#### OTHER CITIES IN THE SAME FIX.

Medford is not the only place struggling with a water problem. San Francisco has been wrestling for years with the question. The Bay city has been bled for decades by a corrupt corporation that maintained its grip through bribery and corruption. Now, however, citizens are about to throw off the yoke and bring water 170 miles from the Hetch-Hetchy and Lake Tualumne at a cost variously estimated at from \$39,000,000 to \$70,000,000.

Los Angeles is bringing water 240 miles from Owens river at a cost of \$23,000,000. The amount available is 200,000,000 gallons daily supply. Both of these cities have been engaged for years in settling the preliminaries, and arrangements are not concluded yet.

Eugene's water supply is still unsettled. The city recently voted to purchase, at a fat price, the present distributing system, but the bonds have been held invalid and the proposed plans for a gravity system shattered.

Grants Pass has a system of private ownership, which is very unsatisfactory, and discussion is rife over the purchase of the old plant by the city or the construction of a

Countless other cities are in the same fix, and the only satisfactory solution seems to be to do as Medford is doing issue bonds and purchase an adequate supply of pure mountain water, no matter what the cost, but care should be exercised to see that the supply is adequate for present and future needs.

#### THE ACTUAL QUESTION

(Sacramento Bee)

United States Senator Albert J. Ber eridge delivered a speech at Youngstown, Ohio, on Saturday last. It was ublished in The Bee or that date vas its keynote, in the language of

Senator Beveridge: We are midway in an historic move ment for righteoneness written into law. Shall that moment be carried out or wrecked? Its concrete express ion is the Roosevelt policies. Shall they be saved or lost?

Shall the Roosevelt policies be saved or lost; shall the historic movemen for righteensness which has come to be known as Romeveltism by earric

ut or wrecked. That is the dominant question refer-

the voters of this country today.

That movement had its Genesis is he great brain, prompted by the ho anne heart, of William Jennings Bryan Its Chronicles were entrusted by The sople to the hand of Theodore Re elt, who has written the first chapter

of its Acts and stopped his word.
Shall the completion of these Acts
and the conduct and chicidation of the Revelations yet to come be entrusted now to the hand that wrote the Genesis

of this great movement?
Or shall it pass into the hand of th inbeliever, the scoffer, and the enem into the hands of those who repudiated its Pontatench, and in scieme con clave by an overwhelmning majority repudiated all its Acts?

Beveridge has stated the vita, ques It could not have been stated better

### PAPERS NOT CONFIDENT

(Sacramento Bee)

Colliers Weekly is for Taft, and ye ould it not be at all surprised to se Bryan elected.

It says Taft's chances are the better at present—which many republican journalists at heart doubt—but that almost anything can happen between nov and the third day of November.

There is not a republican paper sense within the United States that is today making a positive claim of success for Taft.

Nearly every one of them openly admits that the fight is liable to be auyone's before November, and they earnestly call upon republican leader to be up and doing for the situation is by no means an essured one.

Rumors of the possible proceedings put a stumbling block temporarily at east in the way of the municipal light ing plant were abroad this morning and the expression of the taxpayers and citizens as far as heard upon the subject was one of surprise that such a proeding could be contemplated by lighting corporation which is now sup-plying the city.
