

**Social and Personal**

A good house lot, close in, for sale at a bargain; easy terms. Write M. T. Tribune.

Clarence Snyder, local agent for the Corey Auto company, has left for Portland, where he will obtain a 1909 model Cadillac, four-cylinder, 30-horse power machine. He intends to bring this machine back with him to Medford.

Dr. J. M. Keene has returned from a week's visit at Portland.

J. S. Bentley of Cima, Cal., has been visiting Medford, the guest of W. M. French, the realty broker. Mr. Bentley is much pleased with the valley and may locate.

A choice building lot, close in, in good section, is for sale at a bargain. Easy terms. Write Box 508. 175.

Mrs. J. Uman of Jacksonville has gone to San Jose, Cal., on a business visit.

M. M. Taylor, a prominent business man of Jacksonville, was in Medford one day this week. He informs us that a Bryan club will soon be organized at the county seat.

E. S. Tull, one of the pioneers of Klamath county, who is in Medford, accompanied by one of his sons, has bought a home in our city.

Miss Dalia King, deputy postmaster, who has been spending her vacation in northern California, has resumed her duties.

\$200 down and \$10 per month without interest will buy 10 acres of choice orchard land, one mile from railroad station. Call at our office and we arrange to show you these tracts. Worrell & Duesler, west of Seventh street, near Moore hotel. 170.

Fred Lundahl has resigned as superintendent of the Western Oregon Investment company's orchard, a position he has efficiently filled for several years.

Mrs. B. A. Miller of Portland is visiting in Jacksonville, her former home.

Mrs. Emma Antevith of Roseburg arrived in Jacksonville Wednesday to visit relatives and friends. She resided at the county seat many years ago.

Postmaster Woodford calls attention to the fact that many unmailed post cards are deposited in the mail that have to be withdrawn and sent to the dead letter office. Section 418, paragraph 5, postal laws, and regulations, reads as follows: "Cards bearing particles of glass, metal, mica, sand, tinsel or other similar substances, are unmailed, except when inclosed in envelopes." Postage stamps should be placed upon the envelope, one cent if there is no writing upon the card and the envelope is left unsealed, and two cents when there is writing upon the card.

Judge Neil was over from Jacksonville Wednesday morning.

Brown brothers and J. H. Carlton, business men of Eagle Point, spent several hours in Medford the fore part of the week.

Lorenzo P. Ashbury died at his residence in Medford Monday and was buried Wednesday. Rev. M. F. Horn officiating. He was a native of Virginia, in his 72d year and highly respected by all who knew him.

George F. King arrived from Humboldt county, California, on Wednesday evening's train on a short business visit.

J. D. Gagnou, the contractor and lumber manufacturer and his wife, who have been residing at Jacksonville during the past summer, are in Medford again.

"Bud" Pernoll, McCredie's east-off side-wheeler, is looked upon as the greatest "find" in the Northwestern league this season. McCredie said when he let the wonder go that a season in Applegate sagebrush would iron out his rough spots.

Martin Perry and Louis Pankey of Klamath county are in Rogue River valley to supplies, but will not remain long.

Judge Hanna and District Attorney Mulkey have gone to Grants Pass, where the fall term of circuit court for Josephine county began Monday morning.

**Engineer's Report**

(Continued from page 1.)  
 two miles extra from Big Spring.  
 Material for flume having capacity of 1000 inches. Estimate for flume:  
 Lumber, 3,782,900 feet at \$15 per thousand ..... \$ 56,730  
 Cover for flume, 549,000 feet at \$15 per thousand ..... 8,190  
 Nails and spikes per lineal feet at 3c ..... 4,752  
 Work at \$10 per 100 lineal feet ..... 16,000  
 Trestle work and material ..... 5,000  
 Surveying ..... 3,990

Total ..... \$ 83,582  
 Two miles 18-inch steel pipe across creek at Brownshoro 40,000  
 Eleven miles 12-inch pipe laid to Medford ..... 110,000  
 Reservoir and pipe in Medford 20,000

Total ..... \$233,582  
 "The flume, three feet wide and two feet eight inches deep, will carry 1000 inches. Allowing 100 inches for leakage, leaves 900 miners' inches.

"This estimate contemplates the lumber and braces all cut to the right length at the mill."  
 To this should be added the one-fiftieth as stated above—\$4238. Also the distance from Brownshoro to reservoir is nearly 14 miles.

