### CONSUMPTION OF LIQUOR IS ON THE DECREASE

From the preliminary report of the commissioner of internal revenue it is apparent that the consumption of whisky and other ardent spirits is on the decrease and that the consumption of beer is increasing. During the fiscal year which ended on June 30 last, \$131,789,242 was paid to the government as revenue on whisky and other spirituous liquors. For the year previous \$147,550,281 was paid, a loss in revenue of \$15,761,038. There was distilled during the year which ended June 30 last, 119,808,402 gallons of distilled spirits, a decrease over the previous year of 14,333,672 gallons.

During the past year 58,747,680 barrels of beer, ale, etc., were made, a gain of 201,809 over the preceding year. On this beer, ale, etc., the government received as revenue the sum of \$58,747,680, a gain of \$201,569.

The receipts from all sources of internal revenue for the year aggregated \$251,665,959, being a decrease of \$17,998,972 from the receipts for the fiscal year which ended June 30, 1907.

Tobacco of all sorts yielded a revenue of \$49,862,754, a loss of \$1,948,315, the figures of the year which ended June 30, 1907, being \$51,811,069. This year cigars contributed a total sum of \$29,714,276; little cigars, \$545,950, and cigarettes \$4,879,240, and tobacco of other kinds, including chewing and smoking, \$21,846,562.

Oleomargarine paid revenue to the extent of \$954,304, a gain of \$66,663 over the previous year. This represents 79,107,302 pounds consumed.

Renovated butter was a close second to oleomargarine, 59,249,708 pounds being manufactured, upon which \$125,691 revenue was paid.

Filled cheese paid \$1271; mixed food, \$2380. Playing cards were taxed for \$549,816, a loss of \$112,904 for the preceding year.

### SCHOOL DELAYED BY FRUIT CROP

CHICO, Cal., August 25.—The board of education met this morning at 9 o'clock for the purpose of acting upon a petition presented by R. C. Kells, local agent for the California Fruit Cannery's association, and signed generally by the fruit men of the district, asking that the public schools of the city including the Chico high school, postpone their date of opening two weeks in order that the services of the children for that period may be secured.

The board agreed to postpone the opening of the primary and grammar schools one week, making September 14 the opening day. It was decided not to delay the opening of the high school, which will be on September 7, as there are but 12 high school students working in the fruit. These will be privileged to make up for the lost time if they continue working in the canneries or packing houses.

About one-half of the school children employed in the cannery are said to be from the normal training school, so the normal trustees will be asked to postpone the reopening of this school.

The regular date of opening of the primary and grammar schools of the city has been the first Monday in September, which this year falls on September 7. Not for a long period of time have the school authorities been called upon to postpone the opening of the schools in order that the children may work in the canneries, but this year, because of the extra heavy crop of peaches, which fruit comes in large quantities to the canneries, the corporations feel that they are called upon to retain the school children two additional weeks. Seven days ago a similar petition was granted by the board of education.

### ALL NIGHT BANK FOR LOS ANGELES

LOS ANGELES, August 25.—Final arrangements have been made for an all-day and all-night bank in Los Angeles, for this community a departure in banking.

The new institution to be known as the All-day and All-night Bank, will open for business not later than September 10. The authorized capital of the bank is \$250,000 and by the time the bank opens it is said \$100,000 will be paid in.

The organization of the new bank has been in the hands of Newton J. Skinner, who has been named as the president of the institution. Skinner was organizer of the Bank of Southern California, and was its vice president until about a year ago.

The new institution will be a commercial bank and will pay interest on savings. There will also be a safe deposit department. The bank will be open at all hours of the night and day except from midnight Saturday until 7 o'clock Monday morning.

### THIRD CLASS MEXICAN COACHES ARE ABOLISHED

MEXICO CITY, N. M., August 24.—Many people who formerly traveled second class on Mexican railways will be forced hereafter to travel first class and pay 2 1/2 cents gold per mile as against 1 1/2 cents, the second class fare. It was announced that the Mexican government has granted nearly all the railroads in Mexico the privilege of abolishing the third class coaches that have been so popular and liberally patronized.

The Vera Cruz line running from this city to Vera Cruz through a populous country is the only line to continue the third class coaches. Figures show that passenger who formerly rode second class are taking first class coaches.

The revenue of the roads has been greatly increased by the new arrangement.

A. F. & A. M. Work in the third degree Friday evening, August 28, 1908. Members and sojourning brothers invited.

M. PURDEN, W. M. 137.

### What Papers Say

#### PROTECTING BANK DEPOSITS

(Sacramento Bee)

Although there has been much outcry from certain banking interests against the Bryan policy of guaranteeing deposits through an imposition of a eight tax upon the total amount of the deposits, the plan has worked well in Oklahoma, where it has been in operation since last February.

A statement by the banking board of the new state at the close of June shows that while the unsecured banks, all of the National, had lost deposits to the extent of \$699,000, those National banks which had come under the operation of the law had gained in deposits to the extent of \$545,909. And the state banks, all of which were secured, reported a total net increase in deposits of \$3,828,000.

Taft also attacked this policy, which constitutes one of the planks of the National democratic platform, but it certainly wins favor from the public, and is destined to grow in popularity. Admitting that it imposes a slight burden upon the banking business generally the tax required is so very small as to be virtually inappreciable. And the benefits far more than compensate for the costs, not alone to the depositors but to the banks as well, which are large gainers through the confidence such a law inspires, especially during periods of stringency and panic.

Some months ago, when a bank failed in Oklahoma, the state banking board took charge and announced its readiness to make immediate payment in full to every depositor. The money for the purpose was available in the state treasury, from the small tax levied upon the banks for that special purpose, although the institution which failed was almost destitute of cash. Had there been no state guaranty fund, the one failure might have precipitated a general panic, in which all the banks would have suffered heavily, as well as the public.

This Oklahoma law, embodying the Bryan policy, is somewhat similar in aim to that feature of the National Banking Act which guarantees full payment of the notes issued by the National banks. National bankers make an objection to that provision, however much any of them may be opposed to the Bryan idea of protecting depositors against loss. But why should not depositors be protected, as well as the holders of bank notes.

So long as National banks are permitted to issue paper money, instead of the government, there is no sound reason for the requirement that their notes shall be so secured that the holders can not lose. And there is even greater reason for laws to protect depositors.

#### ANOTHER AMERICAN GIRL WINS FOREIGN NOBLEMAN

PHILADELPHIA, Pa., August 25.—The announcement that Miss Margaret Drexel, daughter of Colonel and Mrs. A. J. Drexel of this city, and reigning belle of London has thrown to the winds proposals of marriage from French, Spanish, German and Italian nobility and pledged herself to Lord Herbert Vane Tempest is the chief topic discussed in society today.

In the same announcement it is said that her engagement to the English lord will be announced in September. Lord Tempest is the Drexels' closest friend in London and is Colonel Drexel's associate in several Mexican mining deals. He lives in a mansion adjoining the Drexel home and is reported to be wealthy.

Miss Margaret Craighead and Miss Etta Taylor of Muncie, Ind., for two weeks, beginning August 25, will have on display at Van Dyke's a complete line of art needlework, consisting of stamped and finished pillows, table covers, centerpieces, waists and underwear. Free lessons will be given on all goods sold.
