PITTSBURG DOCTORS FIND A CURE FOR LOCKJAW

PITTSBURG, August 11.—The Magee annex, also known as the Pasteur institute, attached to the Mercy hospital of Pittsburg, yesterday came to the fore with what it claims is the first real cure for tetanus, or lockjaw.

Magnesium sulphate injected into the spinal column is said to have effected the cure.

Last evening Harry Gilbert, 14 years of age, was discharged from the Pasteur annex as well. He was one of the most severe cases to come under the notice of local physicians, and the new cure was watched with great interest.

The boy was hurt with a toy pistol on July 4, and on July 12 was carried to the hospital in convulsions. Injections of a 5 per cent solution of magnesium sulphate were started and gradually increased to 15 per cent. By degrees the body of the boy, which had become rigid, resting only on the back of his head and his heels, began to relax.

Anti-toxin, too, was used in good quantities to assist in the work of relaxing the muscles. All the hospital physicians assert that there was no hope of anti-toxin saving the boy's life, so far had the disease progressed before he was treated. The treatment lasted 12 days before the muscles of the body became once more pliant, and the last nine days have been spent by physicians in examining the boy to see that his condition is what it is claimed by the Mercy hospital physicians.

WATER USERS MAY BUILD THE CANALS

KLAMATH FALLS, Or., August 11.—If the present plans of the board of directors of the Klamath Waters Users' association materialize it is very probable that many of the land owners under the Klamath reclamation project will assist in the construction of the irrigation system.

It is the plan of the directors to enter into an agreement with the service to secure the privilege of advertising for bids on certain pieces of work, the contractor securing the work to be paid in certificates of work, which, when duly approved, can be applied on the payment of water rights. The directors believe that by adopting this method they will be successful in getting the farmers to construct most of the laterals connected with the project.

It is realized that it will be impossible for any farmer to take a large contract when there is no cash consideration, but the aim is not to secure big contractors among the land owners, but rather to get the farmers to build, for instance, the laterals necessary to irrigate their own lands.

If the plan meets with the approval of the reclamation service officials it is very probable that it will be adopted and that the directors will at once begin to advertise for bids.

Another shipment of nearly 100 boxes, made direct from San Francisco to Victoria, condemned at that point, were reconditioned to this market, where it was today again condemned. In spite of very heavy poultry receipts today little stock was carried over. Prices will be unchanged next week.

PUTS FRENCH WARSHIP IN PAWN FOR \$100 DEBT

CHEERBOURG, August 11.—It happens sometimes that mechanics' liens are placed on Turkish warships, but the cruisers and gunboats of the republic have escaped that indignity until a few days ago, when a libel was laid on the French man of war Henry IV at anchor in this harbor.

The claim, enforced by a deputy sheriff, was for a hundred dollars and in favor of a mechanic who had suffered injury while working for the state and secured a pension of \$100 per annum.

By some oversight the pension was not placed on the budget and when the laborer asked for his money the marine prefect was obliged to say that there were no funds to pay him, whereupon the claimant consulted a lawyer and forthwith laid a lien on the man of war, which remained in pawn until the hundred dollars was paid with costs.

PRESIDENT ELLIOT GIVES HIS VIEWS ON SOCIALISM

BOSTON, Mass., August 11.—University circles were yesterday discussing an interview on Socialism given out by President Elliot of Harvard. This is the first expression that President Elliot has given to his views, and is an answer to a recent article on American "Trouble Makers."

President Elliot said: "Socialism has not a chance in this country, because wealth is too diffuse. If a man has \$100 at his own he gives up all idea of sharing it with anybody else. To have socialistic society where every one thought first of the rest of the world, you would have to change not society, but humanity."

CHAMPION IS NEARLY DROWNED IN DOVER CHANNEL

DOVER, Eng., August 11.—In spite of the fact that he came near drowning Sunday in an attempt to swim across the English channel, James Mearns, the Scottish champion, declared yesterday that he was ready and willing to try it again.

When he was three miles of France after being in the water 24 hours, Mearns grew so weak that those watching him from a tug advised him to give up the struggle. Mearns was persistent. Finally one of the men on the boat leaped overboard with his clothes on and rescued the Scotchman from drowning.