However, the estimate is close enough for consideration.  
 A ditch having a capacity of 1000 inches would cost about \$2500 for this line, or \$50,000 for the 32 miles. It would be more permanent than the flume, but would be subject to pollution and unfit for drinking without filtration.

A pipeline for the entire distance would cost more per mile than from Little Butte on account of the expensive haul, and the length, though less than flume or ditch, would aggregate close to 40 miles from Medford and make the pipeline alone cost \$400,000.

Flume: I consider the maximum life of such a flume as is proposed ten years, with numerous repairs needed after six years. Too, the interruptions of service in a flume line, from falling timber or other accidents render its operation too uncertain for a municipal supply. The water flowing through a covered flume would be free from pollution, but the temperature would be increased above that in a buried pipe.

I do not advise taking up this project for the following reasons:  
 First—The cost of a pipeline is prohibitive.  
 Second—A flume is expensive to maintain and uncertain of operation.  
 Third—An open ditch of that length is a menace to the public health.

Engineering, valves, contingencies, \$34,000, life 25 years at \$24.01 ..... 816  
 Extensions and distribution, 73,500, 50 years at \$6.55 ..... 481  
 Reservoir, lands, water rights.....

Total ..... \$4897  
 Annual depreciation of pumping system on \$213,000 estimate:  
 Pipeline, \$127,000, 25 years at \$24.01 ..... \$3060  
 Engineering, valves, contingencies, \$28,000, life 25 years at \$24.01 672  
 Extensions and distribution, same as above ..... 481

The following is a reasonable estimate of the annual cost of maintenance and operation for the average period of 30 years. The quantity assumed to be handled in both projects is 4,000,000 gallons daily:

**PAVING PLANT FROM SALEM**

**Warren Construction Company Will Ship Plant to Medford Soon**

(Salem Statesman.)

Salem people who are really concerned in the progress of the city are seriously alarmed at the prospect of the paving plant of the Warren Construction company being pulled up and all street work in the city stopped for a year or two until the company can spare a plant to do the work here that may accumulate in the meantime.

When asked yesterday regarding the report that the company would send the plant elsewhere when the work here is completed, Superintendent Scharf said: "Rock is being crushed in Medford right now for this plant to use in paving in that town. The plant will be pulled up here as soon as the work we are now doing on Commercial street is finished, unless we are given assurances before that time comes that there will be considerable more work here. We have more work ahead than we can do in a long time and cannot afford to waste a day. We should have been done here before, but have been held up by the failure of certain parties to deliver the rock promptly."

"Medford is preparing to pave and expects this plant to come there in a short time. Roseburg is paving and in addition we have contracts at Lewiston, Nampa, Vancouver, Albany and various other places. We have more machines coming from the east, but they are very slow about arriving. If we pull out of here it is very uncertain when we will be able to come back. Possibly next year, but more likely not."

Machinery, \$3500, 20 years at \$33.58 ..... 117  
 Filter plant, \$45,000, 15 years at \$49.94 ..... 2247  
 Building, \$2000, 50 years at \$6.55 ..... 13  
 Reservoir and lands, indefinite.

Total ..... \$6599  
 In the above tables I have not taken any account of either the first cost, or annual depreciation of the pumps and motors at the Gold Bay end of the pumping proposition, but it is manifest that these items can be no inconsiderable amount, and in the end must be met by taxation or revenue paid by water consumers.

The following is a reasonable estimate of the annual cost of maintenance and operation for the average period of 30 years. The quantity assumed to be handled in both projects is 4,000,000 gallons daily:

**Classified Advertisements**

One Cent a Word—No single insertions less than 15 cents. Six insertions for the price of four. Seventy-five cents a line per month.

**FOR SALE**

**An Announcement!**

We have always contented ourselves with word to mouth advertising, believing sincerely in the superior values we have always given the public. In this way the reputation of our store for a close union of value and price is well known to the older inhabitants far and near. For the benefit of the new people coming into Southern Oregon to make their homes, and as a reminder to our old friends, we are from time to time going to set forth in print some of our policies and bargains. We respectfully ask that you look over our ads, or better still, come to the store, and let us show you what we are doing. We will never mark up an article so that we can show a wide difference when it is reduced. Look for the ads.
