ASHLAND COMMERCIAL COLLEGE NEWS NOTES

The fall session will open September 7th and will be held in the rooms occupied at present at the Aikin building, remaining here until the Swedenburg building is completed.
 From the prospects at present there will be a larger attendance than ever.
 Miss Hattie Gingsade of Eagle Point was the first student to enroll in September, 1904. She completed the commercial course and has been employed as a bookkeeper in San Francisco for more than three years. She has now returned for the course in shorthand and is the first to enroll in September, 1908. Miss Gingsade evidently knows where to secure a business education.
 It is a fact that the young people of southern Oregon and northern California can save from \$300 to \$500 on a nine months' course of business training by securing it here. It is another fact that with the individual instruction given here that students receive a better and more complete course. It is also a certainty that we can promptly place every young man or woman in a position in the large cities, either north or south, when they are qualified and wish to go.

Two Days Left of the GRAND HARVEST SALE

EXTRA GUARDS WATCH
 46 FISH DYNAMITERS.

WALLACE, Idaho, Sept. 4.—Extra guards are today on watch in and outside of the jail in Wallace, where the 46 men accused of dynamiting fish on the north fork of the Coeur d'Alene river are behind the bars after being brought here like a herd of cattle by Game Warden Lem Wilson and two assistants heavily armed.

When the party approached Wallace late yesterday the prisoners showed signs of becoming restive. Every precaution is being taken today to prevent a jail delivery.

In Four Different Days in Two Hours Time

"Impossible!" you say, but let us see. Remember as you go east you keep resetting your watch. Six hours' difference in time between Medford and New York city. If you were to go entirely around the earth you would gain or lose 24 hours as the case might be. This discrepancy is equalized by the international date line out west of the Hawaiian islands. You have two days of the same name going west at that point and skip a day coming east. On the old Ohio one foggy night in July, 1899, at 11:30 p. m., I crossed this date line into Sunday. Right here the old tub's condenser system broke down and we drifted back over the line. By 10 o'clock a. m. of Saturday we were repaired and steamed up into Monday! Thus being in Friday, Saturday, Sunday and Monday in two hours time. This reminds me that I started out to see that you will never drift into ill health if you drink "Columbia Natural Mineral Water," and your days will be as the merry winter of Ogilvie."

"Something which is of considerable interest to the public generally and which is perhaps not generally known is the system of prepaid orders now in effect between stations of the Southern Pacific company and all points in the United States. By means of this system tickets may be purchased at Medford from any place in the United States and mailed or telegraphed direct to the party wishing to come here. Sleeper accommodations and small amounts of cash in connection with these tickets may also be forwarded at the same time."

The duck hunting season for Oregon has opened and it will be lawful to kill up to 50 a week until February 1. Ducks are not plentiful in Oregon so early in the year, but a number are reported on the sloughs just the same, and several parties of hunters will head for them Saturday night. The China pheasant season opens October 1.
