way home.

A number of the members of the Y. M. C. A. of Portland, who are on an outing, arrived in Medford Saturday morning and are guests of the Commercial club. The party is conducted by Physical Director Grilley. From Medford the men will walk to Crater lake, taking four days for the trip. Three days will be passed in side excursions at the lake and in hunting and fishing trips. Fort Klamath and Klamath lake will also be visited. The old stage road to Ashland will be followed. At Klamath Falls the excursionists will be entertained by the local commercial organization.

Christian Science services are held every Sunday morning at 11 o'clock in the Commercial club room. Subject for August 9, "Spirit." All are welcome.

MOTHER HIDES DAUGHTER ON EVE OF MARRIAGE

CHICAGO, August 8.—Dr. P. F. Fitzgerald, presiding officer of chemistry at the Cooper Medical college, San Francisco, is making a vigorous search today for his intended bride, Miss Ethel Ludwig, a former student at Stanford university, who was kidnapped by her mother and placed in hiding last night just on the eve of her marriage.

Dr. Fitzgerald, who met the young woman while she was attending college, visited her home at Morris, Ill., on a recent journey east, and gained the consent of Mrs. Ludwig to marry her daughter. Returning yesterday, the young professor stopped at Morris intending to carry out his matrimonial plans. He was met at the station by Miss Ludwig's aunt, Mrs. Bray of El Paso, Tex., and told to get out of town immediately. He insisted on seeing the girl, but was refused admission to her home.

At midnight the girl was taken from her home by her mother and aunt, Attorney C. Heardon, and hurried in an automobile to Coal City, where all trace of the party was lost. It is thought she has been confined in a convent or sanitarium. She was frantic at her enforced departure.

Detectives in the employ of Fitzgerald are searching today for some clue to the girl's whereabouts.

At midnight the girl was taken from her home by her mother and aunt, Attorney C. Heardon, and hurried in an automobile to Coal City, where all trace of the party was lost. It is thought she has been confined in a convent or sanitarium. She was frantic at her enforced departure.

EDISON TO DELVE INTO CHEMISTRY

NEW YORK, August 8.—Thomas A. Edison has begun to gratify an ambition he has cherished many years, and the laboratory at Llewellyn, N. J., will see comparatively little of him henceforth. Mr. Edison's ambition has been to give himself a roving commission into pure science and to steer clear of commercialism. He does not want to increase his fortune. He has got \$25,000,000, which he thinks is more than enough. All of his life he has been turning out money-making inventions. He will devote his remaining years to investigating anything that strikes his fancy, without regard to its financial productiveness. It is learned that the man who has achieved so many marvels in electricity has a greater love for chemistry than electricity.

Chemistry was the first science to captivate his wonderful intellect, but he has never had a chance to dig as deep into its mysteries as he wanted to. Now he proposes to give himself the chance. He has bought himself a place in Florida, where he will spend a couple of months in the late winter and early next year. Toward the end of this month he is going with his wife on a month's trip to the Pacific coast.
